Director
Federal Bureau of Investigation
United States Department of Justice
Washington, D. C.

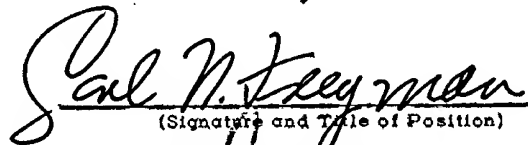

Dear Sir:

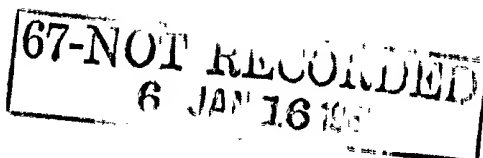

In continuing my employment in the Federal Bureau of Investigation, United States Department of Justice, I hereby agree that I will be governed by the following provisions.

1. That the strictly confidential character of any and all information secured by me or coming to my attention in connection, directly or indirectly, with my work as an employee of this Bureau, or the work of other employees of which I may become cognizant, is fully understood by me; and that neither during my tenure of service with the Federal Bureau of Investigation, nor at any time, will I violate this confidence nor will I divulge any information of any kind or character whatsoever that may become known to me to persons not officially entitled thereto, recognizing applicability to me of penalty provisions in case of any violation by me.
2. That information referred to in Item 1 above includes but is by no means limited to information in the interests of the defense of the United States marked "Top Secret," "Secret," or "Confidential," and that Department of Justice regulations provide specifically for penalty applicable to me for any violation of Executive Order 10501, the basic authority for safeguarding such information, as follows: "Any officer or employee who violates any provision of Executive Order No. 10501, as amended, or of these regulations shall be subject to appropriate disciplinary action. Prompt and stringent administrative action shall be taken against any officer or employee determined to have been knowingly responsible for any release or disclosure of classified defense information or material except in the manner authorized by these regulations. Whenever a violation of criminal statutes may be involved in a deliberate unauthorized release or disclosure of classified defense information, criminal prosecution, in an appropriate case, shall also be instituted."

I further certify that the conditions specified herein are agreeable to me, and that I continue as an employee of the Federal Bureau of Investigation with a full knowledge of the conditions above set forth.

Very truly yours,

 Rating Period: from 4/1/57 to 3/31/58

RATING GUIDE AND CHECK-LIST

Note: Only those items having pertinent bearing on employee's performance should be rated. All employees in same salary grade should be compared.

Rate items as follows:

- + Outstanding (exceeding excellent and deserving of special commendation).
E Excellent.
✓ Satisfactory (good or very good).
- Unsatisfactory.
O No opportunity to appraise performance during rating period.

Guide for determining adjective rating:

- "Outstanding" adjective rating requires (A) that all rated elements be "+" and (B) that each and every rated element be factually justified by narrative detail on reverse of Form FD-185.
- "Excellent," "Satisfactory" or "Unsatisfactory" adjective ratings will depend upon the composite result of evaluating all rated elements rather than following any mechanical formulas; however, for an employee to be rated "Excellent" he must not be rated unsatisfactory on any performance evaluation factors on the rating guide and check-list and must be rated "Excellent" or "Outstanding" on the majority of such rating factors. Good judgment must be exercised to insure that adjective rating is reasonable in the light of elements rated.
 - Any element rated "Unsatisfactory" must be supported by narrative comments.
 - An "official" adjective rating of "Unsatisfactory" must comply with the requirements described on the reverse of form FD-185.

CARL N. FREYMAN #13571
Special Agent
GS-13
EOD 2/2/42

PART I GENERAL COMMENTS

SA FREYMAN is a tall, well built individual, makes an excellent personal appearance and has an effective and pleasing personality. He is assigned as full-time field supervisor of Security Squad #2 which is known as the Major Groups Squad.

SA FREYMAN supervises on an average of 200-250 of the most difficult security cases in the office. Because of other commitments it has been necessary during the rating period to reduce Special Agent personnel to a minimum and he continues to get the most out of the Agents under his supervision. He presently has 22 Agents on the squad. His principal responsibility includes supervision of basic revolutionary groups including the Communist Party, USA, front organizations, top functionaries, key figures, Smith Act subjects and related Security Informant files. He has continued to do a most outstanding job during the past year. Through years of experience in handling Communist theory and practice he has attained an unusual knowledge of the theories of Marxism-Leninism which he has passed on in training other Agents in security work. He has a keen insight and his overall knowledge of the security picture is regarded as one of the best throughout the Bureau's service. He is keenly alert to important matters coming across the desk and has made prompt dissemination of all information to the Bureau and other offices.

During the past year SA FREYMAN has continued to demonstrate excellent organizational ability and his knowledge of duties, industry, productivity, initiative and attitude are considered outstanding. I would be remiss if I did not comment on the fact that because of a temporary personal situation requiring his unavailability for transfer, it was necessary for the Bureau to reduce SA FREYMAN from GS-14 to GS-13 during June, 1957. In spite of this fact, Supervisor FREYMAN has continued to devote many long hours to the Bureau's work reflecting his intense interest in his current assignment. He is without question the hardest working supervisor in Chicago.

Chy
Agent's Initials

SA FREYMAN is fully capable of handling all types of complicated investigative matters, is in excellent physical condition and has personally directed the Agents on his squad on a number of dangerous assignments during the past year. He has been largely responsible because of his persistence and diligence, in securing the best coverage of Communist Party headquarters ever attained by this office. In this connection he was personally commended by the Director on May 22, 1957, for the very fine manner in which he supervised the coverage during May, 1957, of an organization of interest to the Bureau. The Director commented that this was a job especially well done and that the leadership and direction afforded by SA FREYMAN were major factors in achieving such splendid results. The Chicago Office was commended by the Director on October 11, 1957, for the superior direction, supervision and investigative skills with attendant results, in the overall investigation of the Illinois District of the Communist Party. This related to the preparation of charts reflecting the individual membership in the various sections of the Communist Party which were prepared under the personal direction of SA FREYMAN.

SA FREYMAN is available for special assignment wherever his services are needed but is not available for a general assignment at this time. This is due to a personal situation involving the health and financial situation of SA FREYMAN's personal family and concerning which the Bureau has been previously advised.

SA FREYMAN is entitled to a rating in the highest levels of excellent in GS-13.

3.) Participation in Informant Programs

SA FREYMAN continues to give outstanding direction to the security informant program. Agents on his squad are currently handling 62 Security Informant files and a great number of the security informants in the Communist Party and other basic revolutionary groups are under his supervision. He has performed a most commendable job in broadening the overall coverage of all matters under his supervision so that it is today at the highest level ever attained by this office. One Security Informant who was personally developed by SA FREYMAN and who is now under his immediate supervision, has done an outstanding job in providing coverage on a national and international basis. I attribute this success to a large extent to Supervisor FREYMAN's personal persistence and faith in the capable direction of this valuable source of information.

11.) Current Suitability for Administrative Advancement

SA FREYMAN has demonstrated considerably above average supervisory and administrative capabilities. He is interested in continued administrative advancement. As one of the more capable supervisors in this office, he has on numerous occasions functioned on the desk of the ASAC in his absence. Because of his outstanding knowledge of security activities and operations during his years of service in the Chicago Office, SA FREYMAN is frequently consulted by other members of the supervisory staff as well as Agents for guidance. He is a most valuable employee in his current position. LH

Dear Sir:

For inclusion in the fund to be paid to the designated beneficiary of any Special Agent of the FBI who has previously contributed to this fund and who dies from any cause except self-destruction while employed as a Special Agent, I am forwarding herewith (by CHECK - MONEY ORDER) the sum of \$10, payable to the Assistant Director, Administrative Division, FBI, to be included in said fund. Payment will be made for death by self-destruction after the Agent has been a member of the fund for a continuous period of two years. It is understood and agreed that the sum tendered herewith is a voluntary, gratuitous contribution to said fund which I understand is to be administered in the following manner.

The Director of the FBI will appoint a committee which shall consider all matters pertaining to the acquisition, safe keeping and expending of said fund, which committee will recommend appropriate action to the Director in pertinent matters. The Assistant Director of the Administrative Division of the FBI shall receive all contributions and account for same to the Director. Upon the death of any Special Agent who is a member of said fund the appointed committee will consider the case and submit a recommendation to the Director as to its conclusions. Appropriate instructions will then be issued to the Assistant Director of the Administrative Division, directing him to pay to the designated beneficiary the sum of \$10,000. The liability of the fund shall not under any circumstances exceed the amount of monies in the fund at the time any liability shall occur. The following person is designated as my beneficiary for FBI Agents' Insurance Fund:

Chicago Office

Attached is the annual Performance Rating of SA FREYMAN. This rating speaks for itself in attesting to the outstanding job performed by this supervisor during the past year. As Bureau records will reflect, SA FREYMAN because of unfortunate circumstances beyond his control, was unable to accept a transfer to the Bureau, and during June, 1957, was reduced a grade from GS-14 to GS-13 because of his inability to accept this transfer. There has not been the slightest change in the overall attitude of this supervisor inspite of the above action which the Bureau found necessary to take.

I feel that I would be remiss if I did not make comment upon this Agent's attitude and I think it is most graphically demonstrated by the following voluntary overtime average maintained by him during the past year which is the highest of any Agent in Chicago.

April, 1957	4'07"
May	2'53"
June	2'41"
July	5'53"
August	2'36"
September	2'49"
October	2'48"
November	2'41"
December	3'03"
January, 1958	2'50"
February	2'48"
March	3'52"

This record is consistently far above his squad average as well as the office average in each of the twelve months.

SECURITY MATTER - C

b6
b7C

Rebulet March 14, 1958, captioned above.
Report of SA [REDACTED], dated February 21, 1958, entitled, "WASHINGTON PARK FORUM, aka. IS -C."

A review of rerep and page 4 concerning Communist Party (CP) information concerning [REDACTED] has been made, and it is noted from this review that informants report no information concerning [REDACTED] indicating current membership in the CP. The information on Party membership concerning [REDACTED] indicates that he is a former member of the CP, who was expelled. In view of these circumstances, the Bureau is advised that no current report will be written on [REDACTED].

There is enclosed herewith four copies of a memorandum of explanation concerning this discrepancy which was obtained from SA [REDACTED] and his Supervisor CARL N. FREYMAN.

In examining the explanation set forth in this memorandum, I feel that this was an error in proof reading attributable to the agent which did not go to the heart of this investigation since [REDACTED] is a former member of the CP.

I do not feel that the supervisor who approved this report could possibly detect this error without a recheck of individual substantive files of the individual substantive file of [REDACTED].

b6
b7C

An agent error form has been prepared, the agent has been admonished, and this matter will be taken into consideration in connection with the preparation of the agent's next annual efficiency report.

Chicago files have been appropriately changed and the interested agencies have been advised to make this insertion in their copies of rerep.

Reference is made to Bureau letter to Chicago March 14, 1958, entitled, [redacted], SM - C," which refers to the report of SA [redacted] dated February 21, 1958, entitled, "WASHINGTON PARK FORUM, aka., SM - C,"

The Bureau called attention to pages 3 and 4 of SA [redacted] report concerning Communist Party (CP) information of a current nature on [redacted], a member of the Executive Committee of the Washington Park Forum (WPF).

b6
b7C

The Bureau notes that this individual appears to be identical with the subject of Bureau file 101-4874 and Chicago file 100-3955, and that the last investigative report in this matter was dated September 30, 1953.

Rebulet instructed that the [redacted] file should be re-opened if it has not already been done to determine if the [redacted] reported in the report of SA [redacted] is identical with the [redacted] mentioned in rerep.

An examination of 100-3955 fails to reflect information indicating that [redacted] is a member of the CP. The latest information available indicates that [redacted] was expelled from the CP some years ago.

You are requested to secure explanations from SA [redacted] concerning this apparent discrepancy and if there is a discrepancy, to obtain any additional explanations therefore.

Explanation: SA [redacted]

b6
b7C

I have re-examined page 4 of my report in the WPF dated February 21, 1958, particularly the characterization of [redacted], a member of the Executive Committee of the WPF. I have also examined the information furnished by the original source of this information and find that I was in error in inadvertently omitting one word from the characterization of [redacted]. The correct characterization of [redacted] should have been reported as follows:

"[redacted] is a former member of the CP in Chicago, Illinois.

b6
b7C
b7D

(T-3, 2/13/58.)"

In my report I had reported that [redacted] is a member of the CP in Chicago, Illinois. I have rechecked the notes of the stenographer to whom I dictated and note that I inadvertently omitted the word "former" in my dictation. Further, I failed in proof reading this report to note this omission.

In connection with the preparation of this report approximately 13 individuals were characterized and in reviewing my report, I note that where applicable in the other cases, the individuals were described as either "members" or "former members" of subversive organizations as the cases were.

I have no other explanation for this omission but you may be assured that hereafter I will exercise greater care in the proof reading of my reports.

Explanation: Supr. CARL N. FREYMAN

I was responsible for the supervision and approval of the report of SA [redacted] dated February 21, 1958, on the WPF. In reading this report and particularly in reference to the item of characterization

b6
b7C

b6
b7C

on [] it was not possible for me to detect a characterization error of the type that occurred in this report. The sentence as it was stated appeared to be correct and the informant utilized by the agent was known to me to be a current CP member in the South Side Division of the Party, so my assumption was that he was currently reporting this individual as a member of the CP.

My only alternative in detecting such an error would be for me to individually check characterizations of individuals through the substantive files of the individuals.

DOMESTIC INTELLIGENCE DIVISION

ADDENDUM

March 26, 1958

1. ERROR INVOLVED. On page four, report of SA [] dated February 21, 1958, at Chicago, captioned "Washington Park Forum." Bufile 100-129633, an officer of the organization, [] was documented as a current member of the Communist Party (CP) in Chicago. Chicago was requested by Subversive Control in connection with its responsibilities involving individuals to consider reopening the investigation regarding [] in view of information indicating current communist activity, and review by that office reflected no basis for information indicating current CP activity on the part of [].

b6
b7c

2. EXPLANATIONS. PERSONNEL INVOLVED. Reporting Agent [] advised he omitted the word "former" in referring to [] CP activity in dictation and did not notice this omission in proofreading his report. Reviewing Chicago supervisor, Carl N. Freyman, advised it was impossible to detect the incorrect, but reasonable, documentation of [] without checking each individual listed in report. Likewise, Seat of Government supervisors in general practice do not check individual files concerning subversive background regarding officers and members listed in organizational reports.

3. RECOMMENDATION. SAC, CHICAGO. SAC, Chicago, recommends that [] be charged with a form error in that his omission both in the dictation and proofreading of his report did not go to the heart of this investigation as it is noted that [] is a former member of the CP, subject of Bufile 101-4874. SAC recommends no action against the reviewing Chicago supervisor.

4. RECOMMENDATION OF DOMESTIC INTELLIGENCE DIVISION (DID). DID disagrees with recommendations of SAC, Chicago, regarding [] and recommends letter of censure be directed to him. DID agrees with recommendations of SAC, Chicago, regarding no action against Chicago supervisor Freyman. Agencies receiving copies of [] report have been separately informed of this matter with the suggestion that the word "former" be added to [] documentation in copies of this report in their possession. Bureau copies have been corrected.

SYNOPSIS:

SAC Auerbach, Chicago, recommends \$300 cash incentive award for SA [REDACTED] for excellent handling of Chicago Security Informant [REDACTED] from 8-21-56 to present time resulting in informant's elevating himself in the Communist Party (CP) from political activities director and member of the Southside Division, CP, to a delegate to national convention of CP in 1957; delegate to two district conventions in 1957 and presently a member of the District Committee of the Illinois District, CP; and has excellent potential for becoming member of the national committee of the CP. [REDACTED] recently acted as a key person in a factional fight of his CP division which led to suspension of 11 CP members and the recommended expulsion of three CP leaders in his CP section. SAC Auerbach states direction of [REDACTED] by SA [REDACTED] in above matter may have been instrumental in saving nine security informants of the Chicago Office. SA [REDACTED] conditioned [REDACTED] to assist in development of his wife, [REDACTED] as an informant in September, 1957, when she was treasurer of the Southside Division, CP. [REDACTED] under SA [REDACTED] guidance, has obtained transfer to Professional Section of CP and now furnishes information on CP activities of over 20 individuals, a number of whom are doctors, lawyers, teachers, and individuals on whom Chicago Office had no information indicating CP affiliation. Previous attempts to penetrate the Professional Section, which has an estimated membership of 77 persons, have been unsuccessful.

Since Supervisor Julian R. Walters initially developed [redacted] on 5-24-56; was instrumental in initial contact with [redacted] was approved as one of the security supervisors in Chicago Office on 11-14-56 and was promoted to grade GS-14 on 1-26-58, partly on basis of his performance in informant development, SAC Auerbach recommends SA Julian R. Walters be sent a letter of commendation for his performance in developing [redacted] and [redacted].

Supervisor Carl N. Freyman had supervised the handling of [redacted] and [redacted] since they were developed and a very large degree of the success noted is also due to him for his directing the situation with his usual excellence in this field. SAC Auerbach recommends Supervisor Carl N. Freyman receive immediate consideration for promotion to grade GS-14.

Bufiles reflect [redacted] is being paid up to \$500 per month for services rendered plus up to \$40 per month for actual expenses incurred for a period of four months effective 2-22-58 and [redacted] is being paid up to \$215 per month for services rendered plus up to \$25 per month for actual expenses incurred for a period of one month effective 5-22-58. The difference in effective period for [redacted] is due to a recent increase in payments to her and one justification letter covering the activities of both of these informants during the past four months is due prior to 6-22-58.

ACTION:

(1) Domestic Intelligence Division concurs with recommendation of SAC Auerbach that SA [redacted] be afforded a cash incentive award for his exemplary handling of [redacted] and development and handling of [redacted] but it is recommended that the amount of the cash award be reduced from \$300 to \$150 since these informants operate as a husband-and-wife team.

(2) Bufile reflects Supervisor Julian R. Walters was afforded a cash incentive award of \$200 on 8-28-56 for developing [redacted]. Due to the delicate situation involved in initial contact with [redacted], who was not aware that [redacted] had been cooperating with Bureau for many months prior to her being contacted, it is recommended that Supervisor Julian R. Walters be sent a letter of commendation for his valuable assistance in developing [redacted].

DETAILS:

SAC, Auerbach, Chicago Office, has submitted FD-255 recommending a cash incentive award in the amount of \$300 for SA [redacted] for his performance which has involved the overcoming of unusual difficulties. By cover letter, SAC Auerbach points out that SA [redacted] average overtime for the past six months is above the office overtime average.

SAC Auerbach points out that Supervisor Julian R. Walters developed [redacted] and Supervisor Walters with SA [redacted] was instrumental in the initial contact with [redacted] which resulted in her development as an informant. SAC Auerbach recommends only a letter of commendation to Supervisor Walters since he has recently been the recipient of grade GS-14, which was made in part on a basis of his performance in informant development.

SAC Auerbach states that Supervisor Carl N. Freyman has supervised the handling of both of these informants since they were developed by the Chicago Office and a very large degree of the success noted is also due to him for directing the situation with his unusual excellence in this field. SAC Auerbach recommends that Supervisor Freyman receive immediate consideration for promotion to grade GS-14.

According to the information set out in FD-255 to justify the recommended cash incentive award for SA [redacted] SAC Auerbach points out that SA [redacted] has been handling [redacted] since August 21, 1956. He has spent long hours with [redacted] in discussion with regard to the elevation of this informant to key positions of the CP.

It is pointed out that [redacted] was a delegate to the national convention of the CP held in 1957 and he operated as one of the tellers in connection with voting during the convention. He was also a delegate to two district conventions of the CP held in the early part of 1957 and was successful in becoming a member of the District Committee of the Illinois District, CP. Currently, he is also in charge of political activities in the Southside Section, CP, and a member of the Political Activities Committee of the CP in Illinois. On CP instructions, [redacted] is also actively directing publicity in the Congressional campaign of Dr. T. R. M. Howard in the Second Congressional District, Chicago.

Memorandum to Mr. Boardman

RE: SA [redacted]
SA JULIAN R. WALTERS
SA CARL N. FREYMAN

SAC Auerbach states that of recent date [redacted] was a key person in bringing to a head a factional fight in the Southside Division which has lead to the suspension of 11 CP members and to the recommended expulsion of three leaders in this section. The action of this informant in bringing this factional dispute to the attention of the district leadership was not by accident but as a result of discussions and planning with SA [redacted]. SAC Auerbach states that the timing of this action may have been instrumental in saving nine informants of the Chicago Office who were aligned in one faction or another during this fight.

It is believed by the Chicago Office that due to the direction given by SA [redacted], [redacted] has completely solidified himself in the eyes of the district leadership and should a new national convention of the CP be called, it is felt [redacted] has excellent potential for membership in the national committee.

It is also noted that [redacted] was cooperating with the Chicago Office as an informant without his wife knowing of same. [redacted] under the guidance of SA [redacted] initiated a careful plan to condition the wife of [redacted] so that she would be amenable to an approach by Bureau Agents. The wife of [redacted] according to Bufile, has been a very active CP member since 1952, was treasurer of the Southside Division, Illinois District, CP, a member of the Southside Division CP Committee and also a member of the Illinois District CP Financial Committee, thereby being in a position to furnish extremely valuable information. On 9-5-57 SA [redacted] and Supervisor Walters, having been advised by [redacted] that an opportune moment had arisen to contact the wife of [redacted] did contact both of them as "noninformants" and both agreed to cooperate by furnishing information to the Chicago Office. It is to be noted that without the careful planning of both Supervisor Walters and SA Christensen, the possibility existed that [redacted] might have been exposed.

b6
b7C
b7D

Shortly after the development of CG 6183-S, the wife of CG 6066-S, SA Christensen developed a program to move her into more strategic positions in the CP and it was decided to attempt to place her in the Professional Section of the CP, which in recent years has had approximately 77 members consisting of doctors, lawyers, teachers and social workers who operate with complete security and who contribute approximately one-third of all of the CP funds raised in the Chicago area. The Chicago Office has worked diligently to penetrate the Professional Section for many years but up to now has been unable to do so.

Under the guidance of SA [REDACTED] was able to intelligently present her reasons for wanting a transfer from the Southside Division to the Professional Group and on 3-18-58 she was assigned to the Social Workers Club, Professional Section of the CP and attended her first meeting on 4-3-58. On 4-29-58 she attended the Professional Section Convention as a delegate from her club. On 5-20-58 she attended the second half of the Professional Section Convention and to date she has identified over 20 individuals who are members of the Professional Section. The Chicago Office had no live informant coverage on many of the above individuals during the past five years. [REDACTED] is now a member of the Professional Section Committee and her value has increased steadily.

RECOMMENDATION FOR INCENTIVE AWARD

There is attached herewith a recommendation for incentive award for the captioned agent based on outstanding performance involving the overcoming of unusual difficulties in advancing key informants of the Chicago Office to high positions in the Communist Party. Based upon the facts set forth in the attached memorandum of justification, it is recommended that the Bureau approve this incentive award.

Agent [redacted] overtime for the past six months as compared with the overall office average is as follows:

b6
b7C

	SA [redacted]	Office
November, 1957	1'48"	2'13"
December, 1957	2'20"	2'03"
January, 1958	2'13"	2'03"
February, 1958	2'10"	2'19"
March, 1958	2'24"	2'24"
April, 1958	2'32"	2'15"

It will be noted that Agent [redacted] average overtime for the past six months is 2'15" as compared with the office overtime average of 2'13".

Supervisor WALTERS has recently been the recipient of GS-14 and because of his recent reallocation, which was made in part on a basis of his performance in informant development, a letter of commendation only is being recommended in this case.

Supervisor CARL W. SYNOPSIS:

Solo is code name for operation involving CG 5824-S as official liaison representative between Communist Party (CP), USA, and Soviet Union. Information developed in 1956 that Soviets and CPUSA both desired better means of communication. Survey of this over-all matter reflected that CG 5824-S offered our best potential of penetrating any courier apparatus which might be set up between CPUSA and Moscow. Through careful guidance afforded by Chicago Office and deft maneuvering on part of informant himself, CG 5824-S was ultimately selected by Eugene Dennis, CPUSA leader, to go to Moscow as official representative of CPUSA. This information was relayed to Soviets through Tim Buck, Canadian CP leader, and approval of CG 5824-S to act in this capacity was subsequently received from Moscow.

Dennis instructed informant he was on his own as far as technical problems and security aspects were concerned. Many personal and technical problems had to be surmounted prior to trip. Decision was made for informant and his wife, CG 5853-S, to establish new identities which necessitated obtaining such matters as new residence address, driver's license, bank account, birth certificates, passports, et cetera.

Invaluable assistance in over-all operation was afforded by NY 694-S, brother of CG 5824-S. NY 694-S has long been engaged in courier operations between CPUSA and Canadian CP. He was recipient of original information that liaison might be established between Soviets and CPUSA and he has played an extremely important part in ultimate selection of CG 5824-S as CPUSA courier.

All problems and obstacles were ultimately surmounted and CG 5824-S and his wife departed for Moscow on 4-24-58. They spent one month in Moscow, another month touring Russia and 12 days in China. During this period, CG 5824-S conferred with most of highest ranking officials in Russia and China. He returned to this country on July 21, 1958.

Memorandum to Mr. Belmont
RE: SOLO
100-428091

OBSERVATIONS:

1. The excellent and careful planning of this over-all operation is evident through the fact that at no time during this trip was the security of our informants questioned. It is noted that had any such question arisen in either Russia or China, our informant and his wife would undoubtedly have paid with their lives.

2. The information obtained by these informants is invaluable and cannot be estimated in dollars and cents. The information which they brought back is obviously unavailable through any other source and included such matters as the current thinking of two of our most formidable potential enemies, Russia and China, in various international matters including the attitude toward our country. Through this operation, concrete evidence of Soviet financial aid to CPUSA has been established; the first direct liaison between CPUSA and Russia and China has been established; the door has been opened for possible future contacts; and informant has arranged for communications between CPUSA and Russia and China to pass through him.

3. Highlights of information obtained by informant have been disseminated to Vice President Nixon, the White House, the Secretary of State and the Attorney General. Additional information will be divulged when the Director briefs the Cabinet in the near future.

4. The over-all outstanding success of this entire operation has once again solidified the Bureau's reputation as the outstanding intelligence agency in the world.

RECOMMENDATIONS BY SAC, CHICAGO:

By letter 8-22-58, SAC, Chicago, submitted following recommendations concerning the Solo operation:

1. That SA Carl N. Freyman, field supervisor in Chicago Office, and SA [redacted] be afforded incentive awards in the amount of \$1,000 each for their outstanding contributions to the over-all success of this operation. SA Freyman originally developed CG 5824-S and his wife in Spring of 1952. He handled and continued their development for approximately two and one-half years at which time he assumed supervisory duties. Since that time, these informants have been under his direct supervision. SA [redacted] has been assigned to handle these

two informants since March, 1955. SAC, Chicago, points out that both of these Agents have worked tirelessly and have developed an outstanding interest and knowledge of Marxism-Leninism which is essential in the successful maintenance of the services of these informants. The poor health of the informants and many personal problems as well as the high level at which they operate in the CP have constituted obstacles in continuing to maintain their services and in obtaining valuable information which they can furnish. To properly handle these informants requires availability at all hours of the day and on a basis of seven days a week. Since informant's return to United States from Russia, SA [] has worked day and night, seven days a week, in handling the information brought back by the informant.

2. SAC, Chicago, further recommends that [] confidential clerk (stenography), be afforded an incentive award in the amount of \$150 for her valuable contributions to this operation. In reporting the information obtained by CG 5824-S, Miss [] performed outstanding work during the period July 28 through August 19, 1958. During this period she worked a total of 77 hours overtime in taking dictation from the informant and transcribing, typing and putting this information in final form for rapid transmittal to the Bureau. On one occasion, the informant dictated from approximately 4:00 p.m. to midnight with exception of one hour for dinner. On another occasion, the informant dictated a total of 10 hours in one day. This dictation was extremely complicated due to the use of many Marxist-Leninist terms as well as involved names of persons and places in Russia and China. During this period, Miss [] transcribed and typed approximately 400 pages of dictation. SAC, Chicago, points out that Miss [] has demonstrated an outstanding willingness to work long hours in order that this project could be completed in the shortest possible time. b6 b7C

By memorandum Auerbach to Belmont dated 8-26-58, SAC, Chicago, furnished the following additional recommendations:

3. That strong commendatory letters be directed over the Director's signature to CG 5824-S and his wife and to NY 694-S with such letters to be personally delivered by SAC, Chicago, for informants' perusal only and then returned to SAC's safe in Chicago as a security measure. SAC, Chicago, feels this action will provide a distinct morale booster for these informants and should be of considerable assistance in their future handling. He also suggests that he personally deliver both letters in Chicago since NY 694-S will be coming there in connection with conferences with CG 5824-S, et cetera.

Memorandum to Mr. Belmont

RE: SOLO

100-428091

4. That CG 5824-S and NY 694-S be afforded incentive awards for their work. SAC, Chicago, indicated there is an excellent potential for future trips of this nature to be taken by informant and his wife. He also pointed out that through this action, the handling of these informants would be much easier.

RECOMMENDATIONS OF DOMESTIC INTELLIGENCE DIVISION:

With regard to the foregoing recommendations of the SAC, Chicago, the Domestic Intelligence Division recommends:

1. That SA Carl N. Freyman and [redacted] be afforded recognition in the form of incentive awards. It is felt, however, that the recommendation of the SAC, Chicago, in the amount of \$1,000 each is rather high and that a more appropriate figure would be \$500 each. It is noted that this operation is of major value and broad application to the entire Bureau which falls within the scale \$500 to \$725.

2. That [redacted] confidential clerk (stenography), be afforded an incentive award in the amount of \$150. It is felt that her contribution to this operation is of moderate value and broad application to the entire Bureau which falls within the scale \$150 to \$300.

Cr

3. That a personal letter over the Director's signature be directed to CG 5824-S and his wife and a similar letter be directed to NY 694-S. Rather than having SAC, Chicago, personally deliver each of these letters, it is felt that he should confine this matter to personal

delivery of the letter to CG 5824-S and that the SAC, New York, should personally deliver the letter to NY 694-S in order to avoid any potential control problem over the handling of NY 694-S by New York Office. It is felt that should NY 694-S receive his letter from the SAC, Chicago, the informant might possibly feel that the New York Office was not affording him the proper recognition for his services. In order to retain control of these letters, they will be exhibited to the informants but not turned over to them for security reasons. Following examination by informants, the letters will be placed in the safes of the Chicago and New York Offices until such time as their informant activities have been discontinued.

4. That CG 5824-S and NY 694-S be afforded incentive awards in the amount of \$1,000. It is felt that these informants certainly merit recognition for their services in this operation above and beyond their usual remuneration. They have been most cooperative and have explicitly followed the Bureau's instructions in every instance since the inception of the Solo operation. Inasmuch as this operation placed their very lives in danger, their willingness and cooperation in consummating this trip to the Soviet Union is something which they could very well have hesitated to do. It is realized that the amount of \$1,000 to each of these informants is merely a token award when the over-all value of this operation to the Bureau and the country as a whole is considered. This amount, however, is believed to be of sufficient substance as to let the informants know the value which we place upon their services. Through our granting of these awards, the control of these informants will certainly be enhanced and the way should be made easier for any future such trips of this nature.

Memorandum to Mr. Belmont
RE: SOLO
100-428091

5. That personal letters of commendation be afforded SAC R. D. Auerbach and ASAC J. L. Schmit of the Chicago Office under whose personal supervision and direction this operation has been brought to an exceedingly successful conclusion.

Q

ACTION:

1. There is attached for your approval an appropriate communication to the SAC, Chicago, with copy to SAC, New York, Enclosed with this communication is a personal letter of commendation from the Director to CG 5824-S and his wife. Also enclosed for the New York Office is a similar letter directed to NY 694-S. Appropriate instructions are included regarding the manner in which these communications are to be made available to these informants. Instructions are also included to afford CG 5824-S and NY 694-S incentive awards in the amount of \$1,000 each, which awards are to be paid in cash.

Q

2. This over-all memorandum should be forwarded to the Administrative Division for handling relative to the above recommendations concerning incentive awards and commendation.

ADDENDUM:

F. J. BAUMGARDNER

SA William C. Thornton, who serves as Supervisor-in-Charge of the Communist Party, USA, Unit in the Internal Security Section, also has made a major contribution in this matter. He was instrumental in recommending the subject of developing an individual to act as liaison between the Communist Party, USA, and the Communist Party of the Soviet Union be included on the agenda for the Internal Security - Espionage Conference held at the Seat of Government October 22 and 23, 1956. He led the discussion at the conference on this subject and later sent a letter to all offices dated November 2, 1956, outlining the steps to be taken in our efforts to develop such a liaison agent. When, in April, 1957, we learned the Russians wanted to talk to a representative of the Communist Party, USA, Mr. Thornton recognized the opportunity and directed a letter to the Chicago Office dated April 30, 1957, instructing that every effort be made to take advantage of the opportunity of putting CG 5824-S in a position where he would be selected by the Communist Party, USA, to make the trip to Russia. During the entire course of this project, Mr. Thornton closely supervised innumerable details, such as the cover name to be used on the passport; the time the trip should be made; the manner in which the informant would conduct himself when discussing this matter with Communist Party, USA, leaders; the amount of money the informant should take with him; the decision as to whether his wife should make the trip; and a thorough briefing to the informant concerning his security while he was out of the country. He exercised excellent judgment in following this case to insure that proper action was being taken at each stage of development so that ultimate success would be achieved. It is believed recognition of his services is warranted and it is, therefore, recommended he be granted an incentive award in the amount of \$200. Form FD-255 is attached in support of this recommendation.

ADDENDUM:

MR. A. H. BELMONT

Completion of this operation represents particularly noteworthy achievement in the security field. From the inception of this project, Section Chief F. J. Baumgardner, Internal Security Section, constantly directed the efforts being made to establish the liaison link between the Communist Party, USA, and the Communist Party of the Soviet Union. He analyzed the entire problem and concentrated the Bureau's efforts in a number of directions including attempts to set up [redacted] and [redacted] as well as the development of businessmen engaged in the transaction of legitimate business in Russia. When efforts in this direction failed to produce the desired results, he pushed with considerable vigor the idea that CG 5824-S had the potential and under proper guidance and direction could be placed in this liaison capacity. With my concurrence, he provided over-all guidance and direction to this project and contributed many valuable suggestions and ideas throughout the course of the operation. His enthusiastic approach and energetic pushing of this project as well as the good judgment exhibited throughout constituted material contribution to the result achieved and is considered to be of sufficient magnitude to warrant recognition in the form of an incentive award. It is, therefore, recommended he be afforded an award in the amount of \$200 and Form FD-255 in support thereof is attached. b7D

Inspector Joseph A. Sizoo, who is Branch Chief of the Internal Security-Subversive Control-Liaison Branch, also contributed much to the final outcome of this project. He provided over-all supervision, inspiration and energetically pushed the project to its successful conclusion. It is recommended that he be furnished a letter of commendation.

ADDENDUM OF ADMINISTRATIVE DIVISION: 9/5/58, CRD:dmb.

The success in this instance, without question, is probably the most outstanding that has been realized over a period of years in the Bureau's Internal Security work. It is due directly to the exceptional performance of everyone along the line. The greatest recognition, of course, is due to the two agents who developed and handled CG 5824-S. Incentive awards to them and to the others recommended for awards appear entirely justified.

It is noted SOG Supervisor [] has been recommended for an incentive award and his performance in this instance appears to justify same. It is noted, however, that when recently interviewed by Mr. Clayton he declared he was interested and available for advancement in the Bureau but expressed a desire to be immediately assigned to the field as an SAC or ASAC if he was to be considered for advancement. If not, he indicated he would prefer to be transferred to the field as an agent. This matter is being handled separately; however, it is not felt that it should have any bearing on the merits of his performance in this particular case.

HIS ATTITUDE IS EXCELLENT, BEING RECOMMENDED FOR ADVANCEMENT. ERC

Memorandum to Mr. Belmont

RE: SOLO
100-428091

DETAILS:

Background:

From the time we commenced our investigation of CPUSA, we have, of course, known that it was an integral part of the international communist conspiracy and completely subservient to the Soviet Union. In recent years, CPUSA has engaged in extensive campaign seeking to portray itself as an independent organization with no external ties which wants only a peaceful transition to socialism through constitutional means. Its success in this regard can be measured in large part by recent Supreme Court decisions in the security field, reversals of Smith Act convictions in the lower courts, statements favorable to communism by so-called "intellectuals" in this country and the like.

We have long realized that despite all the information we could assemble, nothing could take the place of evidence furnished by an individual who was an integral part of any direct liaison between the CPUSA and the Soviet Union. In order to achieve that goal, we instituted a program in the latter part of 1956 to explore the possibility of penetrating any such liaison between CPUSA and the Soviet Union with one of our established informants or possibly some other cooperative individual.

In 1956, we developed conclusive evidence that both the Soviets in Russia and Party officials in this country were dissatisfied with the system of communications between the Soviet Union and the CPUSA. In an attempt to capitalize upon this information, we conducted a survey of each of our field divisions in November, 1956, regarding the potential of each of our informants of being selected as a courier between the Soviets and the CPUSA. At the same time, we also considered the possibility that certain businessmen who are known to travel to Russia on legitimate business might offer a potential in this regard. Following this survey, the ultimate decision was made that CG 5824-S afforded us the greatest opportunity in this regard.

Memorandum to Mr. Belmont
RE: SOLO
100-428091

Guidance of CG 5824-S into Liaison Capacity:

CG 5824-S is a charter member of the CPUSA. He broke with the Party from 1945 to 1950 during which period he was considered a Browderite. After re-entering Party activities, he was initially developed as a Bureau informant in 1952. Through careful direction and excellent guidance by the Chicago Office, he gradually worked himself back to a position of national prominence in Party circles. His activities in this regard were made doubly difficult in that during recent years, the Party has gone through a period of intense factionalism and it has been only through the most skillful maneuvering not only on the part of the informant himself but Agents of our Chicago Office that the informant has been able to remain in good favor with the Party's top leadership, especially Eugene Dennis who is now recognized as the leader of the CPUSA. The informant's rise to prominence resulted in his attendance at the Party's 16th National Convention in February, 1957, his subsequent selection as chairman of the Party's national affairs commission and his designation as one of two individuals to a national auditing committee which gave him access to information relative to the Party's reserve funds.

Through the extremely close supervision of the Chicago Office as well as the informant's own maneuvering, he was selected in April, 1957, to attend an important meeting of the Canadian CP as an official representative of the CPUSA. In May, 1957, in a similar capacity, he conferred with top-ranking leaders of the Mexican CP.

In July, 1957, Dennis selected CG 5824-S as the person who should proceed to Moscow as the liaison representative between the CPUSA and the Soviets. This information was subsequently relayed to Russia through Tim Buck, Canadian CP leader, and word came back from the Soviets that the informant was approved by the Russians to come to the Soviet Union as an official representative of the CPUSA.

Although Dennis designated the informant to function in this liaison capacity, he told the informant that he would have to work out his own technical problems and that he was on his own in so far as security was concerned.

Many problems and obstacles had to be overcome in order to bring the informant's trip to reality. Numerous plans were considered and lengthy consultations were had with the informant and his wife, who is

Memorandum to Mr. Belmont
RE: SOLO
100-428091

also a Bureau informant, to devise a plan which would not arouse Russian suspicions. It was decided that informant and his wife should assume new identities. This involved three months of planning and necessitated the working out of minutest details including obtaining of new residence address, driver's license, bank accounts, birth certificates, credit cards and, of course, the necessary passports. These obstacles were overcome by Chicago Office in cooperation with our Laboratory. Another problem which had to be considered was the personal health of informant and his wife as well as the maintenance of their home while absent and the handling of local Illinois CP representatives, so that no suspicion would arise due to the long absence of informant and his wife.

The assistance of NY 694-S, who is a brother of CG 5824-S, was invaluable in connection with the various problems regarding travel plans, travel papers, discussions with Tim Buck and other problems arising from the nature of this operation. It is noted that NY 694-S has long been one of our most valuable informants and is utilized by the CPUSA in a courier operation between the CPUSA and the Canadian CP.

All necessary preparations were ultimately completed and on April 24, 1958, informant and his wife left for Moscow. They spent about one month in Moscow, another month touring Russia and 12 days in Peking, China, conferring with the highest ranking Chinese officials. They returned to this country on July 21, 1958.

Results of Informant's Trip:

The excellent and careful planning which went into this operation is clearly evidenced through the fact that the informant and his wife conferred with the highest ranking officials both in the Soviet Union and China without the slightest question being raised as to their security. The information which they brought back as a result of their discussions with the Russian and the Chinese officials could not be duplicated at this time by any other noncommunist nation in the world. The value and accomplishments of this operation are clearly evidenced when we consider the following results:

1. The first direct liaison between the CPUSA and Russia and China in many years was accomplished by an FBI informant.
2. Informant has arranged for communications between CPUSA and Russia and China to pass through him.
3. Future contacts with Soviets and Chinese are now a possibility.

Memorandum to Mr. Belmont

RE: SOLO

100-428091

4. The attitude and thinking of two of our greatest potential enemies, Russia and China, toward the United States have been obtained firsthand by an FBI informant.

5. Concrete evidence of Soviet financial aid to CPUSA has been established.

6. Highlights of information obtained by our informant have been furnished to Vice President Nixon, the White House, Secretary of State and the Attorney General. Further information concerning this operation will be divulged when the Director briefs the Cabinet in the near future.

By memo 9/8/58 the SAC, Chicago, forwarded ASAC Schmit's memo to him of the same date concerning a statement in a recent letter from to the Director that tried to bring to Schmit's attention certain irregularities had noted in the performance of his agent supervisor and that Schmit had told the accusations were ridiculous.

J.E.
ASAC Schmit's memo states he has analyzed the charges made against the Agent Supervisor, Carl N. Freyman, and has no idea what is talking about when says he tried to bring the charges to Schmit's attention. Schmit says statements to this effect and to the effect that Schmit allegedly said accusations were ridiculous are completely false. There are attached hereto the comments of
Supervisor CARL N. FREYMAN reflecting the complete
falsehood and desire to mislead the Director on the
part of [redacted] ASAC J. L. SCHMIT is on leave,
out of the city, and a subsequent communication will
be furnished the Bureau on September 8 as to his
comments concerning the situation.

The Bureau requests any observations I might
have on [redacted] letter, and they are as follows:

(1) Bureau will note that in paragraph 3, he
states that he realizes he has "several alternatives
but I've selected this one first". This is continued
on in the next paragraph with the comment "nor am I
going to print anything which is not true". It is
suggested to the Bureau that [redacted] may endeavor to
bring this situation to the notice of the press.
Should the Bureau feel that this is a reasonable,
possible interpretation, it is suggested that the
Bureau might desire to have [redacted] interviewed as
to this point and remind him of his oath of non-
revelation taken when he entered on duty, plus the
federal statute as to revelation of data; and I expect
that a reasonable interpretation of this could handle
the fact that the things concerned in the case of [redacted]
[redacted] could be tied into the national defense situations
since security work is involved.

(3) There is no point in making any particular comment concerning his statements in paragraph 6 reflecting an alleged dislike by Supervisor FREYMAN as being common knowledge. This can be completely and adequately answered by the fact that Mr. FREYMAN recommended [redacted] for a reallocation in salary.

(4) I doubt that anything is served by again commenting on whether he did or did not accuse FREYMAN of being partial and biased on September 27, 1957. This was all gone into in detail in previous memoranda.

I feel that these allegations have just now occurred to him because certainly they would have come up before in his comments. Further, I am always suspicious of information received from an individual who prefaces it with the statement that he has no hatred nor is he interested in revenge. Per your request, I am replying herewith to the Bureau letter of inquiry of August 26, 1958 referring to the charges made against me by the captioned former Special Agent in his letter to the Director of August 18, 1958.

With regard to [REDACTED] charge that I instructed that a copy of an informant's memorandum not be placed in the Chicago files because of its reference to an outstanding Roman Catholic, this charge is completely untrue. The facts of the matter are that at a squad conference held during [REDACTED] assignment to the S#2 squad, I raised the question of over channelization and the use of judgment in handling informant information. I cited a number of examples when information should be channelized and a number of examples when information should be indexed. On the specific point in issue, I cited as an example a case in which someone in the CP mentions that a prominent individual, for example, Mrs. ELEANOR ROOSEVELT or Bishop BERNARD SHEIL, were referred to as favoring the peace or civil rights issue. I pointed out that simply because these two individuals are mentioned by the CP as sharing a view the CP also shared, it did not mean that they were subversive nor that subversive information was being furnished by the informant concerning them. I stated that the building up of files on this type of information, if disclosed outside the Bureau, could result in embarrassment and I did not desire channelization where the facts were as above indicated. I stated that if the agent felt that there was some question as to channelization of a type of information as indicated above, he could index it but that the agent should use judgment in channelizing. It is felt that these instructions were completely understood by the entire squad, including [REDACTED] and I have never instructed that where substantial subversive information concerning a member of the Catholic faith or any other faith was developed that this information should not be appropriately handled in accordance with the instructions of the Bureau.

With regard to [] allegations that I furnished confidential information from Chicago files to outsiders, this is entirely untrue. I might point out that as part of my duties I am in regular attendance at bi-weekly security intelligence conferences held in this area. I have a personal acquaintance with all of the individuals in attendance and I am frequently contacted by representatives of these agencies regarding information furnished by the Bureau to them or with regard to individuals in whom they are interested. I also have intelligence liaison to some degree with the Security Unit of the Chicago Police Department and I am in more or less regular contact with their representative on security matters in which they also have an interest, such as picket lines, demonstrations, etc. I know all of these individuals by given names and so address them in my conversations with them. These are the only individuals with whom I have contact on a regular basis and to whom I furnish information in conformance with my authority. I have never furnished any information or checked indices for any person outside the Bureau with the exceptions of the above individuals.

In connection with [] allegation that he discussed all of the above incidents with me, and "others", and that he, [] told me that I was not operating in the best interests of the Bureau and that I replied that his attitude was all wrong. I have never had such conversation or conversations with []. I have had conversations regarding attitude with [] on entirely unrelated subject matter in which he was told his attitude was wrong. A number of these conversations concerned his attitude toward the Bureau's requirements for equitable sharing of the work load and the overtime. Suffice it to say that [] and I have never had conversations with regard to my checking of indices or the other incidents which he mentions.

By memorandum 9/3/58 the SAC, Chicago, forwarded the rebuttal of Special Agent Supervisor Carl N. Freyman, Chicago, to allegations made against Freyman by in a letter to the Bureau 8/18/58.

In his letter, had stated Freyman had instructed that a copy of an informant's memorandum not be placed in files because it referred to an outstanding local Roman Catholic; that Freyman furnished confidential information from Chicago files to outsiders; that Freyman was suspected of checking the indices for other individuals; that told Freyman he was not operating in the Bureau's best interests and Freyman replied that attitude was all wrong; that tried to bring these matters to the attention of ASAC Schmit, but was told by Schmit that the accusations were ridiculous.

Freyman explains as to the Roman Catholic matter that he attempted to illustrate at a squad conference when information should be channelized and when it should be indexed. He cited, as an example, a case wherein someone in the Communist Party mentioned that a prominent individual such as Mrs. Eleanor Roosevelt or Bishop Bernard Hall favored peace or civil rights. Just because these two individuals shared a view the Communist Party also shared did not mean they were subversive and the building up of files on individuals on the basis of such information could, if disclosed outside the Bureau, result in embarrassment. Freyman did not, therefore, desire channelization where the facts were as above indicated. Freyman avers he never instructed where substantial subversive information concerning a member of the Catholic faith or any other faith was developed, such information should not be appropriately handled in accordance with Bureau rules.

67-466915-26

Freyman states he has never furnished any information to anyone outside the Bureau or checked indices for anyone outside the Bureau, except ~~3442~~ ³⁴⁴² Office policy, which permitted him to perform such services for representatives of other agencies who attend a bi-weekly security intelligence conference held in Chicago. He adds that he is intelligence liaison with the Security Unit of the Chicago Police Department and is in frequent contact with their representative on security matters in which they are interested such as picket lines, demonstrations, etc.

Mr. Cavanaugh

Freyman denies, in connection with any of the above, [] has ever told
he was not operating in the best interests of the Bureau or that Freyman has replied
[] attitude was all wrong.

ASAC Schmit is out of the city on leave and the SAC will forward Schmit's
comments when Schmit returns 9/8/58.

b6
b7C

The SAC's reaction to [] new allegations against Freyman is they
indicate [] may need medical help. The SAC points out that [] in his letter of
9/18/58 states, "I am not going to make accusations for the sake of accusing nor am I
going to print anything which is not true." The SAC suggests that perhaps use of the
word print indicates [] may try to bring his case to the attention of the press; that
if the Bureau so feels, it might desire to have him interviewed and reminded of his oath
not to reveal confidential data, [] having worked on security cases in Chicago. I do not
think [] use of the word "print" was anything more than poor vocabulary; that what
[] intended to say was he was not going to write or say anything in his letter which
was not true.

It is recommended no further action be taken. When ASAC Schmit's comments

Mr. Carl N. Freyman
Federal Bureau of Investigation
Chicago, Illinois

Dear Mr. Freyman:

It is a distinct pleasure for me to advise you that in special recognition of your outstanding performance in the development and handling of two highly confidential sources of information of extreme importance to the Bureau in the security field, I have approved an incentive award for you. There is enclosed a check in the amount of \$410.00, which represents an award of \$300.00 less withholding tax.

As a result of your superior direction and guidance of this most difficult operation, outstanding and unusual results have been realized and the Bureau's reputation has very definitely been enhanced. I am aware that you have worked tirelessly and have exhibited an excellent knowledge of and interest in this important phase of our operations. Your services are a credit to you and to the Bureau and I am happy to be able to commend you in this fashion.

Office Memorandum • UNITED STATES GOVERNMENT

TO : Director, FBI

DATE: 8-22-58

FROM : SAC, Chicago

SUBJECT: RECOMMENDATION FOR INCENTIVE AWARD

Name of Employee CARL N. FREYMAN	Where Assigned Chicago	Payroll Number #13571
Position, Grade and Salary SPECIAL AGENT GS-13 \$11,090		EOD Date 2-2-42

AMOUNT recommended: \$1,000 (Consult scale on reverse side in determining amount of award.)

BASIS for this recommendation is as follows: (Check one or more as facts justify.)

- ☒ 1. Sustained above-average performance for such period of time as would be reasonable under the circumstances, that merits recognition. (Point out specifically how performance is considered superior. Use examples and illustrations wherever possible. In addition to results attained advise what employee has done to achieve outstanding results.)
- ☐ 2. Exemplary performance of assigned tasks whereby previously unattained records of production are achieved. (Set forth production record with appropriate comparisons.)
- ☐ 3. Exemplary or courageous handling of an emergency situation in connection with or related to official employment. (Describe in detail, listing specific risks or dangers involved and results achieved.)
- ☐ 4. Ideas which have resulted in improved operations. (Summarize ideas and specific improvements therefrom. Set forth first year's net savings, if any, and how computed.)
- ☒ 5. Performance which has involved the overcoming of unusual difficulties. (List specific obstacles, problems, hardships, sacrifices, etc., as well as unusual investigative techniques utilized with results achieved, setting forth precisely how employee overcame obstacles, etc.)
- ☐ 6. Creative efforts, including inventions or techniques, which have increased efficiency, or improved the service. (Describe in detail listing benefits and/or savings resulting.)

JUSTIFICATION: (Set forth below, and attach supplemental page(s) as necessary, a clear, concise report of employee's performance in justification of award. Be specific and omit generalities. Give facts, not conclusions. Not only advise what was accomplished, but how it was accomplished, placing emphasis on performance. Remember that these justifications must be adequate. They may be subject to post-audit outside the Bureau but do not withhold information for security reasons since neither this form nor any confidential information will be made available outside the Bureau for such post-audits.)

Complete justification attached. This recommendation based on fact that value of benefit believed to be extraordinary and of such a general nature as to apply to the entire Bureau. Inestimable savings in agent investigative time, plus fact that this information not available through any other means. It is believed to be the most outstanding achievement which could have been achieved in the Bureau's entire internal security field.

CASH AWARD SCALE

TANGIBLE BENEFITS -- Amount of cash award for contribution resulting in tangible benefits (such as a suggestion resulting in saving of money) is normally based on, but not necessarily limited to, estimated net monetary savings for first full year of operation following adoption.

<u>Savings</u> <u>(Estimated first year's net savings)</u>	<u>Amount of Award</u>
\$1 - \$200	\$10
\$201 - \$1,000	\$10 for the first \$200 in savings and \$5 for each additional \$100 or fraction thereof.
\$1,001 - \$10,000	\$50 for the first \$1,000 in savings and \$5 for each additional \$200 or fraction thereof.
\$10,001 - \$100,000	\$275 for the first \$10,000 in savings and \$5 for each additional \$1,000 or fraction thereof.
\$100,001 - or more	\$725 for the first \$100,000 in savings and \$5 for each additional \$5,000 or fraction thereof.

INTANGIBLE BENEFITS -- Amount of cash award where contribution cannot be estimated on a monetary basis, or results in monetary savings and intangible benefits, shall be determined on basis of its value or benefit to over-all Bureau operations after full consideration of such factors as significance or value of contribution, extent and scope of application, personal danger or risks involved, and importance of program affected.

SOLO OPERATION
INTERNAL SECURITY - C

The above captioned operation involves the successful and now completed mission of having CG-5824-S* designated as the official courier representative from the Communist Party - USA to the Communist Party - Soviet Union as well as the Communist Party of China. CG-5824-S* was accompanied by his wife, [REDACTED]. The actual mission was commenced on April 24, 1958, when the two informants departed from New York City and was completed upon their return to the United States on July 21, 1958. It is now considered completed with the submission of the final details of the results of this mission by Chicago letter to the Bureau dated August 21, 1958.

b7D

Initial Facts Surrounding Problem

One of the principal problems during the past ten years was determining the relationship between the CP - USA and the CP - SU, whether a courier apparatus existed between these two parties in the international Communist movement, whether there was a transmittal of funds, and whether the CP - USA was receiving instructions from any foreign Communist Party.

The Bureau has for a number of years conducted intensified investigation to establish the facts as to the above problems which were highly important to the United States Government, not only to the Bureau in its discharge of its responsibilities in the internal security field, but also in the field of international relations. Obviously, the best possible evidence to obtain would be for a live security informant of the Bureau to be placed into such an apparatus if it existed. Our investigation of the CP - USA fairly well established that for the past ten years little if any liaison existed between the CP - USA and the CP - SU, with possible exception of rumors that [REDACTED] was possibly receiving some funds from the Soviets in this country.

b6
b7C

Method of Penetration of Courier Apparatus

Under direction of personnel of the Chicago Office, CG-5824-S* was successfully guided into the apparatus. This informant, who was initially developed in 1952, had achieved high goals in the Communist Party at a district and national level, culminated by his attendance at the National Convention of the CP - USA in ~~February~~ ^{April} 1957. Under the direction and guidance of Chicago Agents, he aligned himself with the EUGENE, DENNIS forces and during the succeeding two-year period when the CP - USA was fraught with factionalism and intra-Party fights, informant was so handled that he remained in good favor of the top leadership of the CP. This was difficult because when he initially broke with the Communist Party during 1945 through 1950, he was considered a Browderite and it was necessary to rehabilitate himself.

Shortly after the National Convention of the Communist Party in ~~February~~ ^{April} 1957 discussions were had with the informant and [redacted] since they were seeking direction as to what other results could be achieved. The informants felt they had positively reached the highest possible level in the CP and at that time a carefully laid plan was set into operation with two potential results:

b7D

(1) Determining whether there was liaison between the CP - USA and the CP - SU and if so, attempt to penetrate it.

(2) Determine all possible facts regarding reserve funds of the CP - USA and whether funds were being transmitted from foreign countries.

For the past two years all instructions and guidance to CG-5824-S* had as its ultimate objective the accomplishing of the above two aims. The first has been accomplished by the successful completion of the Solo Operation, and the second by informant's being designated as one of two members of the National Communist Party Auditing Committee which gave him access to information relating to reserve funds.

During the two-year period prior to April 24, 1958, CG-5824-S*, together with NY-694-S, made numerous

trips to Canada to establish contact with TIM BUCK, leader of the Communist Party of Canada. In the meantime, CG-5824-S* in numerous conferences with EUGENE DENNIS, head of the CP - USA, gathered information that DENNIS was anxious to establish contact with the Russians. CG-5824-S* during this period of time maneuvered himself in such a way that he would be available to handle such an assignment. The informant transmitted a request of EUGENE DENNIS to TIM BUCK that DENNIS desired a representative of the CP - USA to proceed to the Soviet Union for consultations and recommended that CG-5824-S* make such a trip. During February, 1958, TIM BUCK advised the informant that the Russian leadership had approved CG-5824-S* as the official representative of the CP - USA to come to the Soviet Union. When these facts were transmitted to DENNIS, he was given the greenlight to go ahead but was instructed that he would have to work out all of the technical problems involved to carry out this mission, and that the informant would be on his own insofar as security was concerned.

How Mission Accomplished

b7D

Between the period from February, 1958, until April 24, 1958, a plan was devised whereby CG-5824-S*, and [] who was also to make this trip for security reasons, could accomplish this mission. Numerous plans were considered and lengthy consultations had with the informants to devise a plan which would be feasible and stand scrutiny by the Russians. After careful consideration, it was decided to furnish CG-5824-S* and [] with new identities. This involved three months of planning. The minutest details were worked out including obtaining of new residence address, driver's license, bank accounts, birth certificates, credit cards, and the highly important matter of obtaining passports. All of these were accomplished by personnel in the Chicago Office with some assistance of representatives of the Laboratory. Arrangements had to be made because of many problems involving the personal health of both Chicago informants, problems of the family, the maintenance of their home, the handling of the local Illinois Communist representatives so that the long absence of these two informants would be above scrutiny. The fact that the two informants completed their

mission overseas and met with the top officials in both the Soviet Union and China, and returned safely attests to the success of the operation. Both informants state there was not the slightest question raised as to their security. It is also known that shortly after the arrival of the informants in the Soviet Union, the Soviets made a check through diplomatic channels as to the informants' identities. They passed this test.

Results Achieved

The results of the Solo Operation have been made available to the Bureau and speak for themselves. We have now accomplished two principal objectives in the overall internal security field which are believed to be of inestimable value not only to the Bureau but to the United States Government in the entire overall intelligence field. Only time will tell the full value of this information. The detailed contents, in addition to numerous teletypes and airtels submitted, are contained in 17 lengthy detailed informant reports consisting of 251 pages, bearing dates from August 4 through August 21, 1958. Highlighting the accomplishments and results of this operation, we can consider the following:

(1) Through Solo we were able to have an informant be the person designated as the first official representative of the CP - USA to the CP - SU and CP of China in at least the past ten years. We, therefore, actually penetrated the courier apparatus.

(2) Lines of communication have been opened and we have some control of these communications as to secret messages between the CP - USA and the Russians and the Chinese.

b6
b7c

(3) It was determined that [redacted] has been the center for communications directly with the Russians. This has now been verified.

(4) The door has been opened for future contacts with the Soviets and the Chinese.

(5) Through the apparatus established, we were able to get the viewpoints of the top leadership in the two most powerful groups in the international movement, namely

the Soviet Union and China.

(6) It has been determined that the Russians are sending funds to the CP - USA and channels were opened whereby the Bureau should be able to control to some extent these funds, and at least to determine the amount thereof.

(7) The voluminous information in possession of the Bureau as to political, military, economic, and cultural aspects and viewpoints of the top people interviewed in both the Soviet Union and China should be of inestimable value to the White House, State Department, and other top intelligence agencies for their consideration and guidance.

Personnel Responsible for this
Outstanding Achievement

CG-5824-S* and [] were originally developed in the Spring of 1952 by SA CARL N. FREYMAN, now field supervisor in the Chicago Office. He handled and continued development for approximately two and one-half years until he assumed supervisory duties. Since that time and to the present date, they have been under his direct supervision. SA [] has been assigned to handle these two informants since March, 1955. Both of these agents have been tireless workers in the handling of these two informants, have developed an outstanding interest and knowledge of Marxism - Leninism which is essential in the successful maintenance of the services of both informants. The poor health of the informants and many personal problems, the high level at which they operate, are all factors which constitute obstacles in continuing to maintain their services, good will, and valuable information which they can furnish. This is not an easy job. It requires availability at all hours of the day and on a seven-day-a-week basis. Both SAs FREYMAN and [] have given freely of their own time as is attested by the many long hours of overtime performed in handling the informants. Specifically, SA [] since the return of the informants to the United States on July 21, 1958, has worked day and night, seven days a week, until nearly midnight every night analyzing, digesting, and placing the information in such a form that it could be promptly transmitted to the Bureau within the allotted period. It is believed that major credit for the successful accomplishment of this mission rests on SA [] and Supervisor CARL N. FREYMAN.

b6
b7C
b7D

The development of the Solo Operation has been under the personal supervision and direction of SAC R. D. AUERBACH and ASAC J. L. SCHMIT. ASAC SCHMIT has been, since his assignment as ASAC at Chicago in January, 1955, in close handling of these two informants and has personally met with them on many occasions during the past three years resolving various problems and difficulties arising in directing their activities. SAC AUERBACH personally met with both informants during April, 1958, on two separate occasions prior to their departure, handled the working out of minute details in preparing for this trip, and personally approved all major decisions involving the placing of this apparatus in operation.

Dear Mr. Freyman:

I am taking this opportunity to commend you for your splendid supervision of the handling of a certain program of considerable value to the Bureau in the security field.

You are responsible in a large measure for the success so far realized by the Chicago Division in this program. The ingenuity, initiative and discretion which you have demonstrated in discharging your responsibilities are indeed creditable. I want to thank you for the excellent quality of your performance.

SAC AUERBACH: SA FREYMAN is not available for general assignment at this time due to a personal situation involving the health and financial situation of SA FREYMAN's family, concerning which the Bureau has previously been advised and concerning which there is no change. SA FREYMAN is assigned as full-time field supervisor of Security Squad #2, known as the Major Groups Squad, and has been since November 1, 1954. As such, he is charged with supervising over 200 of the most difficult security cases in the office. He has continued to do an outstanding job. He has an exceptional knowledge of Marxism, a keen insight into the security picture, is an excellent organizer and guides his subordinates in an outstanding fashion. Since the last Performance Rating his voluntary overtime has exceeded the office average every month. By letter dated June 23, 1958, he was commended by the Director for his supervision in the development and handling of 2 Confidential Sources of Information of much value to the Bureau. JH INSPECTOR [] Mr. Freyman makes a neat personal appearance and has a very pleasing personality. During the inspection his squad was not involved in any substantive errors and his errors of form were slightly above the field average. He was instructed to insure that these errors of form are reduced at once.

During the inspection, I had occasion to observe him at a monthly intelligence conference attended by representatives of G-2, ONI, and OSI. During this conference, he briefed those in attendance concerning current Communist Party and splinter group matters, and did same in a most capable fashion. I was very impressed with his thorough knowledge of the various subversive movements in this country. Mr. Freyman is interested in advancement; however, he is unavailable for transfer due to his mother's health. He advised that his mother has cancer and lives in Iowa. He stated that he feels he has to be in close proximity so that he can take care of his mother when the occasion arises. He advises that he feels this obligation very strongly. He advised that he would accept a transfer anywhere within a 500 mile radius of Iowa but was not completely available due to his mother's condition.

RECOMMENDATION: It is felt that Freyman's unavailability is justified, and it is recommended that he be continued in his present position.

[REDACTED]
SPECIAL AGENT
RECOMMENDATION FOR INCENTIVE AWARD

b6
b7C

There is attached herewith a recommendation for an incentive award for SA [REDACTED] based upon the results obtained by the Chicago Division in the Bureau's Counterintelligence Program during the period November, 1956 to present, during which time agent [REDACTED] has acted as co-ordinator of the program in this Division. The justification for this recommendation is attached to the form.

b6
b7C

It should be noted, however, that SA [REDACTED] in addition to co-ordinating the Counterintelligence Program, handles the investigation of the Communist Party (CP), Illinois District, and the CP Brief, and these reports are considered by this office to be among the best in the field in content, organization, and accuracy. SA [REDACTED] has never received an O-17 for any of these reports which in some instances run to approximately 140 pages. SA [REDACTED] is also a relief supervisor of this office.

The agents actually handling the informants participating in this program where actual tangible results are claimed and who are being recommended for commendation are the following:

SA [REDACTED]
SA [REDACTED]
SA [REDACTED]

SA [REDACTED] who handled [REDACTED] and obtained Counterintelligence Program results is not being recommended in this letter since a separate communication is being prepared.

SA [] who actually handled [] when counterintelligence results were obtained has since resigned from the Bureau.

The co-ordinating supervisor on the Counterintelligence Program for whom recommendation for commendation is also being made is SA CARL W. FREYMAN.

The basis for these recommendations on respective agents is as follows:

SA [] has continuously handled [] during the counterintelligence period and as a result of expert handling involving large amounts of time spent in behalf of this informant, SA [] has brought about his advancement inside the CP to the position of a CP District Committee member, a Section Committee member, and a member of the District Education Committee.

b6
b7C
b7D

SA [] through causing [] to actively participate in the Counterintelligence Program, has seen the elevation of this informant to membership on the Illinois District State Committee, the Illinois District State Board of the CP, as well as being appointed to the District Educational Commission, District Industrial Council, District Press Committee, and District Political Action Committee. This informant intelligently participated in controversial discussions where he earned the respect of members of his Section as well as the respect of the District leadership. The latter gain was reflected when the informant was elected as State Chairman of the District Trial Committee which was engaged in obtaining facts preparatory to a hearing of the South Side faction within the South Side Section of the CP. The informant chaired the hearing which resulted in the expulsion of two members and in the conditional expulsion of other members of this faction.

The results obtained in the utilization of [] in the Counterintelligence Program are not being specifically set out because the agent to whom this credit is due has since resigned from the Bureau.

Likewise, a detailing of the results obtained by the agent handling SA [], is not being set forth herein because recommendations pertaining to him are being made the subject of a separate communication.

b6
b7C
b7D

Recommendation is also being made for SA [] based upon his expert handling in the Counterintelligence Program of []. This informant was utilized to disrupt the CP by utilizing a Party weakness of

work in the nationality groups and by carrying of this criticism of Party discontent to the District leadership.

The informant was also utilized in exposing to the District leadership the factional activities of an "ultra-left" group in the Flynn Section which was carrying over factional activity into other Sections of the Party. The informant skillfully handled the reporting of this information to the Illinois District leadership, reflecting outspoken criticism of this leadership. The Flynn Section and individual members of this Section who were involved in this activity have been previously censured by the District and the additional information conveyed by this informant can be expected to increase LIGHTFOOT's animosity toward the Flynn members.

Based upon the over-all results obtained in this program, approval of the above recommendations by the Bureau is requested.

SOLO
INTERNAL SECURITY - C

As the Bureau is aware, captioned Operation has now been completed with the transmittal of the last of 17 separate informant reports from CG-5824-S* covering his activities on this mission, the last two reports being transmitted to the Bureau 8-21-58.

While the Bureau is in the best position to fully evaluate the complete value of the successful conclusion of this Operation, it is my opinion that without doubt this is one of the major achievements which could have been accomplished by Bureau personnel in the internal security field. A thorough analysis and digest of all information obtained as well as complete analysis of the value of the Solo Operation are contained on the attachments to FD-255's which are enclosed herewith.

As reflected on the attachments, I am making the following recommendations:

(2) An incentive award to SA [redacted]

Dear Sir:

For inclusion in the fund to be paid to the designated beneficiary of any Special Agent of the FBI who has previously contributed to this fund and who dies from any cause except self-destruction while employed as a Special Agent, I am forwarding herewith (by CHECK - MONEY ORDER) the sum of \$10, payable to the Assistant Director, Administrative Division, FBI, to be included in said fund. Payment will be made for death by self-destruction after the Agent has been a member of the fund for a continuous period of two years. It is understood and agreed that the sum tendered herewith is a voluntary, gratuitous contribution to said fund which I understand is to be administered in the following manner.

The Director of the FBI will appoint a committee which shall consider all matters pertaining to the acquisition, safe keeping and expending of said fund, which committee will recommend appropriate action to the Director in pertinent matters. The Assistant Director of the Administrative Division of the FBI shall receive all contributions and account for same to the Director. Upon the death of any Special Agent who is a member of said fund the appointed committee will consider the case and submit a recommendation to the Director as to its conclusions. Appropriate instructions will then be issued to the Assistant Director of the Administrative Division, directing him to pay to the designated beneficiary the sum of \$10,000. The liability of the fund shall not under any circumstances exceed the amount of monies in the fund at the time any liability shall occur. The following person is designated as my beneficiary for FBI Agents' Insurance Fund:

Name [Redacted] Relationship Wife Date 10-19-58

Address 514 N. Prospect MAJOR Mt Prospect Ill

The following person is designated as my beneficiary under the Chas. S. Ross Fund providing \$1500 death benefit to beneficiary of agents killed in the line of duty.

Mr. Carl N. Freyman
Federal Bureau of Investigation
Chicago, Illinois

Dear Mr. Freyman:

I am writing to express my appreciation for the excellent manner in which you supervised the handling of a confidential source of information of much value to the Bureau in the security field.

The success which has been realized in this instance can be ascribed in a large measure to your very adroit, aggressive and thorough supervision. You have demonstrated an exemplary amount of skill and ability to handle assignments of this nature and I do not want the opportunity to pass without commending you for your splendid services.

Sincerely yours,

J. Edgar Hoover

Office Memorandum • UNITED STATES GOVERNMENT

TO : DIRECTOR, FBI

DATE: March 2, 1959

FROM: SAC CHICAGO (66-4787)

SUBJECT: SUPERVISORY ORGANIZATION
CHICAGO DIVISION

Rebulet 2/27/59.

To clarify the proposals on the security re-organization, the Bureau is advised that Chicago has recommended that SA JEREMIAH J. HURLEY, heretofore Supervisor of Security Squad #3 (S-3), and that SA [redacted] heretofore Supervisor of Security Squad #6 (S-6), be returned to general assignment.

b6
b7C

Insofar as the squads themselves are concerned squads previously constituting S-4 and S-6 are being eliminated with the work being distributed among the remaining squads-- S-1, S-2, S-3 and S-5.

The Supervisors on each of the proposed desks are as follows:

being continued as proposed in order to avoid relabeling numerous files.

With respect to justification for the proposed removal of SA JEREMIAH J. HURLEY rather than one of the grade GS-13 Supervisors in this office, the Bureau is advised that this matter was fully considered prior to the recommendation made in my letter of February 17, 1959, and it was realized that the recommendation would entail the loss of GS-14 for SA HURLEY.

b6
b7C

The basis for the recommendation was solely for the best interests of the Bureau. Of the criminal Supervisors, only SA [] is in grade GS-13. He handles an applicant desk upon which there is a very large volume. He is also responsible in this connection for liaison with numerous government agencies, the American Bar Association, universities, etc., which he has established on a very high plane. Under the proposed realignment, he will take on additional work of a criminal nature. SA HURLEY's background has been security and it is believed that SA HURLEY's experience can best be utilized in security work, and for this reason my recommendation that SA [] continue as Supervisor of C-5 is re-affirmed.

On the security side, Supervisors CULKIN and FREYMAN and [] are in grade GS-13. It has been recommended and the Bureau has approved that SA [] be returned to general assignment.

With respect to SA FREYMAN, he is undoubtedly one of the most informed agents in the entire FBI on Marxist principles. He has been directly involved in the development and the operation of CG 5824-S. He has clearly demonstrated his ability to handle the work he presently supervises, and it is believed that a re-assignment of SA FREYMAN would result in a less efficient operation for the Bureau.

As between SA CULKIN and SA HURLEY, therefore, I was faced again with the problem of the over-all best interests of the Bureau. SA HURLEY will complete 20 years service with the Bureau on May 27, 1960. He is presently 52 years of age. SA CULKIN, on the other hand, although a comparatively new Supervisor, is only 33 years of age and has a long and, I feel confident, increasingly responsible career before him in the Bureau.

CG 66-4787

Both SA CULKIN and SA HURLEY have demonstrated their ability as Supervisors, but from a long range standpoint, I feel that it should be Supervisor CULKIN, rather than Supervisor HURLEY, who should be retained.

The Bureau's attention is also drawn to the fact that SA HURLEY is in the first gradation of GS-14 with the previous history of having six ramspect raises in grade GS-13. Accordingly, the difference in referring SA HURLEY back to grade GS-13 would normally, I expect, put him into 13X, which is \$11,330, as against his present GS-14, which is \$11,355, or a total difference of \$25 a year.

Mr. Mohr

3/6/59

W. S. Tavel

**SUPERVISORY ORGANIZATION
CHICAGO DIVISION**

On 2/10/59 SAC, Chicago was instructed to abolish one criminal and two security supervisory desks. On 2/17/59 SAC submitted his proposed reorganization. Bureau approved his proposal to abolish Criminal Desk #6 and Security Desk #6 and his proposed reorganization; however, it was not clear as to whether he intended to abolish Security Desk #3 and #4. Accordingly, SAC was instructed to submit clarifying information in this regard and to justify his recommendation that Supervisor Jeremiah J. Hurley, Security Desk #3, be returned to general investigative assignment since Hurley was in grade GS-14 and there were 3 remaining GS-13 Supervisors in Chicago.

By letter 3/2/59 SAC advised that Security Desk #4 is being abolished and that under his reorganization SA Joseph M. Culkin, who was Supervisor of Security Desk #4, would be designated as Supervisor of Security Desk #3.

b6
b7C

SAC states that his recommendation that SA Hurley be relieved of his supervisory duties was made solely for best interest of Bureau. States there was one Criminal Supervisor in grade GS-13, namely SA [redacted] SAC feels [redacted] should continue as Criminal Supervisor as he has considerable experience on particular desk and as SA Hurley's background has been security and he feels Hurley's experience can best be utilized in security work. States that two Security Supervisors, namely SA Culkin and SA Carl N. Freyman are in grade GS-13. States Freyman is undoubtedly one of the most informed agents on Marxist principles. He has been directly involved in the development and operation of a highly confidential informant of utmost value to the Bureau. He is a most able Supervisor and SAC feels his reassignment would result in less efficient operation. Between SA Culkin and SA Hurley SAC notes that SA Hurley will complete 20 years service on 5/27/60 and is presently 51 years of age, while SA Culkin is 33 and SAC feels he has a long and increasingly responsible career before him. States both Culkin and Hurley have demonstrated their supervisory ability but from long range standpoint he feels SA Culkin should be retained rather than SA Hurley.

Approved as Supervisor 3-29-58 and on 4-18-58 he was advised of his promotion to grade GS-14 effective 4-20-58 and that this promotion would remain in effect only for duration of present supervisory assignment. Services as Supervisory satisfactory and rated Excellent on 1958 annual performance report.

SA [] EOD as SA 8-16-43 and is in grade GS-13, \$10,130. Approved as Supervisor 3-29-55. Rated Excellent on 1958 annual performance report.

SA Freyman EOD 2-2-42 and is in grade GS-13, \$11,090. Approved as Supervisor 11-1-54. Promoted to GS-14, 1-1-56. On 8-17-57 ordered under transfer to SOG. SA Freyman and SAC requested transfer be canceled due to personal problem confronting him. Per Director's instructions SA Freyman was demoted from GS-14 to GS-13 due to unavailability and continued in his supervisory position. SA Freyman continues to be unavailable due to a personal problem. Rated Excellent on 1958 annual performance report and file reflects he has been doing an exceptionally fine job as a Supervisor.

SA Culkin EOD 12-18-50 and is in grade GS-13, \$9,890. Approved as Supervisor 11-14-56. Rated Excellent on 1958 annual performance report and he has been performing supervisory duties in a very satisfactory manner.

Inspector [] who inspected Chicago Office in October 1958, has advised that based on his observations during inspection he feels SAC's recommendation regarding removal of SA Hurley is proper.

b6
b7c

In regard to proposed demotion of SA Hurley, it is noted that he is a non-veteran and has been in his grade GS-14 less than two years.

RECOMMENDATIONS:

1. That SAC's proposal to abolish Security Desk #4 be approved.

Memo to Mr. Mohr
Re: Supervisory Organization
Chicago Division

RECOMMENDATIONS CONTINUED:

2. That SA Hurley be relieved of his supervisory duties and be returned to general investigative assignment and demoted from GS-14 to GS-13.

3. That SA Culkin, Supervisor of Security Desk #4 which is being abolished, be designated as Supervisor of Security Desk #3 to replace SA Hurley.

PERFORMANCE RATING GUIDE FOR INVESTIGATIVE PERSONNEL

(For use as attachment to Performance Rating Form No. FD-185)

Name of Employee CARL N. FREYMAN #13571 Title Special Agent
Rating Period: from 4/1/58 to 3/31/59

RATING GUIDE AND CHECK-LIST

Note: Only those items having pertinent bearing on employee's performance should be rated. All employees in same salary grade should be compared.

Rate items as follows:

- + Outstanding (exceeding excellent and deserving of special commendation).
E Excellent.
✓ Satisfactory (good or very good).
- Unsatisfactory.
O No opportunity to appraise performance during rating period.

Guide for determining adjective rating:

- "Outstanding" adjective rating requires (A) that all rated elements be "+" and (B) that each and every rated element be factually justified by narrative detail on reverse of Form FD-185.
- "Excellent," "Satisfactory" or "Unsatisfactory" adjective ratings will depend upon the composite result of evaluating all rated elements rather than following any mechanical formulas; however, for an employee to be rated "Excellent" he must not be rated unsatisfactory on any performance evaluation factors on the rating guide and check-list and must be rated "Excellent" or "Outstanding" on the majority of such rating factors. Good judgment must be exercised to insure that adjective rating is reasonable in the light of elements rated.
 - Any element rated "Unsatisfactory" must be supported by narrative comments.
 - An "official" adjective rating of "Unsatisfactory" must comply with the requirements described on the reverse of form FD-185.

PART I. GENERAL COMMENTS

SA FREYMAN is a tall, muscular, well built agent who makes an excellent personal appearance. He has an excellent personality, his outstanding characteristic being his obvious conscientiousness and sincerity. He can handle the most complicated investigation matter, is fully qualified to participate in raids and dangerous assignments and is available for special assignment, but is not available for general assignment due to the necessity of supporting his mother, concerning which the Bureau has previously been completely advised. There is no change in the status of this situation. He has no known physical limitations and used no sick leave whatsoever during the rating period.

By letter dated June 23, 1958, he was commended by the Director for the excellent fashion in which he supervised the development of two confidential sources of information of much value to the Bureau in the security field, he having demonstrated fine judgment, initiative and alertness. By letter dated September 12, 1958, the Director advised that in special recognition of SA FREYMAN's outstanding performance in the development and handling of two highly confidential sources of information of extreme importance to the Bureau in the security field he was given an incentive award of \$500. The Director commented that as a result of his superior direction and guidance of this most difficult operation, outstanding and unusual results have been realized and the Bureau's reputation very definitely enhanced. The Director stated that SA FREYMAN's services are a credit to the Bureau. By letter dated December 9, 1958, he was again commended by the Director for his splendid supervision of the handling of a program of considerable value to the Bureau in the security field as he had demonstrated ingenuity, initiative and discretion. This commendation related to the counter-intelligence program concerning the Communist Party of the U.S.A.

SA FREYMAN, during the rating period, has continued as supervisor of security squad #2. Cases on this desk are some of the most difficult security cases in the office, including basic revolutionary groups, front groups, top functionaries, key figures

CN

and security informants. SA FREYMAN is thoroughly versed in Marxist principles and is a scholar in this field. He has an outstanding over-all knowledge of the security picture. He anticipates developments and prepares for them, has ideas and thinks. SA FREYMAN is a very hard worker. His voluntary overtime has exceeded the office average in every month of the rating period for which figures are available.

Captioned matter pertains to liaison activities of CG 5824-S between the Communist Party (CP), USA, and the Soviet Union. In connection with the most recent phase of this operation, the informant recently returned from a trip to the Soviet Union where he served as an official delegate of the CPUSA to the Soviet 21st Congress. Upon his return to this country he has been exhaustively interviewed by Agents of the Chicago Office and the results have been furnished to the Bureau. By airtel 3-25-59 Chicago Office advised that all pertinent information has now been obtained from the informant and forwarded to the Bureau.

Review of this material discloses that once again the informant has scored a major accomplishment. While in Russia he conferred with many top-ranking Soviet functionaries including members of the Presidium as well as members of the Central Committee of the CP of the Soviet Union (CPSU). During these discussions he obtained such pertinent information as the Russian attitude toward Berlin which data was disseminated to Vice President Richard M. Nixon; Honorable Gordon Gray, Special Assistant to the President; Honorable Christian A. Herter, Under Secretary of State; Mr. Allen W. Dulles, Director, Central Intelligence Agency; and the Attorney General. The informant also conferred with top-ranking functionaries of many other communist parties throughout the world as a result of which he obtained valuable information not only concerning the communist movement in those particular countries but their relationship with the CPUSA. Consideration is now being given to disseminating the pertinent portions of this information to appropriate agencies. In addition, and probably the most important, the informant has solidified his position as the major connecting link between the Party in this country and the Soviet Union as indicated by the instructions he received from the Soviets to personally set up a clandestine apparatus to handle the transmittal of finances and communications from Russia to the CPUSA.

The successful conclusion of this most recent phase of the Solo operation can be directly attributed to the outstanding and resourceful work on the part of certain personnel of the Chicago Office. Particularly noticeable have been the contributions made by the following:

RE: SOLO

SA [] is the Agent of the Chicago Office who is responsible for the immediate handling and day-to-day operation of CG 5824-S on our behalf. During the entire period of this particular phase, SA [] has consistently provided the necessary initiative and alert handling of this informant which has been vital to the over-all success. In addition to overcoming the difficulties inherent in a case as involved as this, SA [] was also faced with an unusual situation concerning the serious physical condition of the informant's wife who is inflicted with cancer. The skillful and adroit manner in which this obstacle was overcome by SA [] is certainly worthy of recognition.

SA Carl Freyman is the coordinating security supervisor in the Chicago Office and in this capacity has been responsible for the close and continuous supervision of this matter. In addition to his supervisory functions, it has frequently been necessary for him to have personal contact with the informant in order to resolve the various difficulties and problems which have arisen. The ultimate success of the operation clearly attests to the fact that SA Freyman has done an outstanding job in fulfilling his duties.

SAC Auerbach of the Chicago Office has taken a keen personal interest in this case. Upon the informant's return to Chicago, SAC Auerbach personally saw to it that the pertinent highlights of the informant's trip were immediately obtained. He recognized the desirability for speedy handling of this material and made the necessary arrangements for its prompt transmission to the Bureau via commercial airline pilot. Subsequent to this, SAC Auerbach insured that the informant was interviewed in detail regarding all facets of this operation.

[] confidential clerk (stenography), has performed outstanding work during this most recent phase of the Solo operation. Immediately upon the informant's return to Chicago and his subsequent interview, she has taken practically all of the dictation from the informant. This dictation has been extremely complicated due to the use of many Marxist-Leninist terms as well as involved names of persons and places in the Soviet Union. In addition in order to guarantee security in this case, it has been necessary for Miss [] and the contacting Agent to meet the informant away from the Chicago Office in order to obtain the necessary dictation. Miss [] has consistently demonstrated outstanding willingness to perform long hours of work and has been instrumental in the prompt transmittal of this information to the Bureau.

ADDENDUM:

F.J. BAUMGARDNER

In addition to the above, SA [] to whom the Solo case is assigned has also made a major contribution in this matter. From the time it appeared possible that CG 5824-S might be selected as an official delegate of the CPUSA to the Soviet 21st Congress, SA [] has afforded this matter intensive supervision and direction. During this entire phase of this operation it has been necessary for [] to closely supervise the many various details which have insured the success of this operation. He has consistently exercised excellent judgment in following this development to insure that the necessary and proper action was being taken at each stage of the operation. Upon the informant's return to this country, [] has carefully analyzed the information received and promptly disseminated certain information on a top-level basis. Where dissemination has not been deemed advisable for security reasons, he has prepared the necessary memoranda bringing the information to the attention of appropriate Bureau officials. If and when security conditions permit, [] is prepared to disseminate additional data received in this operation.

Miss [] who serves in the capacity of secretary in the CPUSA Unit has very capably handled stenographic and clerical operations and has been responsible for preparing high level dissemination made to date in connection with this matter. Miss [] has consistently displayed a cooperative attitude and on several occasions performed long hours of overtime in order to handle the various phases of this operation.

In view of the foregoing, it is recommended SA [] and Stenographer [] be afforded personal letters of commendation for their contributions to the over-all success of this operation.

Dear Mr. Freyman:

I am taking this opportunity to express my appreciation for your excellent performance in connection with a matter of great importance to the Bureau in the security field.

The outstanding results realized in this instance can be attributed to the splendid initiative, foresight and resourcefulness which you displayed in suggesting a most effective technique. Your services were of the highest caliber and certainly contributed much to the success of the Bureau in this phase of its operations. I am indeed pleased to commend you.

SUGGESTION #1194-59
SUBMITTED BY SA CARL N. FREYMAN
CHICAGO DIVISION

SUGGESTION: That letterhead memoranda designated for the Bureau should be attached to the outgoing cover letter by paper clip but each copy of the letterhead memorandum prepared for an auxiliary office, or for the files of the office preparing it, should be stapled to a copy of the cover letter. It also is proposed that the cover letter and letterhead memorandum should be considered as one serial when filing and the memorandum should not be listed as enclosure for either the transmitting office file copy or for auxiliary offices. Copies of the letterhead memorandum would be listed as enclosures on the transmittal letter for the Bureau.

ADVANTAGES STATED: Suggester feels that adoption of his idea will prevent receipt of copies of letterhead memoranda detached from cover letter which results in extra clerical work.

PRESENT PROCEDURE: Manual for Field Stenographer, Section 3, page 3, provides that copies of communications being sent to the Bureau are to be clipped together at the top left as are copies being sent to another field office.

OBSERVATIONS: SACs Boston, Baltimore, Philadelphia and San Francisco all recommend against adoption of suggestion because none had experienced any difficulty in memoranda becoming detached from cover letter and all felt problem not a serious one. Other objections were: (1) It would be extra work for the stenographers; (2) it would unnecessarily require a copy of the cover letter for each copy of the memorandum and cause a filing problem; (4) it creates another situation where there is an exception to the general rule; (5) proposed system might cause confusion particularly on the part of inexperienced stenographers.

RECOMMENDATION: That suggestion not be adopted. No further action necessary as suggester was thanked by letter of 5/20/59.

SUGGESTION

Re: Assembly of Letterhead and/or Blind Memoranda with Cover Letter:

No change would be recommended with regard to attaching the memorandum to the cover letter for Bureau copies because there does not appear to be an assembly problem involved at the Bureau. With regard to the letterhead memorandum going to auxiliary offices as well as copies of the letterhead going to local field division files, it is felt that if the letterhead for each file copy would be stapled to the cover letter going to a given file the problems described could be eliminated. It is suggested that the Bureau consider adding to Item #9 at page 35, part 2, section 4 of Manual of Rules and Regulations under the caption "Transmittal" the following:

See page 1A

Current practice or rule (Include manual citation as well as facts)

See attached page, 1B

Advantages of suggestion and annual savings (include basis for estimate)

A considerable volume of letterhead memoranda are received in each office and at the Bureau each day. When several copies of a cover letter and letterhead memoranda are received in an auxiliary office in a detached state or attached to only one copy of the cover letter, letterhead memoranda frequently become separated from the cover letters designated for other files causing a clerical and administrative problem. It is not possible to estimate annual savings to the Bureau but the volume of correspondence of this type of communication is increasing daily and it is felt that substantial savings could be had at both an administrative and clerical level.

Disadvantages of suggestion

Suggestion:

Letterhead memoranda designated for the Bureau should be attached to the outgoing cover letter by paper clip in the numbers required under item #3. Each letterhead memorandum prepared for an auxiliary office or for the files of the local field division should be stapled to the copy of the outgoing cover letter. The cover letter and the letterhead memorandum should be considered as one serial for the file. The letterhead memorandum should not be listed as enclosures for either the transmitting office file copy or for auxiliary offices to whom the communication is directed. They should be listed as enclosures on the transmittal letter for the Bureau.

The above suggestion has been considered in this office by the administrative personnel and it is felt that considerable clerical and agent time can be saved by the invocation of this suggestion.

Current Practice

Reference is made to Section 4, Part 2 of the Manual of Rules and Regulations, page 34 and 35 setting forth instructions concerning the preparation of letterhead and blind memoranda and cover letters.

In reference to the assembly of both of the above described communications for transmittal to the Bureau and other offices, a problem has arisen in this office which it is believed could be remedied by a clarification of the Manual with regard to assembly.

It is our understanding that at present a cover letter or blind memorandum is prepared for the Bureau in appropriate numbers and submitted to the Bureau attached to the cover letter with a paper clip.

Frequently, in the preparation of these memoranda cover letters and enclosures of the same subject matter are prepared for auxiliary offices as well as local Chicago files in considerable number.

It has been noted in transmittal of these letterhead memoranda frequently this office receives five or six letterhead memoranda and the same number of cover letters for five or six separate files. Frequently, all of the letterhead memoranda come attached to one incoming copy of the cover letter resulting in a separation of the remaining five or six letterhead memoranda from their respective cover letters. The end result is that when the cover letters reach separate desks in an office they are frequently received without the attached memoranda and a clerical problem of matching the detached memo with the proper cover letter results.

The present system of separately block stamping the cover pages and the letterhead memorandum, thus making them two serials, also appears to be undesirable because one is dependent upon the other, both for filing and information purposes. It would appear that the same rules with regard to serialization of current reports and cover sheets should also apply to cover letters and letterhead memoranda.

P9-31
Chicago F.O.
 By letter dated 6-10-59 the Chicago Office (CGO) recommended letters of commendation for Chicago SAs [redacted] and [redacted]; Carl V. Mason; Carl N. Freyman and [redacted] counterintelligence operation upon which recommendation based was set forth in the memorandum from Mr. Baumgardner to Mr. Belmont dated 6-2-59 on which the Director noted, "an excellent operation."

b6
 b7C

Briefly, the operation was this: The CGO ascertained that communist elements were secretly planning to pack the 5-22-59 meeting of the Chicago branch of the National Association for the Advancement of Colored People (NAACP) with "left caucus" members at which nine Chicago branch delegates were to be elected to the national convention of the NAACP. Since the Chicago branch has approximately 20,000 members, its delegates at the national convention would have a powerful voice in voting for national officers and setting the national policy. The communists, through their "left caucus," hoped to elect nine delegates previously selected and favorable to the communist cause. The CGO requested authorization to prepare an anonymous letter to Theodore A. Jones, president of the Chicago NAACP, and thereby tip him off to the communist plans. The Bureau authorized the mailing of the anonymous letter and also a follow-up anonymous telephone call designed to impress Jones with the danger the communists posed for his organization. The counterintelligence plans worked out perfectly.

Jones thwarted the communist plans by keeping the location of the 5-22-59 meeting secret from the "left caucus" until the last minute. He packed the meeting with "enfranchised" members of the United Steel Workers of America Union, whose hall he adroitly selected for the meeting. The "left caucus" slate of delegates was "buried under an avalanche of Jones votes." The highest procommunist candidate badly trailed the lowest anticommunist delegate elected. This defeat was a serious blow to the communist elements inside the NAACP.

Memorandum to Mr. Belmont

RE: COMMUNIST PARTY, USA
COUNTERINTELLIGENCE PROGRAM
100-3-104

According to Chicago letter of 6-10-59, the initial idea for this counterintelligence operation came from Supervisor Carl N. Freyman and was further developed by SA [redacted] to whom the Counterintelligence Program is assigned. SA [redacted] worked closely with SA [redacted] who handles the investigation of the Chicago branch of the NAACP, and with SA [redacted] who handles Chicago informant [redacted] who is a member of the "left caucus." SA Carl V. Mason assisted in this matter by writing the anonymous letter and making the anonymous telephone call to Jones. CGO recommended letter of commendation for each of these Agents.

b6
b7C
b7D

OBSERVATIONS:

The Domestic Intelligence Division disagrees with the recommendation of the Chicago Office that five letters of commendation are warranted. While the operation was as successful as could be hoped for, it is recommended the originator of the initial idea for this operation, namely SA Carl N. Freyman, be afforded a letter of commendation. Remaining Chicago Agents performed well in carrying out assignments to a successful conclusion but not to the extent that individual letters of commendation in this case are justified.

RECOMMENDATION:

It is recommended that SA Carl N. Freyman be afforded a letter of commendation in accordance with comments set forth above. If you approve, this memorandum should be forwarded to the Administrative Division for further consideration.

Re: COMMUNIST PARTY, USA
COUNTERINTELLIGENCE PROGRAM
100-3-104

ADDENDUM: AHB:CSH

I am familiar with this operation and am aware that in the consideration afforded the original proposal, Fred J. Baumgardner, Chief of the Internal Security Section, offered a suggestion to implement the operation. It was felt that upon receipt of the anonymous communication, Jones might attribute it to a "crank" or a "nut," thereby discounting its accuracy and the authenticity of the comments contained therein. To avoid this possibility, Mr. Baumgardner suggested that the letter be followed up with an anonymous telephone call to serve to impress the recipient with the seriousness of the threat with which he was faced and to get across the necessity for immediate affirmative action on his part. This device, it is felt, was equally as effective as the anonymous letter, if not more so. Since Mr. Baumgardner's contribution added to the high degree of success attained by this counterintelligence operation, I recommend he also be afforded a letter of commendation.

ADDENDUM OF ADMINISTRATIVE DIVISION:

per
CRD:ksa 6-18-59

This was an exceptionally fine over-all operation and although SA Carl N. Freyman of the Chicago Office and Section Chief Fred J. Baumgardner appear to be deserving of commendation for their major contributions, it is also felt that other agents in the Chicago Office should be recognized. SA Carl V. Mason who prepared the anonymous communication and made the anonymous telephone call which were responsible for the excellent results attained certainly appears deserving of commendation. A general letter to the office encompassing the other agents would be most appropriate.

RECOMMENDATIONS:

1. That SAs Carl N. Freyman and Carl V. Mason of the Chicago Office and Section Chief Fred J. Baumgardner, SOG, be individually commended for their major contributions to the success of this operation.

Re Chicago letter to the Bureau dated May 14, 1959 captioned "COMMUNIST PARTY, USA- COUNTERINTELLIGENCE PROGRAM. INTERNAL SECURITY - C", Bufile 100-3-75. Reference also Bureau airtel to Chicago June 3, 1959 entitled "COMMUNIST PARTY, USA- COUNTERINTELLIGENCE PROGRAM. INTERNAL SECURITY - C" referring to the above referenced Chicago letters.

In accordance with the suggestions of the Bureau as reflected in its airtel of June 3, 1959 to the effect that the Bureau was pleased to note that "the left caucus" was badly defeated in its effort to elect nine candidates as delegates of the 1959 convention of the National Association for the Advancement of Colored People (NAACP) at the Chicago Branch meeting of the NAACP held May 22, 1959, the following are suggestions for recommendation for commendation for the suggested technique of the anonymous letter to THEODORE A. JUN 1 1959

The initial idea for this counterintelligence move was that of Supervisor CARL N. FREYMAN of this office. The suggestion was made by Supervisor FREYMAN that the idea be developed by the agent handling the Counterintelligence Program, SA [redacted] by the agent handling the investigation of the Chicago Branch NAACP, SA [redacted], and with the assistance of the agent handling [redacted] a member of the "left caucus", SA [redacted]
[redacted]

The end result of the combined efforts of these agents was contained in the recommendation of Chicago as set forth in its letter of May 14, 1959 to the effect that THEODORE A. JONES be advised by anonymous letter of the existence of the "left caucus" in the NAACP and further, of the identities of some of the individuals in the "left caucus" who were Communist Party (CP) members and who had prepared the "left caucus" slate to present to the Chicago Branch conference electing delegates to the national NAACP Convention from the Chicago Branch. The letter itself was carefully worked out through the combined efforts of these individuals after all of the details involving the formation of this slate had been obtained from the excellent informant coverage of this office in the NAACP.

Following the authorization received from the Bureau to pursue this counterintelligence move, the services of SA [redacted] were requested to write the letter and to make an anonymous telephone call to THEODORE A. JONES, President of the Chicago NAACP, furnishing him additional information of a more current nature as suggested by the Bureau. In this connection, SA [redacted] performed excellently and his anonymous telephone call was particularly effective and for this reason he is being included in this recommendation.

Results of Counterintelligence Efforts

Chicago letter to Bureau of May 26, 1959, referenced above, contained the information obtained from reliable informants to the effect that at the regular monthly meeting of the Chicago Branch NAACP, held May 22, 1959, at which delegates to the national convention of the Chicago Branch NAACP were elected, the "left caucus" slate was "buried under an avalanche of JONES votes". One of the informants said that the "left caucus" had carefully planned its "election coup" but began encountering trouble on May 20 and 21, 1959

When the Chicago Branch NAACP leadership did not make known the definite site of the May 22, 1959 meeting. This was contrary to the general policies of the NAACP and the "left caucus" could not by any method gain the information regarding the meeting site and accordingly found it difficult to direct "left caucus" people to the meeting. Continuing, the same informant reported that the leader of the Chicago NAACP "left caucus" said that on May 22, 1959, when it was determined by the "left caucus" where the meeting would be held, the "left caucus" engaged in a hectic, last-minute effort to marshal and direct its votes to the meeting place.

The informant noted that when the "left caucus" people arrived at the meeting place they experienced a real blow because JONES had packed the meeting with members of the United Steel Workers of America, whom JONES had "enfranchised" for the occasion.

The informant noted that the entire JONES slate, which is anti-Communist, was completely elected. The informant further noted that the highest "left caucus" vote getter badly trailed the lowest JONES candidate.

The informant reported that the "left caucus" was surprised at JONES' "sudden political astuteness" but noted that JONES was obviously aware of the "left caucus" plan though the caucus had tried its best to conceal its planned delegation coup. The informant reported that the "left caucus" defeat badly jarred caucus morale to such an extent that the meeting ended on a note of "left caucus" resignation to the fact that JONES had secured complete control and domination over the NAACP in Chicago. The informant opined that this "left caucus" defeat may well render the "left caucus", at least for a while, impotent as the carefully planned "left caucus delegate coup" was crushed by the enlightened political tactics of THEODORE A. JONES.

CG 5824-S* on May 25, 1959, reported on a discussion held at a meeting of the NAACP fraction of the CP of Illinois on May 23, 1959 at which [redacted] CLAUDE LIGHTFOOT, and other Illinois District members of this fraction, including MORRIS CHILDS, [redacted] and [redacted] were in attendance.

b6
b7C

At this meeting, [redacted] and [redacted] gave a report on the meeting of the Chicago Branch NAACP at which the delegates to the national convention were elected. They mentioned that the left wing caucus in the NAACP which includes CP members was badly beaten at the NAACP meeting. This caucus did not elect one delegate to the national convention of the NAACP. The left wing caucus candidate who came closest to being elected was [redacted]

[] reported that after a certain period the doors to the steel workers hall were locked and the leadership of the NAACP stuffed the ballot boxes. [] stated that there were only one half dozen CP members at the meeting. He further commented that one of the most significant developments was that at least fifty Packinghouse Workers who, in the past normally supported the left, voted against the Communist candidates.

The informant, in summarizing the discussion, stated that despite the fact that the left wing caucus was badly beaten, [] and [] felt that the caucus may still be able to take advantage of the discontent within the NAACP.

By way of comment, it might be noted that the fact that the informant reported only approximately one half dozen CP members at the meeting, may be attributed to the secrecy that JONES invoked to prevent them from appearing by failing to advise them of the location of the meeting place.

Recommendations

In view of the success of the counterintelligence move, and in view of the fact that the Bureau has noted with pleasure that the "left caucus" was defeated by virtue of this counterintelligence effort, it is accordingly recommended that the following agents receive commendation letters in recognition of the part they played in this program:

RATING GUIDE AND CHECK-LIST

Note: Only those items having pertinent bearing on employee's performance should be rated. All employees in same salary grade should be compared.

Rate items as follows:

- + Outstanding (exceeding excellent and deserving of special commendation).
E Excellent.
✓ Satisfactory (good or very good).
- Unsatisfactory.
O No opportunity to appraise performance during rating period.

Guide for determining adjective rating:

- "Outstanding" adjective rating requires (A) that all rated elements be "+" and (B) that each and every rated element be factually justified by narrative detail on reverse of Form FD-185.
- "Excellent," "Satisfactory" or "Unsatisfactory" adjective ratings will depend upon the composite result of evaluating all rated elements rather than following any mechanical formulas; however, for an employee to be rated "Excellent" he must not be rated unsatisfactory on any performance evaluation factors on the rating guide and check-list and must be rated "Excellent" or "Outstanding" on the majority of such rating factors. Good judgment must be exercised to insure that adjective rating is reasonable in the light of elements rated.
 - Any element rated "Unsatisfactory" must be supported by narrative comments.
 - An "official" adjective rating of "Unsatisfactory" must comply with the requirements described on the reverse of form FD-185.

- E (1) Personal appearance.
+ (2) Personality and effectiveness of his personal contacts.
+ (3) Attitude (including dependability, cooperativeness, loyalty, enthusiasm, amenability and willingness to equitably share work load).

PART I. GENERAL COMMENTS

SA FREYMAN is tall, well built, makes an excellent personal appearance and a very favorable impression with the public, and has the ability to command the respect of the agents he supervises. He can handle the most complicated investigative matters, participate in raids and dangerous assignments, and is available for special but not general assignment. He continues to support his mother, the complete details of which have previously been furnished the Bureau. He has no known physical limitations affecting his performance.

By letter dated April 3, 1959, he was commended by the Director for the excellent manner in which he supervised the handling of a confidential source of information of much value to the Bureau in the security field. It was stated that the success can be ascribed in a large measure to Mr. FREYMAN's adroit, aggressive and thorough supervision. He demonstrated an exemplary amount of skill and ability to handle assignments of this nature.

By letter dated June 18, 1959, FREYMAN was commended by the Director for his excellent performance in connection with a matter of great importance to the Bureau in the security field. The outstanding results achieved can be attributed to the splendid initiative, foresight and resourcefulness FREYMAN displayed in suggesting a most effective technique. His services were of the highest caliber and certainly contributed much to the success of the Bureau in this phase of its operations.

He has continued as supervisor on Security Squad Number 2. This squad investigates basic revolutionary groups, front groups, top functionaries, key figures and security informants. SA FREYMAN has an outstanding knowledge of Marxist principles. He is a very hard worker, is conscientious, anticipates developments, and has the ability to think and plan.

SAC, Chicago, by Form FD-255 of 9/17/59 recommends meritorious award in the amount of \$400 for SA Carl N. Freyman. The SAC bases recommendation on sustained above-average performance and performance which involved overcoming unusual difficulties in developing security informant [redacted]. SAC, Chicago, reported SA Freyman, who supervises Security Squad #2, Chicago Office, personally developed this informant, who has tremendous potential value to the Bureau on a national and international scale. SAC, Chicago, adds that Chicago letter of 8/5/59 has pertinent details about informant's development. Copy of letter attached.

OBSERVATIONS:

[redacted] is a member of the National Committee, Communist Party (CP), USA, and is a [redacted] which prior to its dissolution functioned as the youth section of the CP, USA. Until about a year ago he was [redacted]. Under the Toplev Program the informant was initially approached on 11/8/51 but refused to cooperate. On 2/6/59 SA Freyman recontacted him. The informant indicated that although he was gradually withdrawing from the Party he would never act as an informant. Subsequently, through several well-planned interviews by SA Freyman, the informant became convinced on 7/28/59 that he should cooperate and furnish information to the Bureau. He agreed to follow a plan of action formulated by SA Freyman [redacted]. Since then the informant has attended several important Party-functions and has made very good progress.

RECORDED - 112

This informant, who has been a hard-core communist, has excellent potential for furnishing coverage on the national and international level in view of his past leadership in the Party. Memorandum for Mr. Belmont
RE: SA CARL N. FREYMAN

informant by SA Freyman is highly meritorious. Inspection report of Chicago Office dated 9/9/59 pointed out that the development of this informant was an outstanding accomplishment under the Toplev Program. It further pointed out that the potentiality of this informant appears to be excellent and that the informant could easily become one of the top Bureau informants in the CP, USA, in view of his being a Negro, his youth, and extensive communist background. It is noted that the over-all responsibility of the Security Informant Program rested with ASAC Earl E. Brown.

The development of this informant is definitely an outstanding achievement and should be afforded recognition. The Toplev Program under which interviews with the informant were conducted, was devised to approach hard-core communists in an effort to convince them that they should furnish information. It has become increasingly difficult to approach these dedicated Marxists as they have become aware of our efforts in this regard and are prepared to resist any attempt by the Agents to discuss their backgrounds and convince them that they should cooperate. Fourteen field divisions having the majority of communist work conduct interviews under this program and even though they are exerting their best efforts, development of [redacted] is the first informant in three years that we have been able to obtain under this program. We are developing informants daily under our other programs but they do not have the stature of [redacted]. Development of this informant will not only produce considerable high-level intelligence for the Bureau on international and national communism, but will also have a great effect on the other offices making contacts with hard-core communists and spur them to greater efforts. b7D

SA Freyman's achievement required intelligent planning, intense drive, sacrifice and ability to overcome the problems involved. It indicates a superior accomplishment to sustain the above-average performance which was in addition to his duties as a supervisor and which involved overcoming unusual difficulties through his efforts. The value of benefits to the Bureau in the future may be of major proportion.

RECOMMENDATIONS:

1. The Bureau has no other Negro informant on such a high level in communist circles and his development presents unlimited opportunities to strengthen our coverage of the CP, USA. Domestic Intelligence Division recommends that SA Carl N. Freyman be afforded a cash award of \$500 for his accomplishment

which required sustained above-average performance and the overcoming of unusual difficulties.

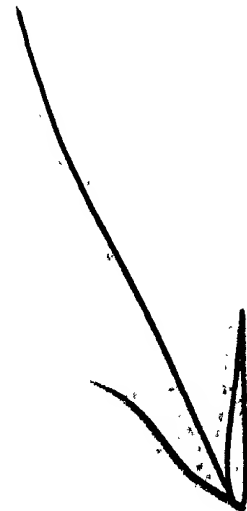

2. That a personal letter of commendation be afforded SAC R. D. Auerbach of the San Francisco Office, who was the SAC at Chicago during the period that [] was developed as an informant.

3. That a personal letter of commendation be afforded SAC Earl E. Brown of the Richmond Office, who was the ASAC at Chicago and responsible for the Security Informant Program during the period [] was developed as an informant.

ADDENDUM ADMINISTRATIVE DIVISION CRD:crt 9-28-59

The exceptional performance of SA Freyman of the Chicago Office in the development of this informant to a high level position in the Communist Party is one of the most outstanding achievements throughout the Bureau in the informant development program. The success realized in this instance is due directly to the outstanding efforts of SA Freyman. Recognition of him with an Incentive Award would certainly appear to be justified and would undoubtedly inspire him and others to comparable performance in the future.

The success realized in this instance appears to have been attributable directly to SA Freyman's performance and no information has been presented indicating any unusual contributions on the part of SACs Auerbach and Brown who were the SAC and ASAC respectively in Chicago while this informant was under development.

BUREAU RECORD OF SA CARL N. FREYMAN

EOD 2-2-42, GS 13, \$11, 090. Supervisor, Security Squad #2 in Chicago. Over-all record highly satisfactory. During last three years has been commended on five occasions, thanked for a suggestion on another and on 9-12-58 received an Incentive Award of \$500.00 for his outstanding performance in development and handling of two top level security informants. 1959 annual performance rating was excellent.

RECOMMENDATIONS:

(1) In view of the outstanding work of SA Carl N. Freyman in the development of this informant to a top level position in the Communist Party it is recommended that he be approved for a cash award of \$300.00.

SAC LOPEZ: SA FREYMAN supervises Security Squad #2, which handles basic revolutionary groups, front groups, top functionaries, key figures and security informants. He has an outstanding knowledge of Marxist principles. On April 3, 1959, he was commended by the Director for his supervision in the handling of a Confidential Source of Information which had much value to the Bureau in the security field. He was similarly commended on June 18, 1959, by the Director for his excellent performance in connection with a matter of great importance to the Bureau in the security field. SA FREYMAN is not available for general assignment due to a personal situation involving the health and financial situation of his family concerning which the Bureau has been previously advised and concerning which there has been no change. SA FREYMAN is an extremely hard worker, is conscientious, anticipates developments, and has the ability to think and plan.

: Agent FREYMAN appears to be a very mature, sincere, and energetic agent.

He supervises some of the most important work in the Chicago Office. He gives the appearance of being well qualified for his assignment, and his ability has been recognized by the Bureau on several occasions. He is presently serving in Grade GS-13, having been reduced in grade on June 30, 1957, in view of his being unavailable for general assignment.

In discussing his unavailability, Agent FREYMAN states that the circumstances of his mother's illness remain the same and therefore, he regrets that he cannot qualify or meet the requirements of the Bureau for administrative advancement at this time. He is not in a position to advise with any degree of certainty when the conditions of his immediate family will be such that he will become completely available. He advised that he is most desirous of advancement in the Bureau's service but recognizes the shortcomings at this time. He is appreciative of the considerations given to him by the Bureau and hopes that in due time he will be able to work out his problems.

Mr. FREYMAN has an excellent work record, is completely knowledgeable of matters on his desk, and is considered an above average supervisor.

RECOMMENDATION:

That Agent FREYMAN be continued in his present assignment.

PERSONAL

Mr. Carl N. Freyman
Federal Bureau of Investigation
Chicago, Illinois

Dear Mr. Freyman:

Your performance in connection with the development of a highly confidential source of information of vital significance to the Bureau in the security field has indeed been exceptional and in recognition thereof I have approved an incentive award for you. There is enclosed a check in the amount of \$246.00, which represents an award of \$300.00 less withholding tax.

The high degree of success which you attained in this instance is one of the most outstanding achievements that has been realized in this phase of the Bureau's operations and can be directly ascribed to the unusual skill, tact and resourcefulness which you manifested in your contacts with this source. It is evident from the diligent and determined manner in which you approach your responsibilities that you are fully aware of the extreme importance of this delicate field of our work. Your performance is in keeping with the finest traditions of the FBI and certainly one to be emulated by your associates. I am pleased to extend this recognition to you.

Sincerely yours,

Enclosure

Office Memorandum • UNITED STATES GOVERNMENT

TO : DIRECTOR, FBI

DATE: 9/17/59

FROM: SAC, CHICAGO

SUBJECT: RECOMMENDATION FOR INCENTIVE AWARD

Name of Employee CARL N. FREYMAN	Where Assigned CHICAGO	Payroll Number 13571
Position, Grade and Salary Special Agent GS 13 \$11,090		EOD Date 2-2-42

AMOUNT recommended: \$400.00 (Consult scale on reverse side in determining amount of award.)

BASIS for this recommendation is as follows: (Check one or more as facts justify.)

- ☒ 1. Sustained above-average performance for such period of time as would be reasonable under the circumstances, that merits recognition. (Point out specifically how performance is considered superior. Use examples and illustrations wherever possible. In addition to results attained advise what employee has done to achieve outstanding results.)
- ☐ 2. Exemplary performance of assigned tasks whereby previously unattained records of production are achieved. (Set forth production record with appropriate comparisons.)
- ☐ 3. Exemplary or courageous handling of an emergency situation in connection with or related to official employment. (Describe in detail, listing specific risks or dangers involved and results achieved.)
- ☐ 4. Ideas which have resulted in improved operations. (Summarize ideas and specific improvements therefrom. Set forth first year's net savings, if any, and how computed.)
- ☒ 5. Performance which has involved the overcoming of unusual difficulties. (List specific obstacles, problems, hardships, sacrifices, etc., as well as unusual investigative techniques utilized with results achieved, setting forth precisely how employee overcame obstacles, etc.)
- ☐ 6. Creative efforts, including inventions or techniques, which have increased efficiency, or improved the service. (Describe in detail listing benefits and/or savings resulting.)

JUSTIFICATION: (Set forth below, and attach supplemental page(s) as necessary, a clear, concise report of employee's performance in justification of award. Be specific and omit generalities. Give facts, not conclusions. Not only advise what was accomplished, but how it was accomplished, placing emphasis on performance. Remember that these justifications must be adequate. They may be subject to post-audit outside the Bureau but do not withhold information for security reasons since neither this form nor any confidential information will be made available outside the Bureau for such post-audits.)

SA FREYMAN has done an outstanding job in the successful handling and developing of [redacted] who has now been developed successfully as an established informant. (See Chicago letter to Bureau dated 8/5/59.) This informant has tremendous potential value to Bureau on both national and international scale. His development

CASH AWARD SCALE

TANGIBLE BENEFITS -- Amount of cash award for contribution resulting in tangible benefits (such as a suggestion resulting in saving of money) is normally based on, but not necessarily limited to, estimated net monetary savings for first full year of operation following adoption.

<u>Savings</u> (Estimated first year's net savings)	<u>Amount of Award</u>
\$1 - \$200	\$10
\$201 - \$1,000	\$10 for the first \$200 in savings and \$5 for each additional \$100 or fraction thereof.
\$1,001 - \$10,000	\$50 for the first \$1,000 in savings and \$5 for each additional \$200 or fraction thereof.
\$10,001 - \$100,000	\$275 for the first \$10,000 in savings and \$5 for each additional \$1,000 or fraction thereof.
\$100,001 - or more	\$725 for the first \$100,000 in savings and \$5 for each additional \$5,000 or fraction thereof.

INTANGIBLE BENEFITS -- Amount of cash award where contribution cannot be estimated on a monetary basis, or results in monetary savings and intangible benefits, shall be determined on basis of its value or benefit to over-all Bureau operations after full consideration of such factors as significance or value of contribution, extent and scope of application, personal danger or risks involved, and importance of program affected.

Table I - Where Personal Danger or Risks Are Not Dominant Factor:

<u>Value of Benefit</u> <u>to Entire Bureau</u>	<u>Extent of Application to Entire Bureau</u>		
	<u>Limited</u>	<u>Broad</u>	<u>General</u>
Minor	\$10 - \$50	\$50 - \$100	\$100 - \$150
Moderate	\$100 - \$150	\$150 - \$300	\$300 - \$500
Major	\$500 - \$500	\$500 - \$725	\$725 - \$1000
Extraordinary	\$725 - \$1000	\$1000 - \$2000	\$2000 - \$5000

Table II - Where Personal Danger or Risks Are Dominant Factor:

<u>Value of Benefit</u> <u>to Entire Bureau</u>	<u>Personal Danger or Risk Involved</u>		
	<u>Limited</u>	<u>Substantial</u>	<u>Exceptional</u>
Minor	\$10 - \$50	\$50 - \$100	\$100 - \$150
Moderate	\$100 - \$150	\$150 - \$300	\$300 - \$500
Major	\$300 - \$500	\$500 - \$725	\$725 - \$1000
Extraordinary	\$725 - \$1000	\$1000 - \$2000	\$2000 - \$5000

has been handled personally by SA FREYMAN, who has shown unusual tact, skill and diplomacy in developing this individual to his present value. He has shown unusual aptitude in guiding informant in contacts with informant's associates with the result that informant is now in an established position with these individuals. The full details concerning this particular matter have been previously furnished the Bureau.

SA FREYMAN supervises Security Squad #2, Chicago Office. He is extremely capable, conscientious, and hard working. Over an extended period he has discharged his duties in excellent fashion as reflected by his performance ratings.

During the recent office inspection just concluded, the security survey write-up reflects an excellent over-all situation, particularly with regard to informants. SA FREYMAN has played a major part over an extended period in accomplishing this result.

SA FREYMAN, as a Supervisor, was formerly in GS-14. On June 30, 1957, he was reduced to GS-13 because of his unavailability which resulted from a pressing personal problem concerning his mother and other members of his family and involving financial obligations. This situation has continued to the present time.

Ordinarily, based upon his accomplishments outlined above, I would recommend him for reallocation to GS-14. In view of his unavailability at this time, such recommendation does not appear possible. Accordingly, in lieu thereof, this incentive award is being recommended as recognition for the very outstanding fashion in which SA FREYMAN has discharged his duties, particularly with reference to the specific matter mentioned herein.

Dear Mr. Hoover:

I was deeply moved and most appreciative of your recognition of my accomplishment in the development of [redacted] as noted in your letter of October 5, 1959, and I wish to express my sincere appreciation for the enclosure contained therein.

Some years ago I was successful in developing CG 5824-S*, and in the early stages of development I indicated to the Bureau that in my opinion he would be the outstanding informant of the Bureau in the Communist field both nationally and internationally. I believe his record over the past years substantiates my original opinions of him. [redacted] in my opinion has tremendous potential and I sincerely hope that the future of this informant will be of the same stature as that of CG 5824-S*.

I want to assure you that all my efforts will be devoted toward this goal.

Sincerely,

Carl N. Freyman

Dear Sir:

For inclusion in the fund to be paid to the designated beneficiary of any Special Agent of the FBI who has previously contributed to this fund and who dies from any cause except self-destruction while employed as a Special Agent, I am forwarding herewith (by CHECK - MONEY ORDER) the sum of \$10, payable to the Assistant Director, Administrative Division, FBI, to be included in said fund. Payment will be made for death by self-destruction after the Agent has been a member of the fund for a continuous period of two years. It is understood and agreed that the sum tendered herewith is a voluntary, gratuitous contribution to said fund which I understand is to be administered in the following manner.

The Director of the FBI will appoint a committee which shall consider all matters pertaining to the acquisition, safe keeping and expending of said fund, which committee will recommend appropriate action to the Director in pertinent matters. The Assistant Director of the Administrative Division of the FBI shall receive all contributions and account for same to the Director. Upon the death of any Special Agent who is a member of said fund the appointed committee will consider the case and submit a recommendation to the Director as to its conclusions. Appropriate instructions will then be issued to the Assistant Director of the Administrative Division, directing him to pay to the designated beneficiary the sum of \$10,000. The liability of the fund shall not under any circumstances exceed the amount of monies in the fund at the time any liability shall occur. The following person is designated as my beneficiary for FBI Agents' Insurance Fund:

Dear Mr. Freyman:

I am certainly pleased to commend you for your continued exceptional supervision of the handling of a highly confidential source of information of major significance to the Bureau in the security field and in recognition thereof I have approved an incentive award for you. There is enclosed a check for \$410.00, which represents an award of \$500.00 less withholding tax.

You have made an outstanding contribution to the latest developments in this extremely delicate matter through the superior intelligence and leadership which you have displayed in discharging your many responsibilities. You should indeed be proud of the vital part you have played in this important undertaking. Your services have been a distinct credit to you and to the FBI and I want you to know I am most appreciative of your impressive performance.

Sincerely yours,

J. Edgar Hoover

Office Memorandum • UNITED STATES GOVERNMENT

TO : Mr. Mohr

DATE: December 14, 1959

FROM : W. S. Tavel

SUBJECT: SOLO, INTERNAL SECURITY - C
INCENTIVE AWARDS AND COMMENDATIONS MATTER

Solo is code name of operation involving CG 5824-S as official liaison representative between Communist Party (CP), USA, and top level leaders of CPs of Soviet Union, Red China and other iron curtain countries.

By letter 12-3-59 SAC Chicago recommended incentive awards for SAs [redacted] and Carl N. Freyman of \$1000 each and \$150 for stenographer [redacted] for outstanding performance in connection with Solo missions two and three. Also recommended bonus of \$1000 for informant and letter from Director in appreciation of his services. Domestic Intelligence Division (DID) concurred in recommendations of SAC but suggested \$500 each for SAs [redacted] and Freyman. DID also recommended incentive award of \$250 for SA Andrew A. Decker, Jr., and \$150 for secretary [redacted] for handling at SOG. DID recommended commendation for SAC Lopez for over-all supervision in Chicago and for Inspector [redacted] and Section Chief F. J. Baumgardner for over-all supervision at SOG.

In Solo #2 informant attended 21st Congress, CP of Soviet Union (CPSU) in January and February, 1959, as CPUSA official representative and conferred with high ranking officials of the Soviet Union and other CPs. In Solo #3 informant returned to US 11-11-59 after journey to Red China and Russia where he conferred with top leaders of CPs in these countries as well as Latin America, Czechoslovakia, Spain and Japan. Outstanding information developed in these missions is of inestimable value to Bureau and US. Information developed not available to any other source and represents the most outstanding achievement in Bureau's Internal Security field. Information developed promptly disseminated to top Government officials including the President and the Secretary of State for their use in dealing with other nations.

SA [redacted] handled informant in preparing for, during and after these missions. SA Freyman originally developed informant and had direct supervision of SA [redacted] and [redacted] informant during missions. [redacted] handled all dictation and transcription of material relating to missions. SA Decker had supervision at SOG and was instrumental in handling the arrangements which resulted in obtaining of birth certificate and passport for informant's wife at last minute assuring that mission #3 could be carried through. [redacted] handled all stenographic and clerical operations at SOG incidental to missions which included prompt dissemination of information developed. All involved were confronted with numerous problems in preparing informant for mission and handling upon his return. The outstanding results were due directly to exceptional performance of employees involved. Incentive awards and commendations certainly appear justified.

BUREAU RECORDS OF PERSONNEL RECOMMENDED FOR INCENTIVE AWARDS:

SA Freyman, Chicago, EOD 3-2-42, grade GS 13, \$11,080. During past three years, no sources, commended on five occasions one of which, 4-3-59, for supervision of Solo #2 received cash award 9-12-58 of \$500 for development of informants involved in Solo

Memorandum to Mr. Mohr
Re: Solo, Internal Security - C
Incentive Awards and Commendations Matter

and success realized in Solo #1. Received cash award 10-5-57 of \$300 for development of highly confidential source. 1959 annual performance rating Excellent.

SA [] Chicago, EOD as SA 9-20-48, grade GS 13, \$10,370. During past three years no censures, two commendations, the last, 4-3-59, for success in Solo Operation #2. Received cash award 9-10-57 of \$200 for handling of informant involved in Solo Operations and on 9-12-58 of \$300 for handling of informants involved in Solo Operations and success realized in Solo #1. 1959 annual performance rating Excellent. b6 b7C

[] Chicago, EOD 6-22-53, grade GS 5, \$4840. No censures, commended on three occasions, the last, 4-3-59, for work on Solo #2. On 2-18-58 received \$125 cash award primarily for transcribing material relating to informants in Solo Operations and on 9-12-58 of \$150 for work in transcribing material relating to Solo #1. 1959 annual performance rating Excellent.

SA Decker, DID, EOD 10-25-48, grade GS 14, \$11,835. Since transfer to SOG 8-11-57 he has been commended on one occasion and on 9-18-58 he was censured and placed on probation during inspection of DID as he was observed not devoting full time and attention to official assignments although he had indicated on official attendance registers he was so engaged. Removed from probation 12-17-58. Rated Satisfactory on 1959 annual performance rating in view of administrative action taken against him.

[] DID, EOD 6-25-53, grade GS 5, \$4840. Commended on four occasions, the last two, 9-12-58 and 4-3-59, for transcriptions of material relating to Solo #1 and Solo #2. Censured 10-17-58 for nonsubstantive errors in correspondence. 1959 annual performance rating Excellent.

Memorandum to Mr. Belmont
RE: SOLO
100-428091

through his discussions with Liu Shao-chi and other top Chinese officials, he developed valuable intelligence information regarding Chinese foreign policy, its attitude toward Soviet Russia, the differences existing between China and the Soviet Union and China's attitude toward membership in the United Nations. As a result of informant's contacts with leading functionaries of the CPs of Latin American nations as well as leading CP functionaries of Spain and Japan, informant developed excellent intelligence information concerning the activities of these CPs such as the extensive infiltration by Cuban communists into the Cuban Cabinet and Armed Forces, the pact existing between CP of Argentina and the Peronists and successfully established methods for maintaining future contacts with these CPs, thus assuring the Bureau of a flow of important intelligence information in the future.

OBSERVATIONS:

1. The outstanding information developed as a result of Solo mission Number 3 is due to a large extent to the excellent and careful planning of this operation both in the field and at the Seat of Government. Prior to informant's departure on this mission, the Seat of Government prepared with the Director's approval specific targets for the informant to accomplish which resulted in our obtaining this outstanding and specific information.

2. This information is of inestimable value to the Bureau and the Government not only from an intelligence standpoint but of considerable aid to the President and the Secretary of State in our country's dealings with other nations, particularly the Soviet Union, Czechoslovakia, Japan and Latin American nations. This information would not be available through any other source and certainly represents the most outstanding achievement in the Bureau's internal security field. The information included such matters as the current thinking of Russia and Red China, our most powerful potential enemies, Czechoslovakian activities in the U.S., the campaign initiated by the CP of Japan against renewal of the security treaty between the U.S. and Japan and CP activities in Spain, and Argentina.

3. It is quite important to note that informant was able to establish future contacts with the CPs in numerous Latin American and European countries as well as Red China which should assure our receipt of valuable information in the future concerning these CPs.

Memorandum to Mr. Belmont

RE: SOLO

100-488091

4. The information developed during this Solo operation has been disseminated with the Director's approval to the Vice President, the White House, the Secretary of State, the Director of Central Intelligence Agency and the Attorney General under a "Top Secret" classification.

5. The outstanding success of this operation and our ability to disseminate information of this type to high-level Government officials without any delay certainly enhances the Bureau's reputation as the outstanding intelligence agency in the world.

RECOMMENDATIONS BY SAC, CHICAGO:

By letter 12-3-59 SAC, Chicago, submitted the following recommendations concerning Solo missions 2 and 3:

b6
b7C
b7D

1. That SAs Carl N. Freyman, field supervisor, Chicago Office, and [redacted] be afforded incentive awards in the amount of \$1,000 each for their outstanding contribution to the over-all success of this operation. CG 5824-S and [redacted] were originally developed by SA Freyman. When he was designated a field supervisor, the development and handling of these informants was assigned to SA [redacted] who has continued to handle and utilize these informants and has done so under the personal supervision of SA Freyman. Both Agents have consistently shown great imagination, tact, planning and judgment in arranging the details of Solo missions 2 and 3. The many problems involved were anticipated and overcome by their tireless efforts. The planning of operations, the instructing of informant, the arranging of necessary details of travel and subsequently the detailed interviews with informant have required many long hours of overtime being performed by these Agents. In frequent instances, they worked day and night, seven days a week, until late hours analyzing, digesting and channelizing the valuable information obtained and transmitting to the Bureau. The personal problems and health problems of these informants have raised many obvious difficulties and these obstacles have likewise been minimized and overcome by the ingenuity, imagination and tireless efforts of these two Agents.

b6
b7C

2. That Stenographer [redacted] be afforded an incentive award in the amount of \$150. [redacted] handled all of the dictation from SA [redacted] and CG 5824-S after both Solo missions 2 and 3. She displayed expert ability in taking such complicated dictation and worked on many occasions through late hours at night, over weekends and expeditiously transcribed the vital information developed. Her work has been completely accurate and she has handled very difficult names and most difficult Russian and Chinese phrases which were involved in this matter.

Memorandum to Mr. Belmont

RE: SOLO
100-428091

3. That a personal letter of commendation over the Director's signature be directed to the informant and his wife to be personally delivered by the SAC, Chicago, for informants' perusal only and then returned to the SAC's safe in Chicago as a security measure. SAC, Chicago, notes that in view of the continued personal and physical difficulties of informants that this letter will be a definite morale booster and will be to the psychological benefit of the Bureau.

4. That CG 5824-S be afforded a bonus payment in the amount of \$1,000 based upon his recent extraordinary service and accomplishments in connection with Solo Number 3 which involved personal sacrifice, which endangered his life and that of his wife in securing the outstanding information which he has furnished. In view of informant's personal situation involving the serious and possibly fatal illness of his wife, this bonus would be particularly appreciated.

RECOMMENDATIONS OF DOMESTIC INTELLIGENCE DIVISION:

With regard to the foregoing recommendations of the SAC, Chicago, the Domestic Intelligence Division recommends:

1. That SAs Carl N. Freyman and [redacted] be afforded recognition in the form of incentive awards. It is felt, however, that the recommendation of the SAC, Chicago, in the amount of \$1,000 each is rather high and that a more appropriate figure would be \$500 each. It is noted that this operation is of major value and broad application to the entire Bureau which falls within the scale \$500 to \$725.

b6
b7C

2. That Stenographer [redacted] be afforded an incentive award in the amount of \$150. It is felt that her contribution to this operation is of moderate value and broad application to the entire Bureau which falls within the scale of \$150 to \$300.

Memorandum to Mr. Belmont
RE: SOLO
100-428091

3. That a personal letter of commendation over the Director's signature be directed to CG 5824-S and his wife. This letter will be delivered to informant by the SAC, Chicago, for perusal and then returned to the Chicago Office and retained in the safe.

[Signature]

4. That CG 5824-S be afforded a bonus payment of the amount of \$1,000. It is believed informant certainly merits recognition for his outstanding services in this operation above and beyond his usual remuneration. Informant has been cooperative and implicitly followed the targets prepared by the Bureau for this mission, thus assuring its outstanding success. It is recognized that this operation placed the informant's life in danger and that he undertook this mission at a time when his wife was in the advanced stage of cancer.

[Signature]

5. That a personal letter of commendation be afforded SAC Julius M. Lopez, Jr., of Chicago, under whose personal supervision and direction this operation has been brought to successful conclusion.

[Signature]

ACTION:

1. There is attached for your approval an appropriate communication to the SAC, Chicago. Enclosed with this communication is a personal letter of commendation from the Director to CG 5824-S and his wife. Appropriate instructions are included regarding the manner in which this communication is to be made available to the informant. Instructions are also included to afford the informant a cash bonus payment of \$1,000.

Seat of Government Personnel

In addition to the above, SA Andrew J. Decker, Jr., supervisor of the Communist Party (CP), USA Unit in the Internal Security Section to whom the Solo case is assigned, also made a major contribution to the outstanding success realized in this operation. He was instrumental in handling arrangements which resulted in the last minute obtaining of the birth certificate and passport for informant's wife which assured that this mission could be carried through. He personally supervised the innumerable details which preceded this Solo operation, including coordinating the preparation of specific targets for the informant which, to a large measure, was responsible for the outstanding success of this mission. The specific target assignments were forwarded to Chicago by Bureau letter 7/29/59. SA Decker followed this case closely on a day-to-day basis and exercised excellent judgment to insure that proper action was taken at each stage. Upon informant's return from Solo mission number 3, he was responsible for the analysis at the Seat of Government of the tremendous volume of information received and its very prompt dissemination to high-ranking Government officials as well as the preparation of memoranda bringing the high lights of information obtained to the attention of the Director. To insure prompt handling of this matter, SA Decker worked on Veterans Day and Thanksgiving. It is believed recognition of his services is warranted and it is, therefore, recommended that he be granted an incentive award in the amount of \$250. Form FD-255 attached in support of this recommendation.

In addition, [redacted] who serves in the capacity of secretary to the CPUSA Unit, has contributed outstanding services which, in no small way, have been responsible for the ultimate success of Solo missions 1, 2, and 3. She has handled in a very capable manner all stenographic and clerical operations incidental to the three Solo operations and has been responsible for preparing the high-level dissemination made in connection with all three Solo missions. She has consistently displayed an outstanding, cooperative attitude and on several occasions voluntarily worked long hours beyond her regular workday in order to handle

the various phases of this operation. She has shown expert ability in taking the necessary complicated dictation and her work has been completely accurate. She has handled very difficult names and most difficult Marxist terms which were involved in this matter. It is believed that recognition of [redacted] services is warranted and it is, therefore, recommended that she be granted an incentive award in the amount of \$150. Form FD-255 attached in support of this recommendation.

ADDENDUM A. H. BELMONT (12-10-59)

Inspector J. A. Sizoo and Section Chief F. J. Baumgardner had the over-all responsibility under the Assistant Director for guiding and directing the policies to be followed in connection with this entire mission. During the entire period of preparation, these men carefully evaluated each step in the over-all plan to insure that the policy followed would be in the best interests of the Bureau. They made many pertinent suggestions and gave this matter their personal attention during the entire period. The outstanding success of this venture reflects most creditably on their over-all supervision. In view of the competent manner in which they handled this matter and the outstanding benefits which have been reaped by the Bureau, I recommend they be afforded letters of commendation.

DETAILS:

By letter 12-3-59, SAC, Chicago, recommended incentive awards in the amount of \$1,000 each for SAs [redacted] and Carl N. Freyman and an award in the amount of \$150 for Stenographer [redacted]. These recommendations are based on the outstanding performances of these individuals in connection with the completion of Solo operation numbers 2 and 3. In addition, SAC, Chicago, recommended a bonus payment of \$1,000 to CG 5824-S together with a letter of commendation to informant over the Director's signature.

The Solo operation pertains to liaison activities of CG 5824-S between the Communist Party (CP), USA, and the CPs of the Soviet Union, Red China and other Iron Curtain nations. Informant was in the Soviet Union during January and February, 1959, in connection with the 21st Congress of the CPSU. While in Russia he conferred with many top-ranking Soviet functionaries including members of the Presidium and the Central Committee of the CPSU and obtained such pertinent information as the Russian attitude toward Berlin.

In connection with the most recent phase of this operation, the informant returned to the U.S. on 11-12-59 following a seven-week stay in Russia and Red China. Upon his return, informant was exhaustively interviewed by the Chicago Office and the results furnished to the Bureau. This information has been carefully analyzed by the Bureau and disseminated under a "Top Secret" classification to high-ranking Government officials. While the information obtained during Solo missions 1 and 2 was extremely valuable, the information developed during the most recent operation was outstanding and of inestimable value to the Bureau and the U.S. Government not only from an intelligence standpoint but of a considerable aid to the President and the Secretary of State in our nation's dealings with other countries, particularly the Soviet Union, Czechoslovakia, Japan and Latin American countries. The tremendous success of Solo trip number 3 is due to a large measure to the Bureau's decision to prepare specific targets or missions for the informant to accomplish during his trip to the Soviet Union and Red China. A detailed study of this matter was made by appropriate sections within the Domestic Intelligence Division under the coordination of the Internal Security Section. The final objectives were approved by the Director and forwarded to Chicago by letter dated 7-29-59 so that the informant could be properly briefed in advance. The objectives which included matters

Memorandum to Mr. Belmont
RE: SOLO
100-428091

relating to the CPUSA as well as matters relating to international affairs were followed closely by the informant and resulted in our obtaining the specific valuable information furnished by informant.

Immediately prior to the scheduled departure of informant for Solo number 3, his wife who has suffered from incurable cancer for some time worsened and informant was naturally reluctant to travel for an extended period of time without her. This problem was resolved by the Bureau through the preparation of a suitable birth certificate for informant's wife and through arrangements which enabled her to receive a passport almost immediately.

During Solo mission number 3, informant developed specific and detailed information concerning activities and plans of CPs in a number of countries. He met and had intimate discussions with such top-level communist leaders as Liu Shao-chia, president of Red China; Tang Ming-chao of the International Liaison Department, Central Committee, CP of China; Wang Chia-hsiang, head of the International Department, CP of China; Mao Tse-tung, head of the CP of China; Li Fu-chun, vice-chairman of China; Otto Kuusinen of the Presidium of the CPSU; Boris Ponomarev, head of the International Department, CPSU; Mikhail Suslov, member of the Presidium, CPSU; and Nikolai Mostovets, head of the North and South American Sections, International Department, CPSU. In addition, informant had personal contact with Harry Pollitt, chairman, CP of Great Britain; Luiz Carlos Prestes, CP of Brazil; Apostolos Grozos, chairman of CP of Greece; Khaled Bakdash, leader of the CP of Syria; Tzvi Breitste of the CP of Israel; George Pirinsky of the CP of Bulgaria; Dolores Ibarruri, secretary general of the CP of Spain; and Anibal Escalante, secretary of the CP of Cuba; Victorio Codovilla of the CP of Argentina; and Gustav Soucek, head of the International Department of the Central Committee of the CP of Czechoslovakia.

The following are some of the specific results of Solo number 3:

1. Informant established himself as the CP's international contact with the CPSU, Chinese CP and other CPs of the world and established means of contact with many CPs for communication purposes.

2. Informant re-established direct contact [redacted]
[redacted]

Memorandum to Mr. Belmont
RE: SOLO
100-428091

3. The informant has completed preliminary steps for an apparatus for direct contacts with the CP of China at Prague, Czechoslovakia, and for direct contact between the CP of China and the CPUSA for funds. This apparatus is under consideration by the CPUSA and will possibly involve our second top informant, NY 694-S, if the CPUSA contact apparatus is to be in Prague.

4. Informant determined that the Soviet Union will furnish \$200,000 to the CPUSA for 1960 and that the CP of China has offered to furnish \$100,000 to the CPUSA within the next six months.

5. As a result of lengthy discussions with top-ranking Chinese officials, informant developed information which should be of assistance to the President during his trip to Southern Europe and Southeast Asia.

6. He determined through his visit to China and the Soviet Union the Chinese attitude toward the Soviets and circumstances indicating that there are definite differences between these countries as they relate to foreign policies and internal affairs. He was able to determine that the Chinese foreign policy is, "Do not give the imperialist a respite."

7. He determined through contact with the secretary of the CP of Cuba that the Cuban revolution is fundamentally deeper than it appears and that the left is in the Armed Forces and it is making inroads into the Cabinet.

8. As a result of discussions with Soviet leadership he determined that the Soviets consider the most important problem that of developing a new relationship between the USA and the U.S.S.R. and that they are willing to make concessions in a diplomatic sense but not in an ideological sense.

9. Informant determined that President Eisenhower will get a tremendous reception in Moscow and that the Soviet people are genuinely fond of the President.

10. He determined through conversations with the chairman of the CP of Japan that this CP is initiating a campaign in coalition with the Socialist Party against the Japanese - American security treaty and against U.S. military bases on Japanese soil.

Memorandum to Mr. Belmont
RE: SOLO
100-428091

11. He ascertained through his conversations with a leading CP member from Argentina that this Party is joining forces with the Peronists and in the event the Peronists overthrow the Argentinian Government, the CP of Argentina will demand a coalition Government.

The above examples certainly indicate the extraordinary value of the information developed by our informant during this third Solo mission. It is impossible to put a money value on the information received as it would not be available through any other source. This information which has been disseminated on a high level will certainly enhance the Bureau's reputation as the world's leading intelligence agency.

DIRECTOR, FBI

12/3/59

SAC, CHICAGO

SOLO
INTERNAL SECURITY - C

Enclosed herewith are attachments to FD-255 justifying incentive awards to the individuals listed below:

1) Incentive award to [redacted]
[redacted] Chicago stenographer, in amount of \$150.

b6
b7C

2) Incentive award to SA [redacted]
in amount of \$1,000.

3) Incentive award to SA CARL N. FREYMAN,
Field Supervisor, in amount of \$1,000.

These recommendations made in view of outstanding performances of these individuals in connection with the completions of Solo Operations #2 and #3, both of which occurred during 1959. As Bureau is aware, similar recommendations were made regarding these individuals on August 22, 1958, upon the completion of Solo Operation #1. The Bureau subsequently made incentive awards to these persons.

In my opinion, the information developed and material received from Solo #2 and #3 are as valuable, if not more so, than those obtained from Solo #1. The attachments reflect in detail the obstacles and difficulties encountered and the outstanding fashion in which the designated personnel responded and achieved success. The Bureau is, of course, in the best position to determine the over-all value accruing to both the Bureau and the Government from these operations, and I believe the continued high level of performance of the personnel responsible merits further recognition at this time.

DIRECTOR, FBI

In addition, I am attaching herewith a proposed personal letter from the Director to both informants expressing appreciation for the services they have rendered under extremely difficult personal conditions which have definitely jeopardized the lives of both. Bureau recalls that in April, 1959, after completion of Solo #2, a similar letter of appreciation was written. It is believed that the additional difficulties encountered by informants during Solo #3 warrant consideration for an additional letter of appreciation. If approved and the Bureau prepares same, the letter will be exhibited to informants and thereafter placed in their files in the Chicago Office. In view of the continued personal and physical difficulties of informants, such letter at this time will have a great morale effect upon both and will be to the psychological benefit of the Bureau.

Finally, in addition, it is suggested that CG 5824-S* be considered for a bonus payment, possibly in the amount of \$1,000, based upon the recent extraordinary service and accomplishments in connection with Solo #3 which incurred personal sacrifices endangering his life and that of his wife in securing the outstanding information which he has furnished. In view of informant's personal situation at this time involving the very serious illness of his wife, I am sure that he would be particularly appreciative.

RATING GUIDE AND CHECK-LIST

Note: Only those items having pertinent bearing on employee's performance should be rated. All employees in same salary grade should be compared.

Rate items as follows:

- + Outstanding (exceeding excellent and deserving of special commendation).
E Excellent
✓ Satisfactory (good or very good).
- Unsatisfactory.
O No opportunity to appraise performance during rating period.

Guide for determining adjective rating:

- "Outstanding" adjective rating requires (A) that all rated elements be "+" and (B) that each and every rated element be factually justified by narrative detail on reverse of Form FD-185.
- "Excellent," "Satisfactory" or "Unsatisfactory" adjective ratings will depend upon the composite result of evaluating all rated elements rather than following any mechanical formulas; however, for an employee to be rated "Excellent" he must not be rated unsatisfactory on any performance evaluation factors on the rating guide and check-list and must be rated "Excellent" or "Outstanding" on the majority of such rating factors. Good judgment must be exercised to insure that adjective rating is reasonable in the light of elements rated.
 - Any element rated "Unsatisfactory" must be supported by narrative comments.
 - An "official" adjective rating of "Unsatisfactory" must comply with the requirements described on the reverse of form FD-185.

PART I. GENERAL COMMENTS

SA FREYMAN is 44 years old, 6 feet tall, and weighs 184 lbs. He presents an excellent, mature personal appearance. He dresses in good taste, is serious in demeanor, but makes friends easily and creates an excellent impression.

He is supervisor of Security Squad Number 2, which handles basic revolutionary groups, front groups, top functionaries, key figures and security informants. He has a very excellent over-all grasp of all such operations and an outstanding knowledge of Marxist principles. He is fully capable of handling and supervising most complicated investigations in this field. He commands the respect of his associates. He has enjoyed good health and is fully capable of participating in raids and dangerous assignments. As supervisor, he handles a large volume of very complicated work with a minimum of supervision. During Inspector's examination on handbook he made a grade of 100%.

During this period he has received two separate commendations from the Director concerning his outstanding handling of a confidential source vital in the security field. Likewise on two separate occasions during this period he received cash incentive awards from the Director, one in the amount of \$300 and the second in the amount of \$500, for his outstanding supervision in the handling and developing of a highly confidential source of vital significance to the Bureau in the security field. He was also commended on another occasion by an official of another federal agency as a result of his discussion before a conference group meeting.

SA FREYMAN displays an excellent enthusiasm and attitude toward his work and during this period has made two separate suggestions for improving the Bureau's operations. For past six months he has chaired the office streamlining committee in excellent fashion resulting in the committee making a number of beneficial suggestions. His work in the over-all has been excellent throughout, and he has been a definite asset to this office.

3. Participation in Informant Programs

As supervisor on a vital security squad, SA FREYMAN has correlated and supervised the Security Informant Program in excellent fashion. In addition, he has personally participated in the handling of a highly confidential security source as a result of which he has received two letters of commendation and two additional letters of cash incentive awards. His work in this field has been outstanding.

4. Testifying Experience and Ability

SA FREYMAN has not had occasion to testify during this period. From his maturity, demeanor, intelligence, and his delivery while discussing matters at various conferences, it is felt he would be a very competent witness.

SA FREYMAN is very experienced and an excellent field supervisor. He is interested in administrative advancement and is fully capable of immediately assuming additional supervisory responsibilities. I would rate him Excellent in this category. However, for the present he is not immediately available for general assignment. As Bureau is aware, he has continued to be the sole support of his mother and details have been previously furnished Bureau. When this situation is alleviated, he will, of course, become immediately available.

SUBJECT: CARL N. FREYMAN
 Special Agent
 Supervisor - Security Squad #2
 Chicago Office
 EOD 2-2-42; GS-13, \$11,935
 AVAILABILITY

Per instructions of Mr. Tolson the case of each Agent who is not fully available for general and special assignment is being reviewed.

(SA Freyman is available for special assignment but restricts his availability for general assignment. This is based on the condition of his mother who is a widow, is in poor health, and has undergone extensive surgery for a cancer condition.) This question first came up when SA Freyman was ordered under transfer from Chicago to the Bureau on 5-17-57. He requested that this transfer be canceled because of the personal problem involving his mother who lives in Iowa. The SAC recommended cancellation. In accordance with the approval of the Director, he was advised 6-20-57 that his transfer had been cancelled but that in view of his lack of complete availability he was being demoted from grade GS-14 to grade GS-13. SAC, Chicago was advised that he could continue to use SA Freyman on supervisory duties.

This matter has been followed on a six-month basis, and since that time there has been no change in this situation and this Agent still restricts his availability for general assignment. During the recent inspection of the Chicago Office, the Inspector took note of this problem. He considered SA Freyman a hard-working supervisor who supervises some of the most important security work in the Bureau and personally handles one of the most outstanding security informants. The Inspector rated him as excellent and considered him to have very good potential for advancement when completely available. The Inspector recommended that he be continued in his present assignment.

On 3-31-60 SAC, Chicago rated this Agent "Excellent" commenting that he is fully capable of supervising the most complicated investigations in the security field. He has an excellent knowledge of security operations and is a definite asset to the Chicago Office. His work, in connection with the Security Informant Program has been outstanding.

During his career SA Freyman has been censured five times. He has been commended 13 times, received one meritorious salary increase, and

four cash awards for superior performance. His weight is within desirable limits, and during the past six months he has exceeded the office overtime average each month.

This is a case where an Agent who otherwise would be well qualified for advancement is compelled to restrict his availability because of the health of his mother. His performance is excellent, and he has good capabilities. It would appear that so long as his mother lives he will have this problem. This matter should continue to be followed every six months as in the past.

RECOMMENDATION:

None. This question of availability of SA Freyman will continue to be followed every six months.)

Inspector concurs with the comments made by the SAC. His weight as shown above is within the desirable range as he

and inserts not identified. The channelizing memorandum prepared on the report was approved without noting the delinquencies. Freyman stated he had no specific recollection of the channelizing memorandum, that he has made every effort to see that Agents have corrections made to reports as required and that the reports are also properly identified on each page. He stated that in this instance the informant was very old and that she had made numerous typing errors in the past. He stated in the future her reports would be received orally.

SA Freyman is a particularly hard-working supervisor; shows considerable vigor and excellent interest in handling of his duties. He supervises some of the most important security work in the Bureau and personally handles one of the most outstanding security informants available to the Bureau. He commands the respect of the personnel on his squad and the squad morale is high. He is very demanding in seeing that the quality of work both investigative and administrative is high. For the 4 months prior to the inspection his overtime exceeded the office average and in March, 1960, he averaged 5'10" overtime per day. This high overtime was primarily due to his handling of a highly confidential informant. Over-all he is doing a very excellent job. He is ^{not completely} available for general and special assignment but has stated he is interested in advancing administratively. Inspector rates him as an excellent field supervisor and considers him to have very good potential for advancement, when completely available.

In view of the circumstances surrounding the informant report as explained by SA Freyman it is not felt that administrative action is warranted in this instance and that the substantive write-up and interview will serve to prevent recurrence of similar delinquencies in the future.

RECOMMENDATIONS:

(1) That he be continued in his present assignment.

|| (2) That he be considered for additional administrative responsibility noting that he has a very good potential.

(3) That no administrative action be taken with regard to the substantive write-up.

SAC comments are requested.

SA [redacted]

(6/10/60)

[redacted] is a 59 year old woman with a high school education. She has been a confidential informant of the Chicago Division for approximately 4 1/2 years. During this period source has advanced herself on behalf of this Bureau from a rank and file member of the Chicago Council of American Soviet Friendship (CCASF) to the following positions:

[redacted] CCASF;

Member, [redacted]

Part time office manager employed in the office of the Council on a 3 day a week basis.

During the period of time source has been an informant of the Chicago Division, she has submitted excellent substantive reports in the Communist front field. She is, however, weak in the writing, spelling and typing of reports which she prepares herself. During the time source has been assigned to the writer, this weakness has been accommodated by the writer receiving approximately 70 per cent of source's reports orally and reducing them to writing with her subsequently authenticating the oral report. By this practice, the source's lack of ability in the nature of form errors

has been reduced considerably. However, for approximately the last six or seven months the source has acted as Secretary at the various Board of Directors meetings as well as the Executive Board meetings of the Council and has kept the minutes. When serving in this capacity, source is responsible to the Board of Directors and the Executive Board for the typing of the minutes for Council records. In these instances source, when she types the minutes, also prepares a copy for this division. The report in question is in this category.

Source has been constantly cautioned about the necessity of identifying each page of her written reports, of not using the first person in her written reports, and initialing any erasures, strike-overs, or changes. Each time the writer has had her authenticate one of her oral reports, this caution has been brought home to her and practiced by her relative to these oral reports.

Apparently in this instance, however, for reasons best known to her, she did not follow this practice. The inked changes in question were corrections of the spellings of two names and the date of activity, inked in by her, was in fact, superfluous inasmuch as she had already typed in the date of activity and the inked change was repetition.

As to the lack of an identification of the two page report on the part of the informant, the writer is at a loss to understand this because ordinarily the source has been most diligent in identifying her reports with her code name and in many instances has over-identified her reports by not only signing in her code name, but initialing.

The shortcomings in this report have been duly noted and the informant has already been cautioned about the necessity of properly preparing her written reports in the future. This was done by way of a telephonic conversation with source on June 10, 1960, while she was furnishing another oral report.

Insofar as the writer not catching these errors prior to dissemination, there is no excuse. It was a lapse of alertness on the part of the writer and will not occur again.

I have no specific recollection of the handling of this memorandum since this memorandum is one of a large volume handled on this desk as received from some 70

informants. My failure to indicate this delinquency was inadvertent. I will be certain that it will not happen in the future.

SUPERVISOR CARL N. FREYMAN:
(6/13/60)

I have no specific recollection of this memorandum. I can only say that as original informant reports are received from the 70 informants on this desk, they are reviewed by me before being sent to the agent for channelization. It appears that I failed to detect the delinquency above described. Insofar as this informant's writing in the first person is concerned, this delinquency has been brought to the attention of the informant in the past by the agent and I have called it to the attention of the agent on a number of occasions. The informant, who is approximately 60 years of age, has made every effort to correct this matter in her reports and only rarely now is this delinquency found. The writing of this report in the first person, in my opinion, is not an error that goes to the substance or the root of this report. In order to alleviate the corrections in typing which are numerous because she is aged and her fingers are stiff, we will hereafter consider taking oral information from this informant, dictating it to a stenographer, and returning the report to the informant for initials and corrections. In my opinion, it is more desirable to try to handle informant reports by having the informants write these reports. However, since informants have various degrees of typing ability and intelligence, it now appears most difficult to have perfect copy at all times. Therefore, a change in the system is desirable.

I believe that it is doubtful that Agent has responsibility in this alleged delinquency because I originally read the informant report and I have primary responsibility.

This report is being presented to this informant for authentication and initials immediately.

SAC J.M. LOPEZ:
6/13/60

The above explanations indicate the physical problems involved in handling reports prepared by this informant. It appears in this particular instance, the informant's report was in fact a copy of minutes which she prepared for the Executive Board meeting of the Council, and for this

b6
b7c

- 5 -

reason apparently it was written in the first person. I agree that the report should have been properly initialed on all pages by the informant and that the inked changes made by the informant should likewise have been initialed. Personnel have been realerted regarding this and it will be watched closely in the future.

CARL N. FRANKMAN

The National Committee, Communist Party (CP), USA, met in Chicago from March 25-27, 1960. This meeting was the first of its type which has occurred outside of New York City in approximately twenty-five years and the complexity of problems involved in effecting full coverage of the entire operation and the movements and contacts of the functionaries in Chicago was a first experience of this office. Approximately sixty out-of-town subjects were in attendance at various sessions of the Committee meeting, including all CP national functionaries with the exception of EUGENE DENNIS.

Basis for Recommendation

Chicago began preparations for the intensive coverage of this meeting about March 14, 1960. SA HERBERT K. STALLINGS was assigned to the over-all co-ordination of the project with instructions to effect full coverage. Assignments were made to cover the numerous phases of the operation. These assignments included the following personnel:

Over-all co-ordinator

SA H. K. STALLINGS

Assistant co-ordinator

Co-ordinator of fisurs
incidental to the meeting SA R. D. ~~Y~~HARMON

Co-ordinator of
photographic surveillance SA

Through the efforts of the above key personnel
the following coverage was effected:

b6
b7C

1. Complete misur coverage of the three day session of the National Committee meeting.
2. Technical coverage on five rooms at the Midwest Hotel occupied by the top national CP functionaries, including GUS HALL, .
3. Photographic coverage from the inside of the hotel on March 27, 1960. This coverage was effected through the utilization of the key-hole technique which afforded the opportunity for photographing National Committee subjects within a few feet of the camera. Excellent results were obtained, and are being forwarded to the Bureau as complete identification is effected.
4. Eleven separate fisurs on National Committee members who were not immediately returning to their districts were conducted in accordance with Bureau instructions. All offices into whose territories these subjects departed were appropriately alerted.
5. Detailed teletype summaries were furnished to the Bureau at the termination of sessions of each day. This required work until the early hours of the morning, and the use of stenographers who volunteered for assignments.

b7D

6. The Bureau was kept advised through constant contact with CG 5824-S*, [] and [] of pertinent developments occurring outside of the National Committee meeting and separate communications on these highly placed informants were submitted.
7. Chicago provided two of four live informants in attendance at the National Committee meeting. Much valuable information was obtained from these live informants on events and meetings conducted incidental to the National Committee meeting itself. Additionally, two other Chicago informants participated in meetings with such people as JAMES JACKSON and DANNY RUBIN on separate meetings involving the press and youth. Of the seven parties conducted on the evening of March 26, 1960 in honor of National Committee members, coverage was effected on six.
8. The coverage on the rooms of functionaries has afforded the Bureau with information concerning the National Office, the New York District, the Minnesota District, and other districts of the Party, which information is currently being disseminated.

Recommendations

In connection with the over-all coverage of this operation, over eighty agents participated. Security requirements were such that men assigned to the central monitoring plant worked on twenty-four and thirty-six hour shifts. Recommendations are being limited to those agents and other personnel who played key roles and made major contributions to the success of the over-all operation. They are:

SAs [redacted]
JOHN J. FOARDE, JR.

Agent [redacted] was the co-ordinator of the over-all operation. He made the hotel contacts and arrangements for rooms for the functionaries. He was assisted by Agent FOARDE in analyzing the materials obtained from all the sources and both agents combined their efforts in the preparation of the daily teletype summaries to the Bureau. Additionally, Agent [redacted] met with [redacted]

b6
b7C
b7D

SAs LLOYD H. NELSON
[redacted]
[redacted]

Agent NELSON co-ordinated and handled the installations which included excellent coverage on the National Committee meeting room and five hotel rooms occupied by national CP functionaries. SAs [redacted] and [redacted] assisted Agent NELSON in all of the installations.

SAs JOHN D. RIORDAN
[redacted]

SAs RIORDAN and [redacted] are both experts in shorthand and had the responsibility for the monitoring of the entire National Committee meeting sessions of three days. Their information formed the basis for the daily teletypes and transcriptions of the entire Committee meeting proceedings are being prepared for dissemination by them at this time.

SA RALPH D. HARMON

SA HARMON had the responsibility of co-ordinating and setting up all necessary fisurs to conform with the instructions of the Bureau. He was responsible for the setting up of eleven separate fisurs, for the assignment of agents, for maintaining records on travel plans, and location of all National Committee members. These duties began on approximately March 17, 1960 and continued through April 2, 1960.

b6

SAs [redacted]
[redacted]

SAs [redacted] and [redacted] are both experts in photography and set up the photographic plant in the Midwest Hotel on the same floor where the National Committee meeting was being held.

CG 67-832

They utilized the key-hole technique so expertly that photos of subjects were taken within a few feet and excellent results were obtained. Approximately one hundred fifty photographs were taken.

b6
b7C

SA [REDACTED]

SA [REDACTED] was present during the entire operation, both day and night, being responsible for the handling of information received from CG 5824-S*, who was in constant contact with all key functionaries prior to, during, and after the National Committee meeting. He met and was in contact with the informant during the late hours of the night and prepared and submitted daily separate summaries to the Bureau as received from this informant. He prepared an entire summary of the National Committee meeting within two days of the conclusion of the meeting.

The following agents monitored the rooms of the functionaries from the central monitoring plant and were assigned on fisurs of twenty-four and thirty-six hours for security reasons. These assignments began on March 24, 1960 and continued through March 28, 1960. They were most helpful in the over-all operation and in assisting this office in effecting wide coverage on the Committee meeting, on movements of functionaries, and were successful in covering a number of important meetings within the confines of these rooms. These agents are:

Much credit for prompt service in the handling of information for the Bureau is due to the above stenographers for keeping themselves available on a voluntary basis for day and night duty during the entire National Committee meeting. As a result, all information was promptly submitted to the Bureau and interested offices by teletypes and airtels. All of these stenographers worked well into the night to handle the work. [redacted] worked on three nights including an entire weekend, [redacted] worked on two nights, and [redacted] worked on one night.

Supervisor CARL N. FREYMAN was directly responsible for this operation.

Recommendation

It is felt that the over-all results of this operation warrant the recommendation that the Director direct a general letter of commendation for the personnel files of the personnel described in this letter. This recommendation is based on the individual roles each agent and other personnel played in the over-all excellent and successful coverage which was effected on the National Committee meeting in Chicago.

24 Agents
3 Stenographers

ADDENDUM:

DOMESTIC INTELLIGENCE DIVISION

April 13, 1960

SAC, Chicago, recommends a general letter of commendation be addressed to him for inclusion in the personnel files of 24 Special Agents and three stenographers in connection with the contributions which these individuals made to the successful coverage which the Chicago Office afforded the recent meeting of the Communist Party (CP), USA, national committee. This meeting was the first one of its kind held in Chicago and was an extremely important meeting since the national committee is the second highest constituted body of authority in the CP, USA. The successful coverage given this meeting on an over-all basis was the direct result of the outstanding performance by the Agents mentioned in the Chicago letter. The efforts of the three stenographers recommended by the SAC contributed materially to the coverage in that it permitted Chicago to furnish information to the Bureau promptly concerning events at the national committee meeting as well as other meetings held in Chicago at the same time.

RECOMMENDATION:

The Domestic Intelligence Division concurs with the recommendation of the SAC, Chicago, and recommends that a general letter of commendation be addressed to the SAC with instructions that copies of this letter be placed in the personnel files of the 24 Special Agents and three stenographers mentioned in the Chicago letter dated April 7, 1960.

Dear [REDACTED]:

I am especially pleased to commend, through you, the personnel of the Chicago Office who performed in such an outstanding manner in connection with an operation of vital importance to the Bureau in the security field.

The exceptional success achieved in this delicate undertaking was a result of the highly competent, discreet and resourceful fashion in which everyone carried out his assignment. I know of the many difficulties inherent in an operation of this nature and I am very impressed with the superb way in which it was handled by your office. Please convey my sincere thanks to all for the unusually high caliber of their services.

Sincerely yours,

Mr. Carl N. Freyman
Federal Bureau of Investigation
Chicago, Illinois

Dear Mr. Freyman:

It is a pleasure to thank you for the splendid supervision you have continued to afford the handling of a highly confidential source of information of great value to the Bureau in the security field.

This very delicate matter has required your constant and close attention. You have played an important role in the successful execution of a number of operations involving this source through your extremely aggressive, imaginative and discreet direction of his activities. Your ability to handle assignments of this nature and your skill in carrying out your supervisory responsibilities are certainly noteworthy. I want you to know I am most appreciative.

Sincerely yours,

J. Edgar Hoover

Re: SOLO

SA Freyman has continued to supervise the handling of EBCG 5824-S* in an excellent manner; however, in view of the fact he received an incentive award in the amount of \$500 in December, 1959, it is not felt that an award is warranted at this time.

With regard to security investigations in the five resident agencies of the Chicago Division, these matters will be supervised among the five security squads in accordance with the above administrative breakdown, e.g., espionage matters in any resident agency will be supervised by S-3; Polish matters by S-4; Communist matters in various RAs will be supervised according to their natures by S-1, S-2 or S-5.

In summary, the above breakdown reflects that Squads S-1, S-2 and S-5 will handle matters relating predominantly to Communist activities. S-1 will also handle NOI matters and splinter groups. S-3 will handle primarily espionage and foreign language group matters. S-4 will handle all Polish matters; matters relating to the Polish Consulate per se and other Polish investigative matters in Chicago area.

Analysis #3 cards SA [redacted] by supervisor disclosed series instances of repeated routine leads on identical cases previously shown as leads on earlier #3 cards. Analysis also reflected apparent VOT pattern wherein once or twice weekly [redacted] would return office 8:00 PM to 9:00 PM and remain until midnight, whereas other days reflected prompt 5:02 PM departures. On October 17 and 18, 1960, [redacted] was observed physically leaving office 4:58 PM and 4:59 PM after signing out both occasions 5:02 PM. On October 19, 1960, [redacted] left office 2:00 PM after signing out Bucar 11:30 AM and #3 card reflected two leads in security case at subject's employment and subject's home for interview. [redacted] resides [redacted] Illinois, 24 miles from office. On same evening ASAC JAMES L. HANDLEY had speech commitment Des Plaines, Illinois, located vicinity [redacted] and on SAC instructions ASAC HANDLEY in connection with speech matter discreetly made check of vicinity of residence. At 5:29 PM he observed [redacted] on sidewalk near residence talking to neighbor and Bucar noted at curb. ASAC proceeded with speech assignment. [redacted] returned to office 8:45 PM. When requested to write voluntary account his activities he omitted any reference being at home. When confronted specifically with statement that he had been home he emphatically denied same. After being placed under oath and told to either affirm or deny he thereafter affirmed allegation. In signed statement admitted deviation from official duties 2:40 PM and driving to home in Elk Grove Village to see son who allegedly had headache. Admitted remaining home from 4:00 PM to 5:30 PM, thence returning 24 miles in Bucar and resuming official duties approximately 6:30 PM and continuing until his return to office. Concerning early departures noted previously he stated did not check office clock but inquired time from other personnel who allegedly told him 5:02 PM, after which he signed out. [redacted] contends actually covered the series of repeated leads on cases reflected in #3 analysis claiming did so in effort

Recommendation

Consider SA [] actions reprehensible and most serious violation fundamental Bureau ethics. Recommend dismissal with prejudice.

DETAILS

Re my call to Assistant Director N. P. CALLAHAN
October 19, 1960, and Chicago teletype dated October 20, 1960.

Enclosed herewith are memoranda from Supervisor CARL N. FREYMAN dated October 13 and 17, 1960. Also enclosed is memorandum from ASAC JAMES L. HANDLEY dated October 20, 1960. Enclosed finally are typed copies of two handwritten signed statements, both dated October 19, 1960, by SA [redacted] together with typewritten copies of a handwritten, unsigned narration by SA [redacted] concerning his activities on the afternoon and evening of October 19, 1960. The originals of the last three items are retained in Chicago files.

b6
b7C

SA [redacted] has been assigned to S-2 security squad supervised by SA CARL N. FREYMAN. His principal assignments have been the submission of annual reports on SI subjects after checking residence and employment and reviewing files, etc., together with six month checks of residence and employments recorded on FD-154's.

A week or ten days previously, SA FREYMAN noticed an apparent continuing pattern of investigations appearing on SA [redacted] number three cards which indicated possibility of duplicated leads being set out on these cards which had been set out previously for the same cases on previous number three cards. He also noticed an apparent regular pattern of overtime by SA [redacted] in that on one or two days each week his number three cards reflected probable returns as 7:00 PM and 8:00 PM, etc., actual returns between 8:30 PM and 9:30 PM, with final departures shown as midnight. On remaining days of week probable returns were shown during late afternoon and final departures were appearing regularly as 5:02 PM.

b6
b7C

Upon noting this pattern, SA FREYMAN made a detailed analysis of Agent [redacted] number three cards, together with analysis of reports, memoranda, etc., of pertinent cases. Results of these analyses appear in the two enclosed memoranda by SA FREYMAN. For brevity details will not be repeated here, it being noted that in several specific security cases requiring outside investigation concerning only to verification of residences and employments, SA [redacted] number three cards covering the pertinent periods reflected repeated leads being set out on various days to check same residences and employments. In several instances where the subsequent reports or FD-154's showed verification of these places by personal or telephonic pretext on only one date, the number three cards contained

leads to check these places on any where from six to eleven different occasions. In the case entitled [redacted] SM - C," SA [redacted] report dated October 13, 1960, reflected that subject's part-time student activities at University of Chicago, 5801 South Ellis Avenue, was verified by SA [redacted] [redacted] on November 10, 1959. (SA [redacted] has liaison assignment University of Chicago.) On two occasions, SA [redacted] number three cards set out leads in connection with this case showing inquiry allegedly at [redacted]. The card analysis also confirmed the rather regular overtime pattern of one or two instances weekly showing late returns to office with final departures at midnight, whereas on other days there were prompt regular final departures at 5:02 PM.

b6
b7C

Based on these analyses, discreet inquiry was made of the night supervisor and it was ascertained that SA [redacted] was in fact personally returning to the office and signing in on the occasions when he remained in the office until late night hours. In view of the above, SA [redacted] physical presence and activities in the office were observed closely on October 17 and 18, 1960. On both these occasions the number three cards reflected probably returns in afternoon. He did so return. On October 17, 1960, he was observed to don his hat and coat and leave the office at 4:58 p.m. after having signed out on the register as of 5:02 PM. On October 18, 1960, he returned to the office at 4:30 PM, removed his hat, kept his overcoat on and sorted papers at his desk until 4:45 PM, at which time he locked his workbox in his file cabinet, returned to his desk with his overcoat on and engaged in no activity until he donned his hat and left the office at 4:59 PM. In this instance also his departure was reflected on the register as 5:02 PM. In view of the serious inferences raised by the above analyses of his number three cards, he was not questioned concerning the two above items at that time.

On October 19, 1960, SA [redacted] signed out on the number three card at 2:00 PM, showing probable return 7:30 PM, and showing two investigative leads in the case entitled [redacted] SM - C," Chicago file 100-16111. These leads merely showed the addresses [redacted] and [redacted]. The St. Louis street address is on the near South Side only several miles from the office. The [redacted] address is approximately 14 blocks from the office. A check of car registers reflected that SA [redacted] had signed out Chicago

b6
b7C

car #453 at 11:30 AM. This Bucar is a 1958 two-tone green Chevrolet bearing Illinois license 1949 214.

SA [] resides with his wife and two children at [], Illinois, located approximately 24 miles from the Chicago Office. Since last Fall his wife has been employed in the Chicago Loop area by an insurance company and the two children are tended by a babysitter.

b6
b7C

On the same date it happened that ASAC JAMES L. HANDLEY had a speech commitment in the early evening hours at DesPlaines, Illinois, which is located in close proximity to []. ASAC HANDLEY was acquainted with this situation and upon my instructions while en route to his speech commitment, made a check of the vicinity of SA [] residence at []. The results of his inquiry are reflected in ASAC HANDLEY's memorandum. This shows that at 5:29 PM he observed SA [] standing on the sidewalk across from his residence talking to an apparent neighbor and the Bureau car was at the adjacent curb and the garage doors of [] garage were opened, whereas a short time previously they had been closed. A short time later SA [] was observed to leave the vicinity in the Bureau car and ASAC HANDLEY, after telephonically advising me of the above, proceeded to his speech commitment.

b6
b7C

SA [] actually returned to the Chicago Office at 8:45 PM. I immediately called him into my office. I tendered him a tablet and pencil and asked that he write in detail his full activities from his 2:00 PM departure until his 8:45 PM return to the office. After some hesitation he did so with the results reflected in the attached copy of his unsigned account. His brief account purported to show investigation at two addresses shown on his number three card and made no mention whatsoever to his having been at his home 24 miles distant. I then confronted SA [] with the fact that I knew he had been to his home and that he had been observed there in the Bureau car at 5:29 PM. He emphatically denied being anywhere in the vicinity of his home and reiterated that he had handled the two investigations reflected on his number three card. I then told him that since this matter involved misconduct on his part, I wished to place him under oath and have him put in writing his affirmation or denial of his having been at his home during business hours in a Bureau car. After considerable hesitation he agreed to be placed under oath and this was done. I then insisted that in

writing under oath he either affirm or deny the allegation. At this point he commenced writing a brief one page narration and upon completion, without comment, returned it to me, and as reflected in the attached typewritten copy, he admitted having gone to his residence to see his son who was not feeling well. Subsequently, a more complete signed statement was taken from him, copies of which are enclosed.

Employee's Statement

The principal statement of SA [] which is enclosed herewith reflected that after having left the office at 2:00 PM, October 19, 1960, he allegedly proceeded to the [] address where he remained approximately 40 minutes. This address is the place of employment of subject. He then proceeded in Bucar to the vicinity of his home in [], a distance of approximately 24 miles. In that visit he visited his son who was being cared for by a neighbor and who allegedly had a severe headache. Thereafter he went to his residence where he had something to eat, stating he left at approximately 5:30 PM, when he allegedly proceeded to the St. Louis street address back on the near South Side of Chicago. There he waited for sometime to observe subject's return, had a second snack at a nearby restaurant, and thereafter allegedly attempted an interview with subject at 8:00 PM. Interview was negative, after which he returned to office at 8:30 PM

According to his statement, therefore, he deviated from his official duties at 2:40 PM, drove 24 miles to his home where he remained from 4:00 PM to 5:30 PM, after which he allegedly returned to his official work on St. Louis Street. The return trip of 24 miles would place him back on active duty at approximately 6:30 PM. He thus deviated by his own statement from approximately 2:40 PM until 6:30 PM.

Concerning his having been observed leaving the office on October 17 and 18, 1960, at 4:58 PM and 4:59 PM, respectively, after signing out as of 5:02 PM, he claimed that he did not check the office clocks but casually inquired of a nearby agent concerning the time and was told in both instances that it was 5:02 PM and he, therefore, signed out. He claimed no independent recollection of sitting at his desk with his overcoat on for approximately 15 to 20 minutes prior to his departure on October 18, 1960.

Thereafter, SA [] statement contains general answers to the five specific cases mentioned in the memoranda of Supervisor FREYMAN, and which involved an apparent series of duplicated leads on number three cards over a series of different dates whereas the actual results of such investigations showed activity on only one specific date in each instance. In general explanation he alleges that he actually attempted to cover the leads as indicated on his number three cards on the dates which they appear, that he was doing this in order to be a thorough investigator and to go beyond the mere obtaining of residence and employment data, that he was hopeful of obtaining additional information from neighbors and others in the vicinities of these areas. Concerning his having signed out the Bureau car at 11:30 AM, whereas he departed the office at 2:00 PM, he states that after signing out the car he was delayed by handing of a returned report and was unable to actually leave the office until 2:00 PM.

Action Taken

In accordance with telephonic instructions of Assistant Director N. P. CALLAHAN, SA [] was advised that he was being suspended as of the close of business October 19, 1960. At that time Bureau property assigned to him was taken from him with the exception of his briefcase and badge, which he advised was at his home. Early the following morning his briefcase and badge were obtained.

Work Record

SA [] is 32, married, and has two children. He entered on duty as a clerk in 1948 and became a Special Employee at San Francisco until becoming an Agent February 4, 1957. He is a nonveteran. He is 6'7", has a large frame, and his most recent weight is 183½ lbs., which is within weight limits. His overall work record is mediocre, having been afforded only satisfactory performance ratings during the approximate year he has been at this office. On October 2, 1959, he was suspended for 30 days and placed on probation until August 23, 1960, as a result of his involvement in an accident in a Bureau car at which time it was ascertained that although he had signed out on his number three card as being engaged in official investigations he was in fact accompanied by his wife and one

child in the Bureau car seeking housing accommodations. He was also held responsible for repairs to Bucar as a result of this accident.

b6
b7C

Bureau letter dated April 26, 1960, commented that SA [] VOT was considerably below office average during period November, 1959, to March, 1960. This allegedly resulted from fact that as result of his having to pay for repairs to Bureau car, his wife had obtained employment in the Chicago Loop area necessitating the two children being cared for by babysitters and as a result of this situation SA [] indicated that he had been required to be at home more during evening hours in order to assist his wife with household duties after her return from her regular work in the Loop area.

Comments and Conclusions

SA [] has clearly been engaged in reprehensible conduct on at least two occasions. He left the office before 5:00 PM after signing out as of 5:02 PM. This was not only a falsification of number three card but was actually a ceasing of duty before completion of regular workday. On October 19, 1960, he has admitted that after signing car on official business with a Bureau car he deviated from official business at 2:40 PM, drove Bucar 24 miles to his home northwest of Chicago, where he remained until at least 5:30 PM, after which he returned at least 24 miles to the near South Side of Chicago at approximately 6:30 PM. This again included serious falsification of his number three card, unauthorized use of a Bureau vehicle for personal purposes, acting for his own convenience for several hours during official workday, all without permission or authority. When asked to relate his activities he deliberately excluded these derelictions from his statement. When specifically confronted with the allegations he emphatically and steadfastly denied them. It was not until he was placed under oath and ordered to either affirm or deny in writing that he admitted the allegations. Throughout he showed little apparent concern or appreciation of the serious nature of his derelictions. These series of events, together with his previous involvement in falsification of number three card, unauthorized use of Bucar for his own convenience, performing personal business during regular working hours, all indicate conclusively that he is not fit to continue in the Bureau's service; hence recommendation, as indicated in synopsis, is that he be immediately dismissed with prejudice.

Re my previous memorandum.

On October 13, 1960 this agent submitted a report in the case entitled [REDACTED] SM - C", Chicago file 100-16475, Bufile 100-334475. This case was opened for an annual report on September 7, 1960. A review of this report reflects that the only necessary potential outside investigation was to verify residence and employment and the subject's part time status as a student at the University of Chicago. This report contains a period of from September 15 through October 12, 1960 and reflects residence was verified on September 15, 1960 and employment on September 16, 1960, both by telephone calls. The educational verification was conducted by another agent.

Leads were set out for verification of residence on five occasions, for verification of employment on four occasions, and for verification of attendance at the University of Chicago on two occasions.

This agent's #3 card for October 14 reflects that he left the office at 5:02 PM, and this departure was observed by the writer.

UNITED STATES GOVERNMENT

Memorandum

TO : SAC

DATE: October 13, 1960

FROM : SA C.N. FREYMAN

SUBJECT:
SPECIAL AGENT

The above agent has been assigned to the S#2 Squad since March, 1960. He entered on duty February 4, 1957 and is a GS 11 agent. He is 31 years old and is a non-veteran. He served as a clerk and Special Employee from March 8, 1947 to February 4, 1957 when he entered on duty as an agent.

b6
b7C

A spot review of this agent's #3 cards has been made. Agent is assigned in the main to the handling of SM - C cases, including the writing of annual reports, verifications of residence and employments on FD 154s, and the following of logical leads to locate residence and employment. He has no informants assigned to him.

SA #3 cards reflect an unusual amount of investigative time spent outside the office considering the requirements of his duties as a security agent and comparing his time in the office with the time in the office spent by other agents doing similar work.

A further check of his #3 cards reveals a large number of duplicate leads that would not appear to be explainable on its face in view of the work required by the case and Agent record of work as reflected by the agent in investigative files.

b6
b7C

Following are examples of items referred to above:

- 1) On August 23, 1960 this agent was assigned the case of SI subject, Chicago 100-28003, Bufile 100-422027. The requirement was for verification of residence

CNF/njb
(8)

and employment at a local business concern. Serial 248 of the file reflects verification of the same residence on October 6 or October 8 (exact date illegible) through a janitor at her place of residence. The same serial reflects employment verification at a local business establishment also on October 6 or 8.

The agent certified that he reviewed the file on September 26, 1960 and the case was closed administratively on October 6, 1960 by the writer. There are no other investigative leads reflected in the file.

The agent's #3 cards reflect leads set out for subject's current residence on nine occasions. Her employment was listed as the same as previously and the agent set out leads on #3 cards on eight occasions.

Nothing on the #3 cards is shown to indicate that the leads set out on these cards were not covered, or why they were listed in duplicate number. The file also reflects no outside investigation on the dates set out in the leads.

2) [redacted] Chicago file 100-3882 (Bufile 100-14032) entitled a Security Matter SI subject, was reopened and assigned to this agent on July 26, 1960, also for verification of residence and employment only. Employment was listed as a local business concern.

The FD 154 reflecting the agent's investigation reflects that the residence was verified as being the same on September 12, 1960 and as being done by "personal pretext" to an unknown male at [redacted] residence. The employment was listed as verified on September 12, 1960 by a pretext to the subject's employment. It was indicated that the file was reviewed by the agent on September 14, 1960 and was closed administratively on September 20, 1960. The file fails to reflect any further investigation.

The agent's #3 cards reflect leads set out to verify existing residence which was known on nine occasions and to verify subject's employment in the Chicago Loop on eleven occasions.

b6
b7c

3) Chicago file 100-18385 entitled [redacted] was assigned to this agent on July 18, 1960 for an annual report. The closing report is dated August 26, 1960 and a

review of this report, serial 138 in [redacted], reflects no outside investigation. Employment and residence are listed as having been verified by telephone [redacted]

The #3 cards of this agent reflect leads to subject's current residence appearing on [redacted] occasions between August 10 and August 18, 1960.

4) Chicago file 100-16111 entitled [redacted] SM - C, was assigned to this agent for a [redacted] report. This report, dated September 16, 1960, lists verification by telephone pretext and employment verification by personal interview at her place of business.

b6
b7C

The agent's #3 cards reflect six leads to verify employment at a local business establishment. No leads are set forth to verify her residence which is listed as being verified by pretext. These leads are set out on #3 cards on September 7 and September 8 and verification by pretext was listed as September 1, 1960.

A lead to an old address is also set out seven times and the file fails to reflect this investigation.

For your information I have prepared an analysis of the work handled by this agent, a part of which is incorporated into this memorandum. It is my feeling that it will be necessary to ascertain exactly what this agent is doing because of his excessive setting out of duplicate leads.

Remylet dated 12/3/59 recommending incentive awards for SAs [redacted] CARL N. FREYMAN and Stenographer [redacted] in connection with their outstanding participation in the handling of Solo missions by CG 5824-S*.

Enclosed herewith are attachments to FD-255 recommending additional incentive awards to SAs FREYMAN and [redacted] for their continued outstanding handling of this informant during the past eight months period which have resulted in two additional successful Solo missions by informant abroad.

As a result of these missions, the value of informant has continued to increase, and his future potential has been further enhanced with the prospect of additional and even more important Solo missions abroad. These accomplishments have resulted directly from the continued tireless, outstanding handling and guidance afforded this matter by SAs [redacted] and FREYMAN. Enclosure reflects the many difficulties which occurred during this period which were overcome by their ingenuity and planning.

The handling of the informant has continued to require exceedingly long hours of work after office hours frequently extending over entire weekends, etc. I sincerely believe that the continued success of this matter has resulted from the continued outstanding performance of duty by these agents to such extent as to warrant consideration of an additional incentive award to these agents at the present time.

Note that no recommendation is being made at this time for any stenographer who participated in the handling of data furnished by informant as was done in 8/

Solo is the code name for the operation of our informants as official liaison representatives between the Communist Party, USA (CPUSA), and top-level leaders of the Communist Parties of the Soviet Union, Red China, other Iron Curtain countries and Latin America.

Chicago letter 8/31/60 recommends incentive awards in the amount of \$1,000 each for SA [redacted] and Supervisor Carl N. Freyman. Recommendations are based on the continued outstanding performances of these Agents since November, 1959, in connection with the successful completion of Solo operations five, six and seven. b6

Solo Number Five

CG 5824-S*, at the instructions of the Communist Party of the Soviet Union (CPSU), contacted members of the Cuban CP in Havana, Cuba, during May, 1960. Informant made contact with [redacted] in Havana on 5/9/60 and was able to obtain information concerning the Cuban situation. These data were then furnished to the Vice President, the White House, the Secretary of State, the Director of Central Intelligence Agency and the Attorney General.

Solo Number Six b6
b7C

CG 5824-S*, at the instructions of Gus Hall, General Secretary of the CPUSA, traveled to Russia and Czechoslovakia during July, 1960, in order to cement relationships between the CPUSA and the CPs of the socialist countries. During this three-week trip, informant was in contact with Party functionaries in Moscow, Russia, and Prague, Czechoslovakia, including [redacted] and [redacted].

Memorandum for Mr. Belmont
RE: SOLO

International Department of the Central Committee, CPSU.

Some of the highlights of this trip resulted in the following information being obtained:

1. 50 Latin-American communists spent six months in China. The Chinese taught these comrades guerrilla warfare and the need for revolution in Panama and Brazil.

2. The informant met and identified two representatives of the "Secret Department" of the CPSU who have been in the United States recently. Arrangements were made with these two individuals for clandestine contacts between the CPUSA and the CPSU in the United States. As a result of these arrangements, one of our informants, NY 694-S*, was contacted on 8/24/60 in New York City by Vladimir Barkovsky, Counsel, Soviet Delegation to the United Nations, and given \$50,000 for the CPUSA.

3. While in Moscow our informant was able to persuade the Soviets to permit him to examine an 84-page Soviet "secret" document which was read at the Conference of CPs held in Bucharest, Rumania, in June, 1960. This document dealt with the current ideological dispute raging between the CPSU and the CP of China. No copies of this document were made available to persons in attendance at the Conference. Informant was able to take complete notes from a copy of the original document and upon his return to this country dictated a 34-page summary of the 84-page document. This material was disseminated to appropriate agencies of the Government under a "Top Secret" classification. State Department officials described this material as "the most important single item the FBI had ever disseminated to the Department of State."

Solo Number Seven

CG 5824-S*, as a CPUSA delegate to the Congress of the CP of Cuba, was in Havana, Cuba, from 8/11/60 to 8/25/60. During this Solo mission informant was able to furnish complete details which occurred at the Cuban CP Congress and was able to re-establish his contacts with members of the Cuban CP and with members of other CPs who were present at the Congress. Information obtained as a result of contacts with [redacted] b6 b7C

[redacted] respectively, of the Cuban CP, has been disseminated to high level officials of our Government.

Memorandum for Mr. Belmont
RE: SOLO
100-428091

Domestic Operations

Since November, 1959, CG 5824-S* has been elected a member of the CPUSA National Committee (12/10-13/59); elected to the Illinois State CP Committee (1/24/60); added to the Midwest Regional CP Secretariat (April, 1960); and elected Executive Secretary of the CPUSA Foreign Affairs Committee (5/15/60). He continues to operate as a contact in the United States between the CPUSA and the CPSU and is in frequent contact with all members of the national CP leadership.

Role of SA []

b6
b7C

Referenced Chicago letter discloses that SA [] has sustained the international operations of this informant since November, 1959, and has succeeded in maintaining informant in his apparatus position in the CPUSA, thus permitting contacts with the CPSU, the CP of China and all CPs of the world, including those in the satellite nations. This was accomplished by SA [] and the informant even though the leadership of the CPUSA passed from Eugene Dennis to Gus Hall in December, 1959. SA [] carefully guided this informant to his election to the National Committee of the CPUSA despite the fact that the informant was unable to do any politicking during the Party discussion period due to the fact that informant was out of the country on a Solo mission.

b6
b7C

SA [] also guided the informant through a critical period of his life when his wife, CG 5853-S, died of cancer in February, 1960. Through daily contacts, SA [] was able to keep up the informant's morale and furnish him with good advice on personal problems. As a result, the informant has continued his work for the Bureau and has done a magnificent job since. During all of these Solo trips, [] has carefully prepared the informant in the use of passports and provided him with all necessary documents to make his trips look legitimate. These problems required initiative and ingenuity, both of which SA [] has demonstrated in connection with these trips.

Memorandum for Mr. Belmont
RE: SOLO
100-428091

Role of Supervisor Freyman

Supervisor Freyman was the Agent who originally developed CG 5824-S* and former CG 5853-S (deceased). In his capacity as supervisor, SA Freyman has continued handling the over-all supervision and guidance of CG 5824-S*. On a day-to-day basis he has conferred and collaborated with SA [] in the handling of current problems which arose in connection with informant and in the planning and guiding of informant's future activities. On many occasions SA Freyman personally participated in contacts by SA [] with informant. These matters required very delicate handling and intelligent planning on the part of Freyman.

b6
b7C

OBSERVATIONS:

As a result of informant's activities and his position in the CPUSA, he has been selected by Gus Hall to attend a Conference of CPs (next Solo mission) to be held in Moscow at the end of September, 1960. This Conference is being called by the CPSU in an effort to reconcile the ideological differences that exist between the CPs of Russia and China. This Conference is expected to be a very important meeting and the governments of the free world will be most interested in the outcome of this ideological dispute.

Information furnished on these recent Solo missions is of inestimable value to the Bureau and the Government, not only from an intelligence standpoint, but is of considerable aid to the President and the Secretary of State in our country's dealings with other nations, particularly the Soviet Union and Cuba. This information would not be available to any other source and certainly represents the most outstanding achievement in the Bureau's internal security field.

b6
b7C

Without a doubt, much of the success gained by our informant through the Solo missions can be attributed to the guidance and handling of the informant by SA [] and Supervisor Freyman. While both Agents have consistently displayed imagination, tact, planning and good judgment, they were each afforded incentive awards of \$500 on December 18, 1959, after the completion of Solo Mission Number 3, and it is, therefore, recommended that in this instance they be afforded letters of commendation.

Memorandum for Mr. Belmont.

Seat of Government Personnel

In addition to the above, SA Frederick F. Fox, Supervisor in Charge of the Communist Party, USA (CPUSA), Unit in the Internal Security Section to whom the Solo case is assigned, also made major contributions to the outstanding success realized in this operation. He personally supervised the details preparatory to the informant's embarking on these missions. Prior to the informant's departure on each mission, the Seat of Government (SOG) prepared specific targets for the informant which were in large measure responsible for the outstanding success achieved. SA Fox coordinated the preparation of these specific targets, furnished them to Chicago with instructions to brief the informant concerning them and handled the SOG supervision of this briefing. He closely followed the case on a day-to-day basis to insure that proper action was taken in each stage. Upon the informant's return from the missions, he

Memorandum for Mr. Belmont
RE: SOLO
100-428091

ADDENDUM (continued)

made an analysis of the information developed during each mission and prepared over-all memoranda for the Director's information and promptly disseminated the information to high-ranking Government officials.

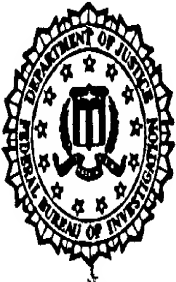

In view of the alert, aggressive and intelligent supervision afforded this case by SA Fox, it is believed recognition of his services is warranted, and it is, therefore recommended that he be afforded a letter of commendation.

Additionally, [redacted] who has served as secretary in the CPUSA Unit since January 15, 1960, has contributed outstanding services which in no small way have been responsible for the success of these missions. She has capably handled the stenographic and clerical duties incidental to these missions and has been responsible for the preparation of the high-level dissemination made in connection with them. Her cooperative attitude has been outstanding and on several occasions she has voluntarily worked long hours beyond her regular workday to handle the various phases of the operation. She has demonstrated expert ability in taking the lengthy, complicated dictation, and her work has been entirely accurate. Her achievement is particularly outstanding because of the difficult names and the Marxist terminology used in this matter. It is believed, therefore, that recognition of [redacted] services is warranted, and it is recommended that she be afforded a letter of commendation.

Dear Sir:

For inclusion in the fund to be paid to the designated beneficiary of any Special Agent of the FBI who has previously contributed to this fund and who dies from any cause except self-destruction while employed as a Special Agent, I am forwarding herewith (by CHECK - MONEY ORDER) the sum of \$10, payable to the Assistant Director, Administrative Division, FBI, to be included in said fund. Payment will be made for death by self-destruction after the Agent has been a member of the fund for a continuous period of two years. It is understood and agreed that the sum tendered herewith is a voluntary, gratuitous contribution to said fund which I understand is to be administered in the following manner.

The Director of the FBI will appoint a committee which shall consider all matters pertaining to the acquisition, safe keeping and expending of said fund, which committee will recommend appropriate action to the Director in pertinent matters. The Assistant Director of the Administrative Division of the FBI shall receive all contributions and account for same to the Director. Upon the death of any Special Agent who is a member of said fund the appointed committee will consider the case and submit a recommendation to the Director as to its conclusions. Appropriate instructions will then be issued to the Assistant Director of the Administrative Division, directing him to pay to the designated beneficiary the sum of \$10,000. The liability of the fund shall not under any circumstances exceed the amount of monies in the fund at the time any liability shall occur. FROM : SA C. N. FREYMAN

SUBJECT: TRAFFIC VIOLATION
C. N. FREYMAN

At 6:40 AM 1/25/61 the writer and his wife were en route to catch the morning train from Mt. Prospect to Chicago in the writer's personally owned car. The writer was driving.

On the way to the station, as the writer approached Highway 83, there was a car ahead of him. Visibility in either direction, north or south, was approximately six blocks and the writer is familiar with the corner. The car in front of the writer turned south on Highway 83 after it had stopped. The writer was about fifty feet behind this car and came to almost a complete stop. As this car turned south, the writer, seeing no traffic either north or south, did not come to a complete stop.

As the writer crossed Highway 83 going in an easterly direction at possibly ten miles per hour, he noticed a local police car behind him with the red light going and he stopped. The officer asked for the writer's drivers license which was presented and he was then invited to go to City Hall. At the City Hall the officer wrote out the charge for failing to come to a complete stop and asked the writer for his state registration which he was unable to provide since the writer had sent it to Springfield to get auto plates.

At this point, and after the officer was almost finished writing out his complaint, he asked for additional identifying data and was presented with the writer's credentials.

While he finished writing out the charge the writer asked re appearances, etc. He said the writer could leave his drivers license in custody of the police or post \$13 bond for appearance on 1/28/61. At this point the writer paid the officer his bond which will be forfeited, and as

the officer explained it, it amounts to a confession of judgment because I did not intend to lose a day of work in order to make this appearance.

Then the officer asked the writer when he would return to Mt. Prospect that same day and the writer said between 9 and 10 PM. The officer mentioned the Chief of Police took cognizance of certain matters and listens to reasons why complete stops were not made and perhaps the writer should visit the Chief of Police.

I told the officer I would not do this and that I would post the bond, and as far as I was concerned, it was a closed matter.

I posted the bond, missed my train, and arrived at the office at exactly 8 AM.

INFORMATION CONCERNING

Remytel 1/18/61.

I received a telephone call from [redacted] late this afternoon, at which time he advised that he desired to inform this office that SA FREYMAN (Supervisor CARL N. FREYMAN) had told [redacted] Fox Lake, Illinois, that he was lying and unreliable concerning certain statements which he made during a speech at Fox Lake.

[redacted] advised that [redacted] of Fox Lake was a long-time Communist who lives in Fox Lake and who has projected himself into a number of civic activities. He advised that he, [redacted] has exposed [redacted] in Fox Lake for being "the Communist that he is." He stated that [redacted] at one time was on the Board of Directors for Chicago Civil Liberties Committee headed by [redacted] and that [redacted] was told by Assistant Director DONALD WACHTER, now deceased, that [redacted] was a Communist.

[redacted] advised that he had discussed this matter with former SA [redacted] and that [redacted] had indicated to [redacted] that [redacted] had been cleared by the FBI. He stated that [redacted] subsequently resigned from the FBI and went into private practice where he made a number of attacks on [redacted] and called him, [redacted] a Communist.

CRIMINAL RESEARCH
PERS FILES

CG 100-1513

[] said that Mr. FREYMAN went to Fox Lake as a result of a telephone call from [] and talked to her for approximately one hour concerning the speech and statements made by []. He said that FREYMAN told [] that [] lied relative to the fact that he, [] came to the FBI and attempted to determine if they had any information on []. He stated that [] has been telling Legion leaders in Fox Lake that he, [] was lying about anything he said concerning [] divulging information from the FBI files to the effect that [] was not a Communist.

b6
b7C

[] admitted that he did not get this information firsthand from [] but said that he got it from certain leaders in the American Legion from whom he was going to obtain affidavits. He advised that he contemplates furnishing these affidavits to the Director so that "FREYMAN could be appropriately punished for divulging information from the FBI files." I inquired as to what information FREYMAN had divulged from the FBI files and he said that in his opinion the fact that Mr. FREYMAN had discussed this matter with [] and indicated that he, [] was lying about [] and [] was disclosing confidential information from our files.

[] at the beginning of his conversation, was extremely excited and obviously agitated to the point where his rantings and ravings did not even make sense. I had to inform him on several occasions that I did not have the slightest idea as to what he was talking about and had to continually press him for specifics, which he did not have.

b6
b7C

I accepted the information which [] furnished and did not comment thereon in view of the fact that I, of course, was not in possession of the file.

I subsequently reviewed the file in this matter and determined that [] was 100 per cent wrong in his statement that FREYMAN had gone to Fox Lake to talk to [] inasmuch as Mr. FREYMAN merely acknowledged her letter concerning this matter telephonically as indicated in our teletype of 1/18/61. FREYMAN told [] that the FBI was a fact-finding organization and that the FBI had not cleared anyone and this would include []. Further, that any statements made by [] along these lines were absolute untruths. Further that any statements [] made implying that former SA [] had resigned under duress were absolutely untrue. [] asked a number of questions concerning [] and [] including

CG 100-1513

the question of whether or not [] was a lawyer, at which time FREYMAN said the Bureau could not commit itself on [] as an individual except to categorically deny his statements as were contained in her letter. She inquired as to whether certain organizations were subversive and she was referred appropriately to the Department of Justice in Washington.

In view of [] rantings and ravings and because of his argumentative attitude, I do not feel that he is entitled to a telephonic response concerning this matter and it is my recommendation that we furnish him no information concerning the conversation which Mr. FREYMAN had with []. In view of his known propensity to misquote and twist facts any further conversation with him would not serve any useful purpose.

It is my opinion that his complaint against Mr. FREYMAN is unfounded and that FREYMAN handled the inquiry of [] in a perfectly proper manner.

outstanding supervisor who is extremely conscientious and industrious and always displays a keen loyalty to the Bureau. SA FREYMAN is 6' tall, has a large frame, and weighs 183 lbs., which is within the weight limits desired by the Bureau. He is qualified to handle the most complicated cases in the Bureau's work and while personally interested in advancement in the Bureau, and certainly an agent who has the potential for such, he, because of a family hardship, is not available for any general assignment that may take him away from Chicago. It is believed that SA FREYMAN would make an excellent Aide; however, due to his unavailability, he is not being recommended.

Referenced Bureau letter of December 16, 1960, captioned "Defensive Tactics and/or Expert Firearms Training" indicates that Special Agent [REDACTED] was previously recommended for such training. It is again recommended that SA [REDACTED] be considered for such training.

SA [REDACTED] makes an excellent personal appearance and has a most pleasing personality. He is a young, energetic agent who is an alert and industrious workman and who is considered above average for an agent with his length of service in the Bureau. He has the ability to get along extremely well with all he comes in contact, and it is believed he would make an excellent firearms man and an intelligent representative of the Bureau. He is keenly interested in administrative advancement and is keenly interested in receiving training in defensive tactics and expert firearms training. His physical condition is excellent and he has an athletic background. He is above average in the use of firearms, and it is not believed he would encounter any difficulty as an instructor. He is 6' tall, medium frame, and weighs 170 lbs., which is within the desirable weight limits of the Bureau. He has

CG 1-286

a keen interest in defensive tactics, physical training, and firearms training and weapons of all kinds.

General Police Instructors

Chicago Office is not recommending any general police instructors at this time as the complement of such instructors is considered adequate at present.

SA [REDACTED] is assigned to the Criminal Accounting squad of the Chicago Office and is an accountant of "limited experience." He previously served in the Technical Section at the Bureau for approximately eight years. He has a friendly, affable personality and makes friends easily. It is believed that his background and experience qualify him for further training as a fingerprint instructor. SA(A) [REDACTED] has expressed an interest and a desire for administrative advancement, and he performs his work in an excellent manner. It is believed that he should have more time and experience in the field before he is considered for advancement administratively. He is 5'9" tall, has a large frame, and weighs 163 lbs., which is well within desirable weight limits. He is available for any assignment the needs of the Bureau may require.

RECOMMENDATION FOR INCENTIVE AWARD

b6
b7C

Recommendation for incentive award for SA []
[] is based upon the continued sustained outstanding performance of this agent, including the overcoming of unusual difficulties in the handling of the operations of CG 5824-S* on a day-to-day basis and in the guidance of this informant in Solo missions and in the Communist Party (CP), USA, from November 27, 1959 to date.

As a result of this sustained outstanding performance, which has included Solo missions #5, #6, #7 and #8 alone in 1960, outstanding results never before obtained in the Bureau's work in the international Communist intelligence field and in the CP, USA coverage have been obtained.

One of the leading daily newspapers during the period of the four week meeting of the Editorial Commission of representatives of the twenty-six Communist Parties and Workers Parties of the world in Moscow in October, 1960, carried a news report date-lined Moscow. In this report, the reporter commented on his efforts to obtain a new story on this most secret conclave. In his words, "Not even God Himself" knows whether or not there is such a conclave in Moscow, so how can he report what is going on at the conclave when officials do not even admit that one is in progress.

It can now be stated under a "Secret" classification that the FBI not only did know of the existence of the meeting, but also had a most detailed account of the meeting as a result of participation by CG 5824-S*. This informant was one of a two man delegation to the Editorial Commission meeting of the twenty-six Communist and Workers' Parties and in that connection the informant was entrusted with records of the conclave.

Subsequent thereto, he was also the Chairman of the CP, USA delegation to the eighty-one party conference which followed the first meeting in Moscow and the informant was in Moscow for a total of approximately three months. During this period, he conferred with Presidents of Communist nations or persons holding the equivalent of these positions in these countries, with top Communist leaders in all satellite nations, and with the top leadership of the CP of China. He was in attendance at meetings and functions where Premier KHRUSHCHEV was present following KHRUSHCHEV's return to Moscow from his appearance in the United Nations in New York in the fall of 1960.

The results of the continued operation of the Bureau's outstanding informant have brought extraordinary intelligence benefits to the Bureau and to the country in that the best high level intelligence information has been obtained and reported in volume during the pertinent period and has been made available on a day-to-day basis to the President, Secretary of State, CIA, Military Intelligence, and intelligence agencies of other countries who are our allies.

Inestimable savings in agent time and work have resulted from this operation which continues to make available information which is obtained through no other means than this operation.

Agent [] through his outstanding performance and much personal sacrifice, has made the continuance of this operation possible during the entire period through the overcoming of difficult obstacles hereinafter detailed. The details of his performance to justify this recommendation and the results of this performance are set forth hereinafter.

b6
b7C

Operation of CG 5824-S* During Pertinent Period

A. Communist Party, USA

The careful and meticulous handling and guidance of this informant during the pertinent period has brought this informant to the highest levels in the CP international and CP, USA movement in the history of the Bureau. During the entire period, Agent [] has been at the informant's

b6
b7C

side for counsel and discussion on a seven day a week basis and has frequently accompanied this informant on intelligence missions in order to advise him and to obtain information at the earliest possible time. Specifically, Agent [] has guided the informant in placing himself in the following positions during the period in question:

b6
b7C

1. Member of the National Executive Committee (NEC), CP, USA. This is believed to be the first time an informant of the Bureau has ever been placed at this high level in the CP, USA.
2. Secretary of the International Affairs Committee of the CP, USA. This is also believed to be a first in the Bureau.
3. Chairman of the Control Commission, CP, USA. Again, this is believed to be a first in the Bureau.
4. Member, National Committee (NC), CP, USA.
5. Member-at-large of the Secretariat of the Midwest Region of the CP, USA.
6. Member-at-large of the State Committee, CP of Illinois, assigned to the Loop or Professional Section of the CP of Illinois.

Prior to the November, 1960 meeting of the Communist Parties in Moscow, GUS HALL, General Secretary of the CP, USA, issued to CG 5824-S* official CP, USA credentials for presentation at this meeting. These credentials identify the informant as the Chairman of the CP, USA Delegation, member of the NEC, Secretary of the International Affairs Committee, and Chairman of the Control Commission, CP, USA.

During the pertinent period, this agent has also succeeded in continuing to operate CG 5824-S* in the United States through apparatus meetings as the official CP, USA contact with a Soviet official in the United Nations. These meetings are all held surreptitiously.

In addition, this agent has succeeded in having CG 5824-S* work full time for the Bureau at the highest levels in the CP, USA where he obtained voluminous information

of the highest quality through his regular and frequent contacts with the highest officials of the CP, USA, namely GUS HALL, EUGENE DENNIS, [] and until recently, []. He meets regularly as a part of the highest official bodies in the CP, USA, including its Secretariat, NEC, and NC.

**B. International Operations of
CG 5824-S***

b6
b7C

Agent [] has sustained the international operations of this top Bureau informant and has succeeded in accomplishing the following:

1. He has succeeded in maintaining the informant in his apparatus position in the CP, USA, thus permitting contacts with the CP of the Soviet Union and the CP of China and all Communist Parties of the world, including those of satellite nations. This was accomplished through the guidance of this informant by Agent [] even though the CP, USA leadership during the pertinent period passed from EUGENE DENNIS to GUS HALL.
2. He succeeded in continuing to operate CG 5824-S* as the Secretary of the CP, USA Foreign Affairs Committee, a position which gives him the official authority to act and speak for the CP, USA internationally and to guide the NEC in its decisions on international affairs.
3. He laid the ground work for the fifth solo mission which involved a mission of NY 694-S to the USSR and the satellite nations in early 1960.
4. Accomplished the Solo mission to Cuba on May 7, 1960 with profitable discussion with [] in charge of the CP of Cuba in the absence of [].
5. Maintained CP, USA international mail drops and provided all information received through these drops. Of special interest in this connection was the receipt through the CP of Canada of an official color film of the Tenth Anniversary Celebration of the Peoples Republic of China which was obtained in May, 1960.
6. Prepared CG 5824-S* for the Solo mission of July 9, 1960 through July 30, 1960 to the USSR and Prague, Czechoslovakia. This mission laid the basis for the second Solo mission to Cuba and for the Solo missions to the USSR

from September through December, 17, 1960.

7. Prepared and handled the Solo mission to Cuba where the informant was one of five leaders of the CP attending the Congress of the CP of Cuba beginning August 16, 1960, which was to be followed by meetings of leadership of all Communist Parties of Latin America.

8. While in the USSR in July, 1960, informant laid the basis for at least three meetings with the USSR representatives in the following six weeks in the United States. One of these meetings involved NY 694-S and the other two involved CG 5824-S*.

9. Succeeded in arranging the attendance of the informant at the Eighth National Assembly of the Partido Socialista Popular (PSP) Congress, from August 16 - 20, 1960. The informant was gone from the United States from August 11 through 26, 1960.

10. Succeeded in having the informant attend as a member of the CP, USA delegation, a conference of the Editorial Commission of representatives of twenty-six Communist and Workers' Parties which was followed by a meeting in November of eighty-one Communist and Workers' Parties of the world, at which CG 5824-S* was Chairman of the CP, USA Delegation. The informant was gone from September 22 through December 17, 1960 and the detailed results will be set forth hereinafter.

Solo Mission - July, 1960

By far, the high point of accomplishment of SA [] in guiding CG 5824-S* insofar as international accomplishments are concerned, and prior to the fall, 1960, meetings, was the July, 1960 mission, originally scheduled to include China and all satellite nations but which was cut short on the instructions of the Russians who desired the informant to return home because of certain ideological differences between the CP of China and the CP of the Soviet Union.

In connection with this mission, the Bureau had set forth eleven separate objectives for guiding CG 5824-S*. Despite the fact that the CP of the Soviet Union saw fit to cut the informant's trip to three weeks, the informant furnished information on nine of the eleven items requested by the Bureau.

b6
b7c

However, one result of this trip over-shadowed all of the informant's information; this being the information regarding the deep ideological and other differences between the CP of the Soviet Union and the CP of China which had erupted on the surface at the Third Congress of the CP of Rumania in the form of an eighty-four page Russian document. The informant was able to provide the essence of eighty pages of this original document. Further, he had talks with CP leaders in the USSR and in Prague which gave him and the Bureau first-hand intelligence information on a question which heretofore had been described as rumor. This information was undoubtedly of inestimable value to the President and the State Department.

A few additional items of importance concerning this mission include the following:

1. CG 5824-S* furnished information that fifty Latin American Communists spent six months in China and are currently returning to Latin America. The Chinese taught these individuals guerrilla warfare and the need for revolution in Panama and Brazil. This was particularly timely information because at that time the Organization of American States meeting was being held in Costa Rica and because of the current critical Cuban situation.

2. CG 5824-S* obtained information concerning the Congress of the CP of Cuba beginning on August 16, 1960 which would be attended by representatives of all Communist Parties of the world and which would be followed by a Congress of Latin American Parties to continue immediately after the Cuban Congress. The informant was successful in obtaining an invitation for the CP, USA to send a delegate to Cuba and thus again was successful in maintaining contact with CP members in all Latin American countries at a time when this intelligence information was of the greatest importance in shaping American foreign policy in Latin America.

3. Informant identified and met with two representatives of the Secret Department of the CP of the Soviet Union who have been in the United States of recent date.

4. The informant was briefed in detail and obtained a document of the Third Rumanian Congress from at a meeting in Prague, Czechoslovakia.

b6
b7c

5. The informant met with members of the Secret Department of the CP of the Soviet Union where he discussed the matter of the perfection of an apparatus in this country.

6. The informant obtained additional information on the Peoples University in Moscow in which the Bureau has a great interest.

7. Informant held an important meeting with leading members of the All Union Council of Trade Unions in the USSR and received their impressions concerning the delegations which had been sent to the USSR and made future plans and decisions for delegations to visit the USSR.

8. Informant furnished information concerning the ideological differences between the CP of the Soviet Union and the CP of China to the NEC of the CP, USA on August 6 and 7, 1960, obtaining a resolution in support of the Russian position and conveyed these views of the NEC to the Russian Party.

Solo Mission to Cuba to Attend the
Eighth National Assembly of the PSP
August 16-20, 1960

The United States Government has indicated a deep interest in Communist penetration of Latin America and particularly of Cuba,

Agent [] was able to guide this informant and to encourage him to make this most important trip to Cuba not only to attend the Assembly, but because the informant knew that representatives from all Communist Parties of the world, including Latin America, would also attend this Assembly. The informant reported in detail concerning this Assembly which was attended by 204 Cuban delegates and 65 fraternal delegates from all over the world which represented 21 Communist Parties. The CP of China had a three man delegation, East Germany was represented by one individual, France by JACQUES DUCLOIS, and Italy by VELIO SPANNO. Informant gave an excellent report on an eleven hour speech by BLAS ROCA in which ROCA listed the following as the four tasks of the Cuban revolution:

1. Unity
2. Greater production
3. Strengthening armed defense and might of Cuba
4. Elevating consciousness of the masses of the people.

The informant was able to report that the CP of Cuba had obtained economic, political, technical, military, and other aid for Cuba from the Communist countries. In the opinion of

b6
b7C

b6
b7C

the informant, the CP of Cuba is playing a large role in the running of Cuba. In private conversations with [redacted] it was learned that the Cuban CP does not want the CP, USA to propagandize for a break between the United States and Cuba. The Cuban line is that Cuba is ready to talk to the United States provided the United States recognizes that Cuba has achieved independence. Informant reported that CASTRO obviously had agreed to a united front with the Communists. He reported that the Chinese delegation had promised Cuba unreserved assistance. The Congress of Latin American Communist Parties scheduled to be held following this meeting was not held because it was felt that the items which would have been discussed were taken up at the CP Congress.

The informant furnished the identities of most of the individual Communist leaders from the world who attended this Assembly, had a personal conference with [redacted] on Cuban - American CP problems and plans, and secured drop addresses for seventeen Latin American and East European countries not under CP control.

Solo Operation, Moscow and Prague
September 22 - December 17, 1960

Through the planning of this agent and the informant, this informant departed from the United States with credentials issued by GUS HALL, General Secretary of the CP, USA, identifying the informant as the Chairman of the CP, USA Delegation to the November meeting of Communist Parties in Moscow. This meeting was preceded by a four week meeting of an Editorial Commission of representatives of 26 Communist Parties and Workers' Parties, and during this four week period, the informant was the keeper of the records. Through planning, it was possible for the informant to prepare for this trip by inserting secret pockets in his clothing. This later proved of great assistance when the informant came into possession of a 121 page document containing the charges of the Russians concerning the CP of China in connection with their ideological and other differences, including border clashes, withdrawal of technicians and technical assistance, withdrawal of circulation of magazines, personal attacks by the CP of China on KHRUSHCHEV, and other items indicating deep cleavage between the Chinese and Russians. The informant, by working long hours at night, meticulously wrote out in long-hand the essence, and in many cases, exact verbiage of this document which was transmitted to the Bureau in the form of a memorandum in excess of forty pages. It is believed that this memorandum is the only one in existence in the United States on this important subject matter. This was the high-light of the results of this trip, however, the following is an itemization

of the coverage which this informant provided for the Bureau during his three month stay in Moscow:

9/20-21/60 Two day meeting of the Secretariat of the CP, USA in New York City.

9/22-27/60 En route to Moscow, Russia, with a stopover in Prague, Czechoslovakia and meetings with individuals in Prague. b6 b7C

9/28/60 Meeting with [redacted] of the CP of the Soviet Union, other members of CP of Soviet Union, and [redacted] of CP, USA in Moscow.

9/30 - 10/22/60 Meeting of the Editorial Commission of twenty-six Communist Parties in Moscow, Russia.

10/22/60 Banquet in the Kremlin.

10/23 - 11/10/60 Meetings with various individuals in Moscow, including members of the CP of the Soviet Union, CP, USA, and the CP of Canada.

11/10 - 12/1/60 Meeting of eighty-one Communist Parties and Workers Parties in Moscow, Russia.

12/4/60 Banquet in the Kremlin.

11/30 - 12/4/60 Meeting of representatives of Latin American Parties in Moscow, Russia.

12/7/60 Meeting in Moscow, Russia with [redacted], General Secretary of the CP of Brazil. b6 b7C

12/12/60 Meeting with [redacted] in Moscow.

12/13/60 Meeting with [redacted] in Moscow.

12/14/60 Meeting with ALFRED K. and MARTHA DODD STERN in

12/15 - 17/60 En route to the United States.

12/20/60 Meeting with GUS HALL and the top leadership of the CP, USA in New York City.

Among the other items of valuable information obtained on this trip were the following:

1. Informant furnished a list of names and positions of representatives of the twenty-six Communist Parties of the world represented at this meeting which was called to prepare a document of agreement for the November, 1960 meeting of Communist and Workers Parties from eighty-one countries. Informant was able to furnish the identities in most cases of all of the delegates and heads of delegations at these conferences. In most cases he met with them and discussed matters of interest in the intelligence field. These included heads of delegations from such countries as Albania, Bulgaria, East Germany, China, Poland, Rumania, and the following Russian representatives:

[Redacted]

Member of the Presidium and Secretary of the Central Committee, CP of the Soviet Union

[Redacted]

Member of the Presidium and Secretary of the Central Committee, CP of the Soviet Union

[Redacted]

Candidate member of the Presidium

[Redacted]

Member of Central Committee

Deputy Head, Central Committee

Member, Central Committee and Inspection (Review) Commission.

b6
b7C

2. Furnished the details of twenty-one of seventy-eight speeches made during the three month period. The agent prepared over 400 pages of reports and the speeches include many speeches of KHRUSHCHEV who attended meetings of the Editorial Committee and the debates. The reports also contained detailed reports of exchanges between [Redacted] and [Redacted] General Secretary of the CP of China.

3. Furnished details of the November, 1960 meeting of the eighty-one Communist and Workers Parties.

4. Furnished the essence of a speech by NIKITA KHRUSHCHEV at a banquet held October 22, 1960. In this speech KHRUSHCHEV made pertinent comments concerning the United States and life in the United States.

5. Furnished details of an extremely important five day meeting in Moscow of leaders of the Communist Parties of Latin America dealing with such items as assistance to Cuba in the case of invasion of Cuba by the United States.

6. Furnished results of contacts in Moscow with representatives from nearly all of the trouble spots of the world, including China, Cuba, West Berlin, Korea, Japan, and India.

7. Obtained information concerning the existence of an international Communist cadre school in Moscow.

8. Furnished details concerning arrangements of financial support by the CP of the Soviet Union for the CP, USA. Also furnished information regarding Soviet efforts to curtail its international spending to bolster its economy.

9. Met in Moscow on December 7, 1960 with LOUIS CARLOS PRESTES, General Secretary of the CP of Brazil and one of the top CP leaders in Latin America.

10. Met in Moscow with the informant's CP of the Soviet Union contact from the United States.

Investigative Problems Involved

As indicated from the enumeration of the three Solo missions during the pertinent period outlined above, sustained above average performance and the overcoming of difficulties in such a massive operation should require no specific enumeration.

The whole operation goes back to 1952 when basic goals were laid to penetrate the international Communist apparatus at its highest level. SA [] has been intimately involved in the planning for the attaining of these goals and in sustaining the operation since February, 1955. This operation reached its highest point of productivity during the past year.

b6
b7C

Numerous problems were involved and were solved by this agent. The greatest problem of all is to condition the informant's mind and spirit to the need for continuing the over-all operation. This entails daily, 365 day a year intimate contact with the informant by both the agent and his supervisor, by attention to his personal needs and to his whims, to his periods of elation and to his periods of depression. Agent [] at great personal sacrifice, has handled all of these problems which have arisen. In addition, during the pertinent period, he has brought this informant through the ordeal of the sickness and eventual death of the informant's wife of cancer.

b6
b7C

Agent [] has solved each problem involving the preparations for each Solo mission during the past year. Included in these operations were the obtaining of documents, credentials, transportation, clothing, setting up a communication apparatus, etc.

Agent [] guided the informant to reaching the highest goal a Bureau informant has ever reached, that is, a position on the NEC and the position of Chairman of the National Review Commission. This goal was reached through careful guidance during the transition period of leadership in the CP from EUGENE DENNIS to GUS HALL.

After the death of the informant's wife, Agent [] had the distinct problem of convincing the informant of his ability to continue the Solo operation despite the fact that the informant's wife was his right hand in the Solo operation, had made many trips with him, and had given the informant inspiration to continue his work for his country. Agent [] succeeded in carrying the informant through this period through close personal association with him. Indicative of the control Agent [] has over this informant, he persuaded CG 5824-S* to allow the informant's brother, NY 694-S, to proceed on a necessary Solo mission in early 1960 when the informant's wife was critically ill with cancer and not expected to live. The informant's wife died while NY 694-S was abroad on this mission.

b6
b7C

Agent [] through the years, has had a constant daily problem of keeping the over-all operation of CG 5824-S* going because the informant is getting older and

because his health has not improved. At the time of the Solo mission in July, 1960, the informant's health, specifically his back, was very poor and he was unable to sit in a chair or to stand up at the time of his departure. In spite of his physical condition, Agent [] persuaded the informant that it was necessary to make the Solo mission at that given time.

b6
b7C

With regard to the Solo mission to Cuba, the informant has always been extremely reluctant to have dealings with any Latin Americans because of his distrust of them which goes back many years and which was re-emphasized during a trip several years ago during a contact with the CP of Mexico. His distrust has been emphatically emphasized and it has been noted that whenever he is scheduled to go to Latin America he attempts to postpone the trip as long as he can. He fears "some trigger happy Cuban" who might pull a gun solely because he, the informant, is an American.

SA [] during all of the Solo trips, has carefully prepared the informant in the use of passports and has provided him with the necessary documents and credentials to make these trips look legitimate. These problems require initiative and ingenuity.

SA [] throughout the pertinent period, has continued to perform day and night service to the informant and to the Bureau in order to provide this information to the Bureau at the earliest possible date. His overtime is consistently in excess of three hours a day and during the past thirty days it was approximately five hours a day.

b6
b7C

Agent [] because of the mobility of this operation, makes frequent extended trips to New York City and to other cities. Some of these trips require extended stays at expensive hotels and it is noted that these expenses exceed his per diem in a considerable amount. This is necessary because the agent makes these arrangements to be near the informant in order to get the information. He has willingly accepted all of these responsibilities.

PERSONNEL RESPONSIBLE

The Bureau is aware that CG 5824-S* was originally developed by SA CARL N. FREYMAN. After Agent FREYMAN became a supervisor, he continued to supervise the over-all operation of this informant from that time to date, but detailed development and handling of the informant was assigned to SA [redacted]. Supervisor FREYMAN continued the handling, contacting, guiding, and over-all supervision of CG 5824-S*. On a daily basis he has conferred and collaborated with SA [redacted] in connection with problems which arose in the handling and guiding of the informant and his activities. Agent FREYMAN personally participates in contacts by Agent [redacted] with the informant.

b6
b7c

Supervisor FREYMAN has made a major contribution to giving the over-all operation the continuity which is necessary for such a major operation. FREYMAN has developed an outstanding interest and knowledge of Marxism and Leninism which was essential to the continuous program of advancing and operating this informant at the highest possible national and international level.

During the pertinent period, the initiative and physical resources of SA FREYMAN were taxed to an even greater degree than in previous periods of developing and handling due to the more complex nature of the operation and to the many new problems which arose. Specifically, some of the problems which arose incident to the preparing and handling of this informant through three new major Solo missions in one year, through the death of the wife of CG 5824-S* of cancer, and the necessary period of adjustment incident to this tragedy for the informant, through problems arising over constantly conditioning the informant's mind to the need for continuance of expansion of his operations, are among, but certainly not all of the obstacles encountered and solved by these agents on a continuing basis during this period.

All of the problems of handling an operation of the magnitude and duration of the Solo operations require constant attention and planning. For example, during the pertinent period, such new problems as a probate, real estate transactions, income tax returns, all had to be initially met and solved by the responsible agent personnel

as they related to the informant's security. At the death of the wife of CG 5824-S*, the question as to the type of religious funeral which could be had without jeopardizing the security of CG 5824-S* had to be met and decisions as to what explanations the CP would accept had to be made. The informant had to be counseled to take a possible loss in the sale of his home and to remain living in an all Negro neighborhood in order to maintain his position in the CP, and this and others could be cited as examples of the joint efforts of SA [] and Supervisor FREYMAN in solving problems which result in the continuance of the success of this major operation.

b6
b7C

The informant, on his last Solo mission, arrived in Chicago from abroad on December 21, 1960, after a three month trip. It was known that he had extremely valuable intelligence information, a fact which was ultimately borne out when in excess of 400 typewritten pages were submitted to the Bureau. Despite the holiday season and the fact that the informant had been away from his home, his parents, and his grandchild and son, he was kept on the job as were the responsible agent personnel until the complete text of information was obtained and the results transmitted in approximately 31 days. This expedite handling of such a volume of difficult information required seven day a week availability of responsible agent and supervisory personnel, by stenographers, etc. It also required a broad knowledge of the identity, position, and spelling of the names of practically each international Communist leader in the world. Needless to state, much overtime was spent during this period, both during the week and on weekends by the responsible personnel.

SOLO
INTERNAL SECURITY - C

As the Bureau is aware, captioned operation has now been completed in regard to Missions 5, 6, 7, and 8. Enclosed herewith are attachments to FD-255 justifying incentive awards to individuals set forth below:

- 1) Incentive award to SA [redacted]
in amount of \$1,000
- 2) Incentive award to SA CARL N. FREYMAN,
Field Supervisor, in amount of \$1,000
- 3) Incentive award to Stenographer [redacted]
[redacted] in amount of \$125
- 4) Incentive award to Stenographer [redacted]
[redacted] in amount of \$125

b6

These recommendations are made in view of the outstanding performance of these individuals in connection with the completion of Solo Operations 5, 6, 7, and 8.

In my opinion, the information obtained has been of inestimable value to the over-all security of the country. I feel that the personnel involved handled their assignments in outstanding fashion, and without their tremendous services and guidance to the informant, the operation could never have been successful.

CG 67-832

The Bureau is, of course, in the best position to determine the over-all value accruing to both the Bureau and the Government from these operations. I believe the continued high level performance from the personnel responsible merits further recognition at this time.

I also would like to recommend letters of commendation for Stenographers [redacted] and [redacted]. With regard to [redacted], she has many times during the past year taken dictation from SA [redacted] when all of the stenographers were occupied with other work or when SA [redacted] had to get out numerous expedite materials either late in the afternoon or in the early evening. She has always been considered one of the expert stenographers in this office in the handling of Solo materials and has always been most co-operative. Further, she has continued to be solely responsible for the maintenance and the handling of the Solo files which are maintained by the SAC. During the latest Solo mission, [redacted] spent a weekend taking dictation from CG 5824-S in a hotel in an effort to expedite materials from our office to the Bureau because of their importance.

b6
b7C

With regard to [redacted] she has only recently undertaken responsibility for dictation on Solo matters and for the other dictation of materials from CG 5824-S. [redacted] during the past six weeks when the other stenographers were engaged in receiving Solo dictation, willingly gave of her time to take extensive dictation from CG 5824-S's materials received in connection with day to day local and national coverage which he afforded. She has volunteered for this new assignment and has shown an excellent attitude. Her work has been neat and accurate, and she shows promise of being fully as qualified within a short time as both [redacted] and [redacted].

b6
b7C

I also feel that SA [redacted] should be commended for his part in the handling of informant. During this last operation he was understudy for SA [redacted], who was under transfer to the Bureau. SA [redacted]

CG 67-832

devoted a great deal of his personal time, including weekends, nights, etc. in order to learn what will be expected of him in the future handling of this informant. In addition, he made a number of valuable suggestions, and I feel his over-all contribution to the operation merits a letter of commendation. He has diligently and enthusiastically tackled his new assignment and has been making an excellent effort to learn all the many ramifications. I feel at this time that he is qualified to handle the informant in lieu of SA [redacted]

b6
b7c

In addition, I am attaching herewith a proposed personal letter from the Director to CG 5824-S. Finally, in addition, it is suggested that CG 5824-S be considered for a bonus payment, possibly in the amount of \$1,000, based upon his recent extraordinary services and accomplishments in connection with Solo Mission #8, which included personal sacrifices endangering his life in securing the outstanding information which he has furnished. An example of personal risk to life to accomplish extraordinary results was indicated when the informant, having had the foresight to sew in concealed pockets in his trousers and to carry thin paper into Russia, was able by working in his room many nights, to transcribe by handwriting the contents of more than a hundred page document in which the Bureau had great interest, and to subsequently smuggle the documents out of Russia. All of this was done when he continued to be in poor health due to a chronic heart condition. He also had the tip of his finger smashed and partly taken off in a door accident while in the Kremlin. He accepted certain treatment from Russian doctors but because of his affiliation with the Bureau, he was afraid to allow the Russians to put him under anesthetic. As a result, his finger caused him a tremendous amount of pain and suffering. Upon arriving back in the States, he went to a doctor, who informed him that the finger was badly infected, and it has required extensive treatment since that time.

He has continued to put in tremendous hours and to overcome the difficulties of leading a split

CG 67-832

life as a full time CP leader and a full time Bureau worker. He has, therefore, given up any personal life which he has in the interest of his Government. He has foregone vacations and all personal pleasures in the past several years to assist the Bureau on a daily basis and particularly, to protect himself from losing any Party positions which have been difficult to obtain and which might be lost through absence.

In this connection, however, it is noted that the Bureau has always considered the operations of CG 3824-S and NY 694-S as a unit operation. CG 5824-S has recently reiterated that particularly since the death of his wife, he has relied more and more upon NY 694-S in connection with the over-all operation and that but for the services of NY 694-S he does not believe that he could continue with the over-all Solo operation. Therefore, the Bureau may also desire to consider NY 694-S for inclusion in the over-all incentive awards.

Memorandum

TO : Mr. A. H. Belmont *also*

DATE: February 17, 1961

FROM : Mr. F. J. Baumgardner *2013*SUBJECT: SOLO
INTERNAL SECURITY - C*Chicago F.O.*

This memorandum is to recommend incentive awards in connection with Solo Mission Number 8.

SYNOPSIS:*Freyman, Carl N.*

Solo Mission Number 8 was an unusual and outstanding success. CG 5824-S* was in Moscow, Russia, for almost three months during which time he surreptitiously obtained an extremely valuable, highly secret document issued by the Soviet Union dated 11-5-60 which sets out point-by-point the deep-seated ideological differences existing between Russia and Red China. Previously unknown conflicts on matters of state between Red China and Russia are also contained in this document. The Secretary of State and the Director of the Central Intelligence Agency, in a total of four recent letters to the Director, have praised highly the valuable intelligence information developed by our informant on this mission.

CG 5824-S*, as a representative of the Communist Party, USA (CPUSA), attended secret meetings convened in the Kremlin by the Communist Party of the Soviet Union (CPSU) along with representatives of all communist parties of the world. The proceedings at these meetings in plotting world domination were covered completely by our informant. As a result, we possess voluminous detailed accounts of daily occurrences for the three months these meetings were held. Other unusual accomplishments of this mission include: private remarks of Soviet Premier Nikita Khrushchev on 10-22 and 12-4-60; consultations with top Soviet officials which determined that Soviet troops were used to drive Chinese Communists from Russian territory; and the discovery of the existence of an international cadre training school currently being held in Moscow.

This Solo operation has provided the United States Government with extensive valuable detailed intelligence information and our ability to expeditiously disseminate information of this type to high-level Government officials keeps the Bureau in the forefront as the outstanding intelligence agency in the world.

Memorandum to Mr. Belmont
RE: SOLO

The SAC, Chicago, by letter dated 2-6-61, recommends: incentive awards of \$1,000 each for Special Agents Carl N. Freyman (field supervisor) and [redacted] (Agent handling informant) for sustained above-average performance and for performance which has involved the overcoming of unusual difficulties in connection with this mission; incentive awards of \$125 each for stenographers [redacted] and [redacted] for sustained above-average performance in taking unusually complicated dictation on material furnished by this informant which was accurately and rapidly transcribed; a personal letter of commendation for Special Agent [redacted] (understudy of Special Agent [redacted] who is now handling the informant) for his excellent assistance in connection with this mission; and personal letters of commendation for stenographers [redacted] and [redacted] for their excellent over-all assistance in handling the high volume of material produced by this operation. In addition, he recommended an award of \$1,000 for CG 5824-S* for extraordinary services and accomplishments on Solo Mission 8 along with a letter of appreciation from the Director to the informant. This letter is to be delivered to the informant by the SAC, Chicago, for perusal and then returned to the Chicago Office and retained in the safe. It was also recommended that consideration be given for inclusion of NY 694-S* in the over-all incentive awards due to the unit operation of NY 694-S* with CG 5824-S*. (We do not agree with this last recommendation.)

OBSERVATIONS:

1. The outstanding information developed as a result of Solo Mission 8 is due in large extent to the excellent and careful planning of this operation both in the field and at the Seat of Government. Prior to the informant's departure on this mission, the Seat of Government prepared specific targets for the informant to accomplish which were instrumental in our obtaining this outstanding and detailed information.

2. This information is of inestimable value to the Bureau and to the Government not only from an intelligence standpoint, but also in assisting the President and the Secretary of State in determining what our country's current and future relationships will be with the Soviet Union, Red China, Latin-American nations and satellite countries. This high volume of detailed information was not available through any other sources, it has not been obtained to this extent by any other intelligence agency, and represents a most outstanding achievement by the FBI.

Memorandum to Mr. Belmont
RE: SOLO
100-428091

3. Our informant has been invited to attend the 22nd Congress of the CPSU in Moscow during the latter part of 1961. This fact, plus contacts of our informant with representatives of communist parties of the entire world, assures our continual receipt of up-to-date high-level intelligence data.

4. All information developed from this operation has been disseminated on a top secret basis to top officials of the Government and to appropriate Government intelligence agencies. A recent news release indicates that all United States relations with the Soviet Union and Red China, including the possible meeting between President Kennedy and Soviet Premier Khrushchev, will be against the background of the schism between the Soviets and the Red Chinese. The documents obtained by this operation have supplied them with the intelligence data to properly evaluate the Sino-Soviet dispute.

RECOMMENDATIONS OF DOMESTIC INTELLIGENCE DIVISION:

b6
b7C

With regard to the foregoing recommendations of the SAC, Chicago, the Domestic Intelligence Division recommends:

1. That Special Agents Carl N. Freyman and [redacted] be afforded recognition in the form of incentive awards. It is felt, however, that the recommendation of the SAC, Chicago, in the amount of \$1,000 each is rather high and that a more appropriate figure would be \$250 each.

2. That stenographers [redacted] and [redacted] be afforded incentive awards in the amount of \$125 each as recommended by the SAC, Chicago.

3. That personal letters of commendation be afforded Special Agent [redacted] and stenographers [redacted] and [redacted] as recommended by the SAC, Chicago.

Memorandum to Mr. Belmont
RE: SOLO
100-428091

4. That a personal letter of commendation over the Director's signature be directed to CG 5824-S*, this letter to be delivered to the informant by the SAC, Chicago, for perusal and then returned to the Chicago Office and retained in the safe.

5. That CG 5824-S* be afforded an award in the amount of \$1,000. This recommendation, above and beyond his usual remuneration, is warranted due to unusual danger to the informant's life while he was in the Kremlin for an extended period of time. It is noted that on this mission the informant suffered an injury to his hand. He accepted limited treatment from Russian doctors but refused an operation because he feared he would talk under an anesthetic and reveal his connection with the FBI. This medical neglect resulted in an infection which has required considerable treatment since the informant's return to this country.

6. That NY 694-S* not receive an incentive award at this time as he did not participate directly in Solo Mission Number 8. He received an award as a result of the fourth Solo mission, which he made. In connection with the unit operation of NY 694-S* and CG 5824-S*, NY 694-S* recently was afforded an increase of \$100 a month in his regular monthly remuneration.

ACTION:

1. Attached for your approval is an appropriate communication to the SAC, Chicago, which encloses a personal letter of commendation from the Director to CG 5824-S*. Appropriate instructions are

Memorandum to Mr. Belmont
RE: SOLO
100-428091

included regarding the manner in which this communication should be made available to the informant. Instructions are also included to afford the informant a cash award of \$1,000.

2. This over-all memorandum should be forwarded to the Administrative Division for handling relative to the above recommendations for incentive awards and personal commendations.

Supervisory Personnel:

This case is supervised in the Communist Party, USA (CPUSA) Unit of the Internal Security Section. SA [] presently supervises this case in the unit. The eighth Solo mission, lasting almost three months, resulted in the obtaining of voluminous and exceedingly valuable information of vital importance to the Bureau and other agencies of the Federal Government. SA [] also made major contributions to the outstanding success of this mission by analyzing, digesting, evaluating, synthesizing and disseminating pertinent data obtained to high-ranking officials of the Government under a "Top Secret" classification. These concise, comprehensive, accurate and informative dissemination memoranda have provided the Bureau and top officials of the Government with a succinct analysis and a clear-cut picture of the Sino-Soviet dispute. Without such a presentation of this material, the whole operation would not have been such an outstanding success. CIA Director Allen W. Dulles in his letter of 1/25/61 commended those "special agents who handled in such an excellent manner the debriefing and processing of the intelligence produced by this source." SA [] excellent judgment in the handling of this eighth Solo mission, both at the Seat of Government and in his instructions to the field, assured the complete success of this operation. In view

ADDENDUM (continued)

of Agent [] meritorious contribution to the outstanding success of this eighth Solo trip, it is recommended that he be granted an incentive award in the amount of \$125.

SA [] is the Supervisor in Charge of the CPUSA Unit and this case was assigned to him up until 12/9/60. He personally supervised the innumerable details which preceded Solo Operation 8 which commenced 9/22/60. SA [] coordinated the preparation of specific targets for the informant on this Solo trip which, to a large extent, resulted in the successful completion of the mission. He has followed this case closely on a day-to-day basis and has exercised outstanding judgment to insure that proper action was taken at each stage. During Solo Mission 8, SA [] as Supervisor in Charge of the Unit, gave direction and guidance to this case which culminated in a very successful operation. He conferred and collaborated with SA [] in the handling of current problems as they arose in connection with this eighth Solo trip, as well as assisting in the preparation and dissemination of material in conjunction therewith. His knowledge of Marxism-Leninism and his knowledge of the activities of the CPUSA on a national and international level are necessary attributes to the successful completion of a major operation of this kind. Because of such knowledge, SA [] has very ably discharged his duties, not only in conjunction with this Solo operation, but in the correlation of material received concerning the activities of communist parties throughout the world with other sections of the Bureau handling the particular country involved. In view of the alert, aggressive over-all supervision afforded this case by SA [] it is recommended he be granted an incentive award of \$125.

b6
b7C

Clerical Personnel:

In addition, [] who serves in the capacity of Secretary to the CPUSA Unit, has contributed outstanding services which in no small way have been responsible for the ultimate success of Solo Mission 8. She has handled all stenographic operations incidental to the mission in a very capable manner and has been responsible for preparing the high-level dissemination made in connection therewith. All information disseminated to top officials of the Government had to be letter-perfect. She has consistently displayed an outstanding cooperative attitude and on several occasions voluntarily worked long hours beyond her regular workday in order to handle the volume of dictation. [] has shown expert ability

in taking the necessary complicated dictation and her work has been completely accurate. This is specifically noteworthy in view of the difficult names and difficult Marxist terms which were necessarily used in the material. It is recommended, therefore, that [redacted] outstanding services be recognized and she be afforded an incentive award in the amount of \$100.

[redacted], who serves in a clerical capacity to the CPUSA Unit, has handled the Bureau special Solo file for the past four Solo missions. She has carried out her duties in an excellent manner by assisting in the preparation of an index after the conclusion of each mission. These indexes provide a ready reference to the names and type of information contained in the voluminous material that is received after the termination of each trip. [redacted] also digests material contained in the file and furnishes it orally to other sections of the Bureau when a request is made by personnel of another section for material contained therein. She has willingly offered her services and has voluntarily worked overtime to assist the unit in carrying out its responsibilities during times of peak volume. Her attitude and interest in her work are commendatory. In view of [redacted] excellent services in connection with the Solo operation, it is recommended that she be given a letter of commendation.

In addition, I recommend that Inspector Joseph A. Sizoo and Section Chief Fred J. Baumgardner be afforded individual letters of commendation. Baumgardner, as the Section Chief, had the over-all responsibility for this operation. Throughout the entire eight Solo missions, he performed with a high degree of efficiency and continually made suggestions and took action at the appropriate time which insured the success of the informant's mission.

Inspector Joseph A. Sizoo kept close check on this operation from the start to the finish. When the occasion demanded, he discussed this matter with the SAC at Chicago over the telephone and issued instructions and ironed out problems in connection with the over-all operation. He likewise issued telephonic instructions to our New York Office and performed with a high degree of efficiency throughout the operation in such a manner as to contribute in no small measure to its over-all success.

DETAILS:

The SAC, Chicago, by letter dated 2-6-61, recommends: incentive awards of \$1,000 each for Special Agents Carl N. Freyman (field supervisor) and [redacted] (Agent handling informant) for sustained above-average performance and for performance which has involved the overcoming of unusual difficulties in connection with this mission; incentive awards of \$125 each for stenographers [redacted] and [redacted] for sustained above-average performance in taking unusually complicated dictation on material furnished by this informant which was accurately and rapidly transcribed; a personal letter of commendation for Special Agent [redacted] (understudy of Special Agent [redacted] who is now handling the informant) for his excellent assistance in connection with this mission; and personal letters of commendation for stenographers [redacted] and [redacted] for their excellent over-all assistance in handling the high volume of material produced by this operation. In addition, he recommended an award of \$1,000 for CG 5824-S* for extraordinary services and accomplishments on Solo Mission 8 along with a letter of appreciation from the Director to the informant. This letter is to be delivered to the informant by the SAC, Chicago, for perusal and then returned to the Chicago Office and retained in the safe. It was also recommended that consideration be given for inclusion of NY 694-S* in the over-all incentive awards due to the unit operation of NY 694-S* with CG 5824-S*. (We do not agree with this last recommendation.)

The Solo operation pertains to liaison activities of CG 5824-S* between the CPUSA and the CP's of the Soviet Union, Red China and other Iron Curtain nations.

Solo Mission 8 was unusual and most outstanding in successful achievement. CG 5824-S* departed for Moscow on 9-22-60 with credentials issued by Gus Hall, General Secretary of the CPUSA, identifying the informant as the Chairman of the CPUSA delegation to the November meeting of communist parties in Moscow. He returned to the United States on 12-17-60. The November meeting was preceded by a four-week meeting of an Editorial Commission of representatives of 26 communist and workers' parties and during this meeting the informant was the keeper of the records. Through planning, it was possible for the informant to prepare for this trip by inserting secret pockets in his clothing. This later proved of great assistance when the informant was successful in surreptitiously obtaining a 121-page secret document issued by the Soviet Union dated 11-5-60. This document sets out point-by-point the deep-seated ideological differences existing between the Soviet Union and Communist China. It also contains extensive information on previously unknown conflicts regarding matters of state between Red China and Russia. The informant, by working long hours at night, meticulously

wrote out in longhand the essence and in many cases exact verbiage of this document. It is believed that this memorandum is the only one in existence in the United States on this highly important subject matter. Among the other items of valuable information obtained on this trip were the following:

1. List of names and positions of representatives of 26 communist parties of the world represented at the October, 1960, meeting and a list of the names and positions of representatives of the 81 communist parties at the November, 1960, meeting. In most cases the informant met with heads of delegations at these conferences and discussed matters of interest in the intelligence field.
2. Furnished details of 21 out of 78 speeches which were made during the three-month period.
3. Furnished the essence of remarks made by Nikita Khrushchev on 10-22-60 and remarks made on another occasion on 12-4-60.
4. Furnished details of an extremely important five-day meeting in Moscow of leaders of the communist parties of Latin-American countries dealing with such items as assistance to Cuba in the case of invasion of Cuba by the United States.
5. Furnished results of contacts in Moscow with representatives from nearly all the trouble spots in the world, including China, Cuba, West Berlin, Korea, Japan and India.
6. Obtained information concerning the existence of an international cadre training school currently being held in Moscow.
7. Through personal consultations with top Soviet officials, determined that Soviet troops were used to drive Chinese communists from Russian territory sometime prior to August, 1960.
8. Furnished details concerning arrangements of financial support by the CPSU for the CPUSA.
9. Arranged future meetings with Vladimir Barkovsky, Counsel, Soviet Delegation to the United Nations in the United States, for the purpose of passage of information and transmittal of Soviet funds to the CPUSA. On 2-12-61 \$88,000 was passed to the CPUSA by Barkovsky as a result of this arrangement.

The above examples certainly indicate the extraordinary value of the information developed by our informant during this eighth Solo mission. It is impossible to put a money value on the information received as this type of information is not available through any other source. This information, which has been disseminated on a high level, will certainly enhance the Bureau's reputation as the world's leading intelligence agency.

Role of Special Agent []

Special Agent [], by continued sustained outstanding performance, guidance, encouragement and ingenious preparation of CG 5824-S* on a day-to-day basis as the Agent handling the informant, has contributed immensely to the outstanding results derived from Solo Mission 8. Preparation for this mission began in July, 1960, when the informant returned to this country from Moscow upon instructions from the Russians. The informant's mission that month was cut short since the Russians desired that the informant immediately solicit the support of the CPUSA in behalf of the CPSU in its ideological differences with the CPC. This mission was concluded at the end of January, 1961, after the informant had been exhaustively interviewed to record the highly valuable intelligence information. Outstanding performance by Special Agent [] was also evidenced by his analysis and channelization of the information. Successful guidance of this informant on a daily basis seven days a week is extremely taxing on the ingenuity and capabilities of the handling Agent. This is due to the top positions this informant occupies in the CPUSA which include being a member of the National Committee, Secretary of the International Affairs Committee and Chairman of the Control Commission. The outstanding and continued high productivity of this informant is possible to a large extent because of daily encouragement which is necessary for him to continue his dual role in life. The unusual strained conditions under which the informant operates are recognized, shared and effectively coped with by the handling Agent in order to assure that this operation remains successful.

Unusual problems have developed in the operation of CG 5824-S*; however, by Special Agent [] being intimately involved in this operation, the problems have been overcome. These problems include obtaining documents, credentials, transportation, special clothing with secret pockets and setting up a communication apparatus. Special Agent [] was able to keep up the informant's morale and furnish him with good advice on personal problems due to the death of his wife. There has been a constant daily problem of keeping the over-all operation of CG 5824-S* going during the past year because the informant is getting older and because his health has not improved. Special Agent [] has made numerous personal sacrifices during this period by performing day and night services to the informant and to the Bureau to assure that maximum benefit from this operation was derived for the Bureau. Extended trips to New York City and other cities requiring extended stays at expensive hotels caused Special Agent [] to incur expenses in excess of per diem allowed by a considerable amount.

Role of Special Agent Freyman

CG 5824-S* was originally developed by Special Agent Freyman. Since he became a field supervisor, he has continued to supervise the over-all operation of this informant. He has continued with contacts of the informant, guiding the informant and over-all supervision of CG 5824-S*. On a daily basis he has conferred and collaborated with Special Agent [] in connection with problems which arose in the handling and guiding of the informant and his activities.

Supervisor Freyman has made a major contribution to giving the over-all operation the continuity which is necessary for such a major operation. He has developed an outstanding interest and knowledge of Marxism and Leninism which was essential to the continuous program of advancing and operating this informant at the highest possible national and international level.

During this mission the initiative and physical resources of Special Agent Freyman were taxed to an even greater degree than in previous periods due to the more complex nature of the operation and to the many new problems which arose. The supervision of an operation of this intensity, magnitude and duration requires constant attention and planning.

With the return of the informant from the eighth Solo mission, Supervisor Freyman had to handle a large volume of difficult information which required seven days a week work. The material brought back by the informant necessitated a broad knowledge of the identity, position and spelling of the names of practically each international communist leader in the world. Supervisor Freyman has performed his responsibilities in an exemplary manner and at a personal sacrifice.

Role of []

b6
b7C

[] was one of the two stenographers to handle material derived from this Solo operation and from regular information furnished by CG 5824-S*. On most occasions during this period she was working under pressure as time was of the essence in getting out voluminous difficult stenographic material involving a multitude of difficult foreign names, including Chinese, Russian and Slavic, and accurately transcribing this information. During this Solo mission this stenographer and another, over a period of 30 days, accurately and outstandingly handled the bulk of the typing and preparation of material in excess of 400 pages.

Memorandum to Mr. Belmont

RE: SOLO
100-428091

b6
b7C

Much of the material obtained and dictation taken was in the evening and on weekends. [] has demonstrated an outstanding willingness to work long hours in order that the project which she was responsible for during this period would be completed in the shortest possible time. She was required to take dictation away from the office from the informant directly for as much as ten hours at a time.

Role of []

[] during this Solo mission, has handled a tremendous volume of material in addition to regular material received from CG 5824-S*. She has been one of the two stenographers who shared the assignment for the handling of the information obtained by this informant. She has taken the majority of the dictation relating to this mission. Tremendous demands were made on this stenographer, including full-time assignment, irregular hours, expeditious handling of information received, absolute accuracy and the necessity for transcribing extensive and difficult foreign names.

[] volunteered for this assignment and during the entire time has been faithful and has worked hard to meet the responsibilities of the job. She has worked evenings on many occasions during the period. On the recent Solo mission she prepared her fair share of some 400 pages of perfect copy material. Her work was of a quality which lends credit to the Bureau's over-all work. It is noted that [] voluntarily gave up an extended Christmas holiday vacation in order to be available and fulfill her commitments to handle the December, 1960, and January, 1961, Solo operation material.

b6
b7C

Role of Special Agent []

During this last operation, Special Agent [] was the understudy for Special Agent [] who was under transfer to the Bureau. He devoted a great deal of his personal time, including weekends and nights, in order to learn what would be expected of him in the future handling of this informant. In addition, he made a number of valuable suggestions and his over-all contributions to the operation merit a letter of commendation. He has intelligently and enthusiastically tackled his new assignment and has been making an excellent effort to learn all the many ramifications.

Role of [] and []

[] during the past Solo mission, has taken dictation from Special Agent [] on many occasions when all of the stenographers were occupied with other work or when Special Agent []

Memorandum to Mr. Belmont
RE: SOLO
100-428091

had to get out numerous expedite materials either late in the afternoon or early in the evening. She has always been considered one of the expert stenographers in the Chicago Office in the handling of Solo material and has always been most cooperative. She has continued to be solely responsible for the maintenance and the handling of the Solo files which are maintained by the SAC. During Solo Mission 8, Miss [] spent a weekend taking dictation from CG 5824-S* in a hotel in order to expedite dissemination. b6 b7C

[] has only recently undertaken responsibility for dictation on Solo matters and for other dictation from CG 5824-S*. During the past six weeks when other stenographers were engaged in handling Solo dictation, Miss [] willingly gave up her time to take extensive dictation from CG 5824-S* relating to day-to-day local and national matters afforded by this informant. She has volunteered for this new assignment and has shown an excellent attitude in her acceptance of this responsibility. Her work has been neat and accurate.

The performance of Miss [] and the performance of Miss [] warrant a personal letter of commendation for each.

RATING GUIDE AND CHECK-LIST

Note: Only those items having pertinent bearing on employee's performance should be rated. All employees in same salary grade should be compared.

Rate items as follows:

- ☒ Outstanding (exceeding excellent and deserving of special commendation).
☒ Excellent.
☒ Satisfactory (good or very good).
☒ Unsatisfactory.
☒ No opportunity to appraise performance during rating period.

Guide for determining adjective rating:

- "Outstanding" adjective rating requires (A) that all rated elements be "+" and (B) that each and every rated element be factually justified by narrative detail on reverse of Form FD-185.
- "Excellent," "Satisfactory" or "Unsatisfactory" adjective ratings will depend upon the composite result of evaluating all rated elements rather than following any mechanical formulas; however, for an employee to be rated "Excellent" he must not be rated unsatisfactory on any performance evaluation factors on the rating guide and check-list and must be rated "Excellent" or "Outstanding" on the majority of such rating factors. Good judgment must be exercised to insure that adjective rating is reasonable in the light of elements rated.
 - Any element rated "Unsatisfactory" must be supported by narrative comments.
 - An "official" adjective rating of "Unsatisfactory" must comply with the requirements described on the reverse of form FD-185.

EOD: 2/2/42

PART I. GENERAL COMMENTS

SA FREYMAN makes an excellent personal appearance and has a very pleasing personality. He appears to be in excellent physical condition and is highly qualified to either lead or participate in raids and other dangerous assignments.

He is supervisor of Security Squad #2, which handles basic revolutionary groups, front groups, top functionaries, key figures and security informants. He has a fine knowledge of Bureau policies and procedures in the security field, and has an outstanding knowledge of Marxist-Lenin doctrine and philosophy. He is a keen student of Communism and is continually spending much of his personal time in increasing this knowledge. His deep background and insight into fundamental Communist principles enables him to do a tremendous job for the Bureau. He handles a large volume of complicated work in a flawless manner.

He is a very enthusiastic, aggressive individual who is completely dedicated to the battle against Communism, and he is extremely loyal to the Bureau.

Mr. FREYMAN has participated in many of the monthly Intelligence Conferences with representatives of G-2, OSI, and ONI, and has made an excellent impression on these military leaders with his knowledge of security work. He is a very industrious individual who has averaged 3'14" per day overtime during the last year compared to an office average of 2'39" per day for the same period.

By letter of April 18, 1960, Mr. FREYMAN was commended through the SAC for the outstanding manner in which he participated in an operation of vital importance to the Bureau in the security field.

On September 19, 1960, SA FREYMAN was commended by the Director for the splendid supervision which he afforded

in the handling of a highly confidential source of information of great value to the Bureau in the security field. The Director advised that SA FREYMAN played an important role in the successful execution of a number of operations involving this confidential source through his extremely aggressive, imaginative and discreet direction of his activities.

By letter dated February 28, 1961, Mr. FREYMAN received an incentive award in the amount of \$250 in recognition of his exceptional supervision of the handling of an extremely confidential source of information of vital importance to the Bureau in the security field. The Director advised that he was aware of the highly complex nature of this operation and it was through Mr. FREYMAN's constant attention and planning that he was able to meet and overcome the many problems which arose.

Mr. FREYMAN was commended on March 21, 1961, by the SAC for his efforts in preparing a counterintelligence measure for the Bureau in regard to publicizing the manner in which the Soviet Union is propagandizing the visit of WILLIAM Z. FOSTER to the Soviet Union. The Director advised that the suggestion made by Mr. FREYMAN had merit and the Bureau was taking steps to implement same.

Mr. FREYMAN is a very fine supervisor and is most definitely an asset to the Chicago Office.

SUBJECT: SOLO
 INTERNAL SECURITY - C
 INCENTIVE AWARD AND COMMENDATION MATTER

The attached detailed memorandum from Mr. F. J. Baumgardner to Mr. Belmont sets forth background, development and accomplishments of the SOLO case with emphasis on SOLO mission #8. In connection therewith, Domestic Intelligence Division recommended the following: For Chicago personnel; \$250 incentive awards for SA [redacted] and Supervisor Freyman, \$125 incentive awards for stenographers [redacted] and [redacted] individual commendations for SA [redacted] and stenographers [redacted] and [redacted]. For SOG personnel; \$125 incentive awards for Supervisors Fox and [redacted] \$100 incentive award for Secretary [redacted] individual commendations for [redacted] Section Chief Baumgardner and Inspector Sizoo. For informant, personal note from the Director and \$1000 bonus.

The SOLO operation pertains to liaison activities of CG 5824-S* between Communist Party-USA and Communist Parties of Soviet Union, Red China, Cuba and Satellite nations. SOLO mission #8 covers informant's trip to Moscow from 9-22-60 to 12-17-60. Information obtained by him is considered unusually outstanding to Bureau and other Government agencies and has brought high praise from Secretary of State and Director of Central Intelligence Agency. This operation has provided extensive highly valuable intelligence information which has been expeditiously disseminated and serves to keep Bureau in forefront as the outstanding intelligence agency of the world.

Based on information submitted it is apparent that many unusual difficulties were overcome and exemplary performances of personnel involved warrant special recognition. SA [redacted] personally guided and directed informant in making all preparations for trip and debriefing him on return to United States. Supervisor Freyman supervised operation from field level and personally assisted in guiding and directing informant during preparation for and debriefing after trip. Stenographers [redacted] and [redacted] performed in sustained above-average manner in taking unusually complicated dictation from agents and directly from informant including duty at night and on weekends. Stenographers [redacted] and [redacted] provided excellent assistance in handling high volume of complicated material produced during operation. SA [redacted] was most effective as understudy for SA [redacted] who has been transferred to the Seat of Government and is now considered qualified to handle informant alone. SOG Supervisor Fox handled case assignment at Bureau until 12-9-60 and gave direction and guidance to field during preparation of informant for trip. After case reassigned, he supervised preparation and

Supervisor [] handled case assignment since 12-9-60 and on subject's return to the United States made major contributions to outstanding success of the operation through analyzing, digesting, evaluating and disseminating data to other Government agencies. Secretary [] handled all stenographic duties incidental to mission in a most capable manner and on several occasions worked many hours beyond regular work day in order to handle the volume of complicated dictation. Clerk [] assisted in preparation of index of all material obtained by informant in excellent manner which has contributed to success of entire operation. Section Chief Baumgardner had over-all responsibility for SOLO operations and performed with high degree of efficiency and made many suggestions and took action at appropriate times which insured success of informant's mission. Inspector Sizoo kept close check on operation and handled telephonic instructions with Chicago and New York Offices with high degree of efficiency which contributed to over-all success.

SUBJECT: CARL N. FREYMAN #13571
SPECIAL AGENT
RECOMMENDATION FOR REALLOCATION

Attached hereto is the annual performance rating on SA FREYMAN.

During the rating period Mr. FREYMAN has performed in an exceptional manner. As the Bureau knows, SA FREYMAN, because of unfortunate circumstances beyond his control, is temporarily unavailable for transfer. He is the sole support of his widowed mother, and the details concerning this situation have previously been furnished the Bureau. When this situation is alleviated, he will, of course, become immediately available.

Even though Mr. FREYMAN was demoted from Grade 14 to Grade 13 in June, 1957, because of this inability to accept a transfer, he has nevertheless continued to assiduously devote himself to the Bureau's work. He has an outstanding attitude as reflected by the fact that he performs a tremendous amount of overtime which is far above the office average. His overtime for the past year averaged 3'14" compared with the office average of 2'39".

By letter dated September 19, 1960, SA FREYMAN was commended by the Director for the splendid supervision which he afforded in the handling of a highly confidential source of information of great value to the Bureau in the security field. The Director advised that SA FREYMAN played an important role in the successful execution of a number of operations involving this confidential source through his extremely aggressive, imaginative and discreet direction of his activities.

By letter dated February 28, 1961, Mr. FREYMAN received an incentive award in the amount of \$250 in recognition of his exceptional supervision of the handling of an extremely confidential source of information of vital importance to the Bureau in the security field. The Director advised that he was aware of the highly complex nature of this operation and it was through Mr. FREYMAN's constant attention and planning that he was able to meet and overcome the many problems which arose.

This man is unquestionably one of the most dedicated and loyal employees whom I have ever met in my almost 20 years of service in the FBI. He at all times places the Bureau and the Bureau's responsibilities above any other consideration. I consider him without a doubt to be the best supervisor in the office outside of the ASAC.

Mr. FREYMAN is torn between two very strong loyalties, namely, an organization which he obviously has great devotion to, and a widowed mother whom he loves. On one hand, I know that he wants to be completely available as the Bureau desires; however, on the other hand, he feels a tremendous responsibility to his aged mother. I very frankly feel because of FREYMAN's knowledge of the Communist Party and the Communist movement in Chicago, that he can make the greatest possible contribution for the Bureau in the Chicago area rather than in any other locale.

In the light of all these circumstances, it is recommended that the Bureau give favorable consideration to reallocating him from Grade GS-13 to Grade GS-14.

W. C. Sullivan advised that he recently had an occasion to engage in a lengthy discussion with SA Carl Freyman of the Chicago Office. Sullivan was extremely impressed by Freyman's outstanding knowledge of the communist movement. Mr. Sullivan described Freyman as very enthusiastic and interested in the Bureau's work and he exhibited an intense dedication and loyalty to his work. According to Mr. Sullivan, Freyman's qualities stand out above the Agents in the field.

RECOMMENDATION:

That these observations be recorded in the file of SA Carl N. Freyman.

SA Freyman was rated Excellent on his 1961 annual performance report and in a separate communication SAC Gale recommended he be promoted to Grade GS-14 based on the exceptional manner in which he had been performing his supervisory duties in the Chicago Office.

A review of SA Freyman's file reflects he entered on duty as Agent 2-2-42, was approved as a Relief Supervisor in the Chicago Office on 5-28-53 and he has been serving as a full-time supervisor in that office since 11-1-54. He was promoted to Grade GS-14 on 1-1-56 in view of his responsibilities as Supervisor of Security Squad #2. On 5-17-57 he was ordered under transfer to the Seat of Government; however, SA Freyman requested this transfer be cancelled because of a personal problem involving his mother and recent expenses which had financially affected him. He was most appreciative of this transfer because he considered it advancement which he had looked forward to for many years; however, he had complete responsibility for his mother who lived in Iowa and he had been unable to persuade her to live with him. By letter dated 6-20-57 he was advised his transfer to the Seat of Government was being cancelled. However, in view of his unavailability for transfer it was also necessary to adjust his salary from Grade GS-14 to Grade GS-13, effective 6-30-57. In this connection Mr. Tolson noted, "I discussed this case with Mr. Hoover. He should be reduced from GS-14 to GS-13 due to unavailability - but he may be continued on supervisory duties."

Since June, 1957, the Bureau has continued to follow this matter concerning SA Freyman's availability and he has continually listed himself as unavailable for transfer. On his 1961 annual report the SAC advised this Agent continued to be the sole support of his mother and while available for special assignment, he continued to be unavailable for general assignment. In recommending SA Freyman's promotion to GS-14 the SAC stated even though he was demoted because of inability to accept a transfer he nevertheless continued to assiduously devote himself to the Bureau's work and he had an outstanding attitude. He was unquestionably one of the most dedicated and loyal employees of the Bureau and he was considered to be the best supervisor in the Chicago Office outside the ASAC. The SAC knew he wanted to be completely available as the Bureau desired; however, on the other hand, he felt a tremendous responsibility to his aged mother. possible contribution for the Bureau in the Chicago area rather than in any other locale.

Since June, 1957, SA Freyman has received no Censures. However, he has been Commended on 6 occasions, one of these being through the SAC, and has received 4 Cash Awards as follows: 9-12-58, 10-5-59, 12-18-59 and 2-28-61 in the amounts of \$500, \$300, \$500 and \$250, respectively, and all for his outstanding performance in the development and handling of confidential sources of information of great value to the Bureau in the security field. During the July, 1960, Chicago inspection Inspector [redacted] stated he was hard-working, had the respect of personnel on his squad, he was very demanding in seeing that the quality of work both investigative and administrative was high and he supervised some of the most important security work in the Bureau. He was rated an excellent field supervisor and was considered to have very good potential for advancement when completely available. He should be continued in his present assignment at this time. His weight is within desirable limits. His daily average overtime for the last 6 months has been in excess of the Division average each month and his over-all average for this period was approximately 3 hours 19 minutes per day.

By memorandum dated 4-17-61 Chief Inspector W. C. Sullivan advised that he recently had an occasion to engage in a lengthy discussion with SA Freyman, he was extremely impressed by Freyman's outstanding knowledge of the communist movement and described him as very enthusiastic and interested in the Bureau's work and he exhibited an intense dedication and loyalty to his work. According to Mr. Sullivan, Freyman's qualities stood out above the agents in the field.

RECOMMENDATION:

Although SA Freyman is apparently performing his duties in a very excellent manner, in view of his unavailability for general assignment in view of a personal problem, it is recommended he be passed over for Grade 14 promotion at this time to be reconsidered at such time as he advises he is completely available for general and special assignments.

SAC, Chicago, by letter 5-8-61, recommends \$250 incentive awards for Special Agents [redacted] and [redacted] and \$200 incentive awards for Special Agents [redacted] and [redacted]

b6
 b7C

Recommendations for commendation are suggested for seven additional Agents and an individual letter of commendation is suggested for Supervisor Carl N. Freyman.

Background

Chicago reactivated an anonymous source contact and developed another anonymous source contact in order to secure the 1961 Communist Party (CP) Illinois District registration forms and other data relating to the operations of the Illinois CP. Fourteen contacts were made with these two sources since November, 1960.

Obstacles Overcome

Contacts with one of the anonymous sources were made in an extremely congested, small business and neighborhood area which was close to an elevated stop, thus making approaches by unexpected individuals a definite possibility. Careful planning and ingenuity on the part of participating Agents resulted in successful contacts being made without incident or embarrassment to the Bureau.

Results Obtained

Information has been obtained from these sources which has not to date been secured from other sources. It has provided the Chicago Office with material to plan coverage of CP activities in the State of Illinois. For example, 352 forms were obtained, membership figures secured, and CP financial records, organization and planned activities were made available.

Participation of Personnel

Special Agent [redacted]

Assisted in the development of the anonymous source contacts and made the initial contact with one of the sources. Special Agent [redacted] was in contact with both sources and was an actual contact man in practically every contact.

Special Agent [redacted]

Assisted in the coordination and planning of the contacts with sources. Special Agent [redacted] contacted the reactivated source five times and the newly developed source nine times, including the initial contact.

Special Agent [redacted]

Has coordinated and analyzed material obtained from anonymous source contacts since May, 1959, including the material secured from the sources of this communication. In addition, Special Agent [redacted] participated in the main lookout for two contacts with the reactivated source and on eight occasions was inside the building to act as chief lookout for contacts with the new source. This Agent, since May, 1959, has also been an actual contact man with a source at Illinois CP headquarters.

Special Agent [redacted]

Special Agent [redacted] was responsible for intelligently developing a technique which provided the reactivation of one source. In addition to making contact with this source on five occasions, he also made seven contacts with the newly developed source.

Special Agent [redacted]

b6
b7C

Operated as an actual contact man and lookout man on all contacts (5) with the reactivated source and on two occasions with the newly developed source. Special Agent [redacted] made the initial contact with the new source which permitted further successful contacts.

Special Agent [redacted]

Special Agent [redacted] made actual contacts (14) with both sources on all occasions.

Special Agent [redacted]

Made actual contact with source on two occasions and on six occasions operated on physical surveillances where he performed in an outstanding manner.

RECOMMENDATIONS:

1. Domestic Intelligence Division recommends that Special Agents [redacted] and [redacted] each receive an incentive award in the amount of \$150; an award that has been granted for comparable services in the past. (SAC, Chicago, recommends first three Special Agents for \$250 awards and the last four Special Agents for \$200.

ADDENDUM OF ADMINISTRATIVE DIVISION RRB:cch May 19, 1961

Information furnished by SAC, Chicago, and Domestic Intelligence Division reflects that Chicago personnel performed in an exemplary manner under hazardous conditions and special recognition is warranted. Through the development of one anonymous source and the reactivation of another and numerous contacts with these sources, much valuable information was obtained concerning the 1961 Communist Party registration forms and related data. It is felt that seven Agents who participated in actual contacts with these sources are deserving of incentive awards. Summaries of their records follow. The performance of each of these Agents has been satisfactory during the last three years and they were rated "Excellent" on 1961 annual performance ratings. They are completely available and within desirable weight limits. There follow additional specific comments on each during this period.

SA [] EOD 7-11-55, GS-12, \$8955. Commended once through SAC and received one incentive award. Overtime performance above average three of last six months. SA [] EOD 6-4-51, GS-13, \$10,635. Commended once and twice through SAC and received one incentive award. Overtime above average four of last six months. SA [] EOD 8-20-51, GS-12, \$9475. Commended once through SAC and received two incentive awards. Overtime average above average three of the last six months. SA [] EOD as SA 7-11-49, GS-13, \$10,895. Commended once and once through SAC. Overtime above average two of last six months with substantial daily average approximately 2'29" compared to office average of 2'38". SA [] EOD 6-18-51, GS-13, \$10,635. Commended once and three times through SAC. Overtime above average two of last six months with daily average approximately 2'23" compared to office average of 2'38". SA [] EOD as SA 4-18-55, GS-12, \$8955. Commended once and twice through SAC. Overtime above average two of last six months with substantial daily average approximately 2'44" compared to office average of 2'39". SA [] EOD 10-11-54, GS-12, \$9215. Commended once and once through SAC. Overtime above average each of the last six months. b6 b7C

Based on approved tables for determining the amount of incentive awards, the performances of the above Agents are considered to be of moderate value and broad application to the work of the Bureau, entitling them to awards of from \$150 to \$300.

It is felt that Supervisor Carl N. Freyman is deserving of individual commendation for the outstanding manner in which he supervised the development and all contacts with the two anonymous sources. Other Agents who participated in surveillance activities and provided security during the contacts with the two anonymous sources should be commended through SAC.

RECOMMENDATIONS:

1. That SAs [redacted]

and [redacted]

each be approved for an incentive award of \$150 for their performance during development and contacts of these highly confidential sources. (amount recommended is in line with previous awards granted for similar performances).

Dear Sir:

For inclusion in the fund to be paid to the designated beneficiary of any Special Agent of the FBI who has previously contributed to this fund and who dies from any cause except self-destruction while employed as a Special Agent, I am forwarding herewith (by CHECK - MONEY ORDER) the sum of \$10, payable to the Assistant Director, Administrative Division, FBI, to be included in said fund. Payment will be made for death by self-destruction after the Agent has been a member of the fund for a continuous period of two years. It is understood and agreed that the sum tendered herewith is a voluntary, gratuitous contribution to said fund which I understand is to be administered in the following manner.

The Director of the FBI will appoint a committee which shall consider all matters pertaining to the acquisition, safe keeping and expending of said fund, which committee will recommend appropriate action to the Director in pertinent matters. The Assistant Director of the Administrative Division of the FBI shall receive all contributions and account for same to the Director. Upon the death of any Special Agent who is a member of said fund the appointed committee will consider the case and submit a recommendation to the Director as to its conclusions. Appropriate instructions will then be issued to the Assistant Director of the Administrative Division, directing him to pay to the designated beneficiary the sum of \$10,000. The liability of the fund shall not under any circumstances exceed the amount of monies in the fund at the time any liability shall occur. The following person is designated as my beneficiary for FBI Agents' Insurance Fund:

Attached article entitled "US gives students 'a fun time'" by Jay Greenberg, Editor of the "Chicago Maroon," appeared in the 11/30/61 issue of that publication. The "Chicago Maroon" is a student newspaper of the University of Chicago. Article states that Danny Rubin and Editor Greenberg were "tailed," they suspect, by the Federal Government--intimating the FBI. The article also claims that Rubin and Greenberg were followed onto the University campus; that their car was closely followed; that the surveilling car backed the wrong way through rush hour traffic; and that when one of the surveilling men was approached, he used profane language. Purported photographs of the pursuit car and the car carrying Rubin and Greenberg appear in this article. Rubin, National Youth Director of the Communist Party (CP), USA, was in Chicago to address the University of Chicago Students for Civil Liberties. SAC, Chicago, recommends letters of censure for two of the surveilling Agents and letters of censure for two Supervisors.

Background

Rubin is on a Midwest tour of college campuses and before arriving in Chicago he spoke on a number of campuses, including the University of Pittsburgh, Oberlin, Antioch, Ohio University and Ohio State University. While in Chicago for nine days and residing with Daniel Queen, Illinois CP leader, Rubin, in addition to speaking to a group of students at the University of Chicago on 11/28/61, was observed to visit Roosevelt University campus, visiting Illinois CP headquarters and meeting with youth group representatives in the Chicago area. A surveillance of Rubin was instituted by the Chicago Office to determine Rubin's activities and contacts while in Chicago and to ascertain his itinerary when leaving the city.

ENCLOSURE

While Rubin was under surveillance on 11/29/61 by two Bureau cars, Special Agents [] and [] were requested to observe the young people who were in contact with Rubin so that these unknown individuals could be identified. Special Agents [] and [] are familiar with CP youth activities in the

Chicago area. When [] and [] were unable to identify Rubin's contacts, they left the scene of the surveillance. On their way back to the office, they heard over the car radio that the surveilling team was having difficulty following Rubin. They returned to the scene to assist the surveilling Agents. [] and [] returned a second time after leaving the scene because the two surveilling cars were again encountering difficulty. [] and [] then spotted the car carrying Rubin and Greenberg (Greenberg had not been identified at this time) as it turned into a one-way alley. The Agents followed the car up the alley at a discreet distance because information was available that Rubin was contemplating leaving the city to speak on other college campuses and efforts were being made to ascertain his destination. After passing a sharp turn in the alley, the car carrying Rubin and Greenberg came to a stop. As the Bureau car made this turn in the alley, it too had to stop to avoid hitting subject car. Greenberg then approached the Bureau car. A conversation ensued between Special Agent [] and Greenberg at which time [] did not identify himself nor admit following the car.* The surveillance by [] and [] was dropped at this time and they reported the incident to Supervisors Carl N. Freyman and [].

b6
b7C

*The use of profanity during this conversation was denied by the Agents.

Observations:

It is apparent that Greenberg took literary license in his article. The Bureau cars cannot be identified through their license plates and the Agents did not identify themselves. Although Greenberg's article did not identify the FBI in this operation, the inference is there. Surveilling Agents deny that part of Greenberg's article where he says Rubin and Greenberg were followed onto the University campus; that their car was closely followed; that the surveilling car backed the wrong way through rush hour traffic; and that profane language was used. We have no reason to doubt our Agents on these points.

Recommendations of SAC, Chicago

(1) SAC, Chicago, recommends letters of censure for Special Agents [] and [] because they had not been sufficiently discreet in their surveillance. Lack of discretion, according to SAC, permitted the Agents to be confronted by Greenberg which caused this potentially embarrassing situation. SAC recognizes, however, that Special Agent Strain handled the contact with Greenberg in a creditable manner. The SAC says that it is entirely possible that the car appearing in the photograph was that occupied by Special Agents [] and [].

**MORTIMER DANIEL RUBIN
IS - C**

In accordance with the request of the Bureau, the following is my explanation as to why the Bureau was not advised of the occurrences on the DANIEL RUBIN surveillance on November 29, 1961.

b6
b7C

At approximately 6:15 PM on November 29, 1961, SA [] advised Field Supervisor [] and myself that during the RUBIN surveillance on the afternoon of November 29, 1961, he and SA [] were riding in a Bureau car and had observed the Volvo automobile in which RUBIN was a rider at some distance enter what was later determined to be a one-way alleyway in the vicinity of 48th and Prairie Avenue, Chicago, which is an all-Negro neighborhood.

He advised that they had been following this automobile at some distance, never closer than 400 feet, and felt certain on entering the alleyway that if the Volvo was proceeding without stopping it was about to clear the alley. Accordingly, they entered the alley only to find that the Volvo had stopped therein. At approximately the same time he advised that a stranger in another car had also entered this one-way alley so that the Bureau car was sandwiched between the Volvo and the unidentified male's car. This made it impossible for the Bureau car to exit swiftly from the alley.

He advised that an individual who later identified himself as JAY GREENBERG had approached the Bureau car and had asked both he and SA [] who they were and what they were doing. He stated that neither he nor SA [] had identified themselves by true name or as agents of the FBI and upon further inquiry by GREENBERG, SA [] identified himself only as BOY WHITE. GREENBERG then returned to the Volvo which in turn immediately departed the alley and SAs [] and [] immediately discontinued the surveillance.

In explanation of my failure to advise the Bureau of the above, I felt that the agents had concealed their identity and the ownership of the car in such a manner that there would be no potential embarrassment. At this time there was no indication that JAY GREENBERG, who was in the car with RUBIN, was the editor of the "Chicago Maroon." It was further felt the fact that the agents were confronted in a one way alley sandwiched between two cars and unable to escape was an incident over which they had no control and at that point I could see no potential embarrassment resulting.

It was only on November 30, 1961, when advised that JAY GREENBERG of the "Chicago Maroon" had written this article, that I realized the seriousness of this incident and advised the SAC.

Mr. Carl N. Freyman
Federal Bureau of Investigation
Chicago, Illinois

Dear Mr. Freyman:

You were recently advised of certain information by an Agent in the Chicago Office relative to an incident which occurred during an investigation of Mortimer Daniel Rubin, subject of an Internal Security case. It should have been obvious to you that this matter required the immediate attention of your Special Agent in Charge and your failure to apprise him of this is a serious reflection upon you.

Accordingly, you will be expected to be more alert to your supervisory responsibilities in the future so that there will be no occasion to again criticize you for a similar instance of poor judgment.

Very truly yours,

J. Edgar Hoover

Rebulet 12/6/61. -94-1-5038-329

Attached hereto are the explanations of SA [REDACTED]
[REDACTED] to whom this case was assigned, and Supervisor
CARL N. FREYMAN.

CARL N. Freyman

It appears from a discussion with both SA [REDACTED]
and Supervisor FREYMAN and from a review of the memoranda of explana-
tion submitted that neither the Supervisor nor the agent in-
tended in any way to circumvent or avoid Bureau instructions
and the delay in reporting this matter was due to the numerous
items that had to be done during the particular time, thereby
causing the delay of this letter.

It further appears that delay of reporting the matter
was not entirely the fault of SA [REDACTED] inasmuch as he was
acting under instructions from his Supervisor in connection
with necessary and expeditious assignments that had to be
handled. Supervisor FREYMAN indicates he had an awareness
of this particular situation but felt that in the order of
importance the other matters of an expeditious nature and the
firsurs of an important nature had to take precedent.

I have gone over this matter in detail with both
Supervisor FREYMAN and SA [REDACTED] and reiterated quite strongly
that it is necessary to carry out the instructions of the Bureau
at all times regardless of the situations that may arise and
that in the future if such a situation arises it is encumbent
upon them to be certain that the Bureau is advised that there
will be a delay in a specific investigation when it is completely
necessary and justified. REC-7

ORIGINAL FILED IN 94-1-5038-331

An attorney in Chicago furnished us with what appeared to be a high school paper containing two articles which did not appear to have been written by students. We acknowledged receipt of this letter and enclosure on October 16, 1961, and by copies of that letter, instructed Chicago Office to identify the two students to determine if there were any communist elements behind the preparation of their articles. Chicago was advised that if it appeared desirable to interview the attorney, the Bureau had no objections. Chicago was instructed to handle the matter promptly and advise the Bureau. In the absence of a reply, a follow-up letter was sent to Chicago on November 20, 1961, and on December 6, 1961, when no reply had yet been received, another follow-up letter was sent to Chicago with instructions to submit explanations and recommendations for administrative action.

Chicago letter dated December 6, 1961, reported the results of its inquiries into this matter. It is noted this letter was dated the same date as Bulet requesting explanations.

Chicago letter dated December 14, 1961, furnished the explanations as requested. The explanation of the Agent indicates that on October 20, 1961, the date this matter was assigned to him, he attempted to contact the attorney; however, it was not until November 6, 1961, that an appointment could be made. The attorney was to obtain additional information and a number of subsequent contacts were made between the attorney and the Chicago Office before the attorney was available for reinterview on November 13, 1961. The Chicago Office conducted other inquiries concerning this matter and the Agent to whom it was assigned was also busy in the preparation of prosecutive reports on communist front organizations which had Bureau deadlines and engaged in surveillance work.

In submitting the explanations of the Agent and supervisor responsible, the SAC has recommended no administrative action in view of the Agent's handling other matters of an expeditious nature.

RECOMMENDATION:

The Domestic Intelligence Division concurs in the recommendation of the SAC, Chicago. It is noted that the attorney was promptly contacted and the delay which did occur was in the submission of the information to the Bureau. No embarrassment to the Bureau resulted and as explained by Chicago the Agent handling this matter was also handling matters on which a specific Bureau deadline has been set and was also engaged in surveillance work.

**INFORMATION CONCERNING
(INTERNAL SECURITY)**

I am the responsible supervisor on the captioned case. I have examined the explanation of SA [REDACTED] and the statements made therein are true.

I might add the S-2 squad of 20 men was responsible during the month of November, 1961, for a large amount of fisurs on Communist Party functionaries and for the preparation of five prosecutive reports on Communist front organizations. I was engaged in the main with attempts to get these reports out and with guiding my Agents, including SA [REDACTED] in preparing these reports. Much of my time was devoted to the reading of these reports to the extent that my overtime in November, 1961, was in excess of five hours.

I feel that this agent expeditiously handled the contact with the complainant and was not derelict in any respect in this regard. During the period in question, that is subsequent to receipt of the Bureau letter, the entire squad was directed by me to concentrate on meeting the Bureau deadline on the five prosecutive organizational reports. It was necessary to use SA [REDACTED] due to the sickness of another Agent who had primary responsibility for a report, and it was also necessary in my view at that time to place the prosecutive reports as top priority on the squad.

[REDACTED] This matter has been thoroughly discussed with SA [REDACTED] and with other members of the squad and hereafter every effort will be made to comply with Bureau instructions.

In accordance with the request of the Bureau for explanations for my delay in complying with Bureau instructions contained in its letter of November 20, 1961, to submit the results of a contact with [redacted] attorney at law, [redacted] Chicago, at once, the following explanation is submitted:

CG 100-39116

On the week end of November 11, 1961, [redacted] telephonically contacted the Chicago Office, leaving a message for me to the effect that he had the desired information and he could be contacted November 13, 1961. He was contacted on November 13, 1961, and furnished the information contained in Chicago letter of December 6, 1961, bearing the same caption as this memorandum. Again he was most cordial and appreciative of the contact by the Chicago Office.

b6
b7c

Indices search slips on the captioned students and their parents following receipt of the information from [redacted] November 13, 1961, revealed a number of references which were necessary to review.

Also, following receipt of the information of November 13, 1961, it was necessary to submit requests for credit and criminal checks, both of which were received in due course. Informant requests for contacts concerning the parents of these individuals were also submitted after November 13, 1961, and completed during the latter part of November, 1961.

ReBulet of November 20, 1961, was received in the Chicago Office on November 22, 1961, and was not received by me until November 24, 1961, inasmuch as November 23, 1961, was Thanksgiving Day.

I should like to point out that during the month of November, 1961, I assisted in the preparation of three prosecutive reports on Communist front organizations which had Bureau deadlines without fail of December 4, 1961. In the case of one of these reports which I had assisted in its preparation, the agent primarily responsible was on sick leave for an entire work week and I assumed the primary responsibility for getting this report prepared. During the month of November, 1961, I spent three work days surveilling national Communist Party (CP) functionaries and on two non-work days, one of which was Thanksgiving, I was also surveilling these CP functionaries.

After the Thanksgiving holiday and because the first three-quarters of the month were given to project and fiscal work, I spent four days from November 27 through November 30, 1961, covering leads on cases which would be delinquent at the end of the month. Also from the period of November 27 through December 7, 1961, I had three reports leave this office, one of which was an original summary report.

CG 100-89116

On two of the three work days in December I was engaged in investigation and fisura on my own work. The reply letter was dictated and left Chicago on December 6, 1961.

I submit the above in explanation of the reasons for delay in reporting to the Bureau of my contacts with [redacted] which were made on November 6 and November 13, 1961, which were the first dates she was available for contact following receipt of the Bureau request. I should like to respectfully pointed out that the delay in advising the Bureau of the results of the investigation can be attributable to some degree to my efforts to assist in meeting deadlines without fail on three other important security investigations. I regret my failure to promptly comply with the Bureau's request of November 20, 1961, but I feel that insofar as contact with the complainant is concerned that it was done promptly, and inasmuch as there was no substantive information indicating the need for intensive investigation I felt it advisable to concentrate on other cases assigned to me which I deemed to be of a more expeditious nature. I might also add that during the month of November, 1961, I exceeded the office average overtime and averaged approximately three hours and five minutes a day voluntary overtime.

Dear Mr. Freyman:

On the occasion of your Twentieth Anniversary with the FBI today, it gives me special pleasure to extend my sincere congratulations and to present to you, in commemoration of this event, the Bureau's Twenty-Year Service Award Key.

In reviewing the work of the Bureau during your period of service, one of the most encouraging factors which come to my mind is the enthusiastic and unselfish dedication to our ideals which has been so typical of our associates. This has been especially true in the case of the group of loyal and experienced veterans of which you are an important member. Your loyalty, perseverance and diligent work performance have played an important role in aiding the Bureau to hold its present position of pre-eminence in the field of law enforcement.

Please accept this Key as a token of our deep gratitude for your fine services. It is my hope that we may have the benefit of your experience and talents for many years to come and that I may have the pleasure of presenting awards to you on the occasions of your future anniversaries in the Bureau.

With best wishes and kind regards,

Sincerely,

J. Edgar Hoover

Dear Mr. Freyman:

In special recognition of your outstanding supervision of the handling of a highly confidential source of considerable value to the Bureau in the security field, I am pleased to advise that I have approved an incentive award for you in the amount of \$250.00. There is enclosed a check for \$205.00, which represents this award less withholding tax.

I am aware that all problems encountered in this extremely delicate operation required constant attention and planning and that if it had not been for your exceptional guidance the source's activities would not have been nearly as productive. You should be very proud of the significant role you played in the acquisition of information of vital importance to the welfare of our country. It is indeed a pleasure to commend you for your superior performance.

Sincerely yours,

J. Edgar Hoover

This memorandum is to recommend incentive awards in connection with sustained above average performance and the overcoming of unusual difficulties in the continued operation of CG 5824-S* from January, 1961, to January, 1962, which culminated in Solo Mission 10.

SYNOPSIS:*Carl W. Freyman*

The year 1961 was considered a "crisis" year in the over-all operation of this informant inasmuch as it marked the end of an era of leadership of the Communist Party, USA (CPUSA), by virtue of the deaths of its Chairman Emeritus William Z. Foster and its National Chairman Eugene Dennis. That year also marked the completion of the consolidation of leadership of the CPUSA by Gus Hall, present General Secretary, CPUSA, but of most importance for the Bureau, it marked the successful accomplishment by CG 5824-S*, guided appropriately, of the continuance of the Solo operation and the maintenance of CG 5824-S* as the key confidant of Hall in the operation of the CPUSA. Outstanding efforts in overcoming these unusual difficulties have prevented the Solo operation from falling into unfriendly hands during the past year and informant has reached the point of being what might be termed the chief advisor to Hall. The informant has been able to retain his position of trust with the Soviets. During the past year informant has furnished outstanding security information, based on his close association with Hall and other top CPUSA officials, concerning the CPUSA on a national and international basis. Based on his support by and recognition by the Communist Party of the Soviet Union (CPSU) leadership, he has furnished most valuable information concerning the international scene and has placed himself in the middle of a transmission belt of communications with communist leadership and parties of the world.

Informant, as a fraternal delegate of the CPUSA, attended the 22nd Congress of the CPSU, Moscow, Russia, in October, 1961. He was on this Solo Mission from 10/2/61 to 12/5/61. Based on his contacts with high-level communist officials behind the Iron Curtain, including those in the Kremlin, he was able to furnish the Bureau much very valuable intelligence information, including:

Information supplied by this informant has materially assisted Bureau to maintain a tremendous amount of prestige. These continued Solo Missions keep the Bureau at the pinnacle in the intelligence field in the eyes of the President, top-level Government officials, and intelligence agencies. This Solo Mission was the tenth occasion we have been able to penetrate the international "Communist Curtain" to its highest level. This Solo Mission has provided the United States Government with valuable detailed intelligence information and our ability to expeditiously disseminate information of this type to high-level Government officials keeps the Bureau in the forefront as the outstanding intelligence agency in the world.

The SAC, Chicago, by letter dated 1/31/62, recommends: incentive awards of \$500 each for Special Agents Carl N. Freyman (field supervisor) and [redacted] (Agent handling informant) for sustained above-average performance and for performance which has involved the overcoming of unusual difficulties in the continued operation of informant from 1/61 to 1/62, which culminated in Solo Mission 10; incentive award of \$150 for stenographer [redacted] for sustained above average performance. Individual letter of commendation recommended for stenographer [redacted] for outstanding stenographic work performed in relief of [redacted]. In addition, he recommended an award of \$1,000 for CG 5824-S* for his extraordinary services and accomplishments in connection with Solo Mission 10, along with a letter of appreciation from the Director to the informant. This letter is to be delivered to the informant by the SAC, Chicago, for perusal and then returned to the Chicago Office and retained in the safe. He also recommended that consideration be given for inclusion of NY 694-S* in the over-all incentive awards due to the unit operation of NY 694-S* with CG 5824-S*. (We do not agree with this last recommendation.)

OBSERVATIONS:

The valuable position which this informant has been able to maintain and the extremely valuable information which he has developed, including Solo Mission 10, is in large measure attributable to excellent and careful planning, both in the field and at the Seat of Government. This planning has overcome the tremendous obstacle and unusual difficulties encountered by the death of Eugene Dennis when Gus Hall assumed control of the Party. It will be recalled that there was agitation between Hall and Dennis and informant had obtained his present position from Dennis.

The FBI has produced intelligence data most important to our Government, especially in view of the present international situation.

Information furnished by this source could not have been obtained through other means available to us and to the United States Government and its value is inestimable. This information has not been obtained to this extent by any other intelligence agency and represents a most outstanding achievement by the FBI.

All information developed from Solo Mission 10 has been disseminated expeditiously to high officials of the Government and to appropriate Government intelligence agencies. b7E

The training of CG 5824-S* in the use of [] and the setting up of other means of communication between CPUSA and CPSU around apparatus controlled by this informant makes it obvious that the Soviets have set up a highly secret and clandestine transmission belt which the FBI actually controls.

RECOMMENDATIONS:

(1) That Special Agents Carl N. Freyman and [] be afforded recognition in the form of incentive awards in the amount of \$250 instead of \$500 as recommended by SAC, Chicago.

(2) That stenographer [] be afforded an incentive award in the amount of \$125 instead of \$150 as recommended by SAC, Chicago.

(3) That a personal letter of commendation be afforded stenographer [].

Memorandum to Mr. Sullivan .

(4) That a personal letter of appreciation and an award of \$1,000 be afforded CG 5824-S*. This letter is to be delivered to informant by the SAC, Chicago, for perusal and then returned to the Chicago Office and retained in the safe. ✓

(5) That NY 694-S* not receive an incentive award at this time. He received an award as the result of Solo Missions 4 and 9 which he made. ✓

ACTION:

(1) Attached is an appropriate communication to the SAC, Chicago, which encloses a personal letter of appreciation from the Director to CG 5824-S*. Appropriate instructions are included regarding the manner in which this communication should be made available to the informant. Instructions are also included to afford the informant a cash award of \$1,000.

DOMESTIC INTELLIGENCE DIVISION

Seat of Government Personnel

Special Agent [redacted] a Supervisor in the Communist Party, USA (CPUSA), Unit, to whom this case is assigned, closely supervised the innumerable details of this case on a day-to-day basis and exercised outstanding judgment to insure that proper action was taken at each stage. This Agent was responsible for analyzing, digesting, evaluating, synopsisizing and disseminating pertinent data obtained to high-level officials of the Government and the preparation of memoranda containing high lights of the information obtained for the attention of the Director. To insure prompt handling of this information, Special Agent [redacted] worked many hours of voluntary overtime, including weekends, without regard for his personal convenience. His excellent judgment in handling the 10th Solo Mission both at the Seat of Government and in his instructions to the field in no small way assured the complete success of this operation. In view of his meritorious contribution to the success of Solo Mission 10, it is recommended that he be granted an incentive award in the amount of \$250.

b6
b7C

In Accordance with 2-14-62 JFH

[redacted] who serves in the capacity of Secretary to the CPUSA Unit, has contributed outstanding services to the success of Solo Mission 10. She handled almost 100 per cent of the stenographic operations at the Seat of Government in connection with this Mission in a highly capable manner. She was specifically chosen for this assignment due to her ability to work under considerable pressure, as well as her outstanding attitude, initiative and competence. The major portion of her dictation was information for high-level dissemination and her work was performed in faultless fashion. She worked hours beyond her regular work day and much of this difficult dictation and transcription occurred on weekends and during the Christmas holiday season. Her accuracy and outstanding devotion to duty resulted in a most efficient performance and saved extremely valuable time. Her work in this regard is especially noteworthy in view of the difficult names and terminology used in the material. In view of her exceptional contribution, it is recommended that her services be recognized and that she be granted an incentive award in the amount of \$125.

DETAILS:

The SAC, Chicago, by letter 1/31/62 recommends: incentive awards of \$500 each for Special Agents Carl N. Freyman (field supervisor) and [redacted] (Agent handling informant) for sustained above average performance and for performance which has involved the overcoming of unusual difficulties in the continued operation of informant from 1/61 to 1/62, which culminated in Solo Mission 10; incentive award of \$150 for stenographer [redacted] for sustained above average performance. Individual letter of commendation recommended for stenographer [redacted] for outstanding stenographic work performed in relief of [redacted]. In addition, he recommended an award of \$1,000 for CG 5824-S* for his extraordinary services and accomplishments in connection with Solo Mission 10, along with a letter of appreciation from the Director to the informant. This letter is to be delivered to the informant by the SAC, Chicago, for perusal and then returned to the Chicago Office and retained in the safe. He also recommended that consideration be given for inclusion of NY 694-S* in the over-all incentive awards due to the unit operation of NY 694-S* with CG 5824-S*. (We do not agree with this last recommendation.)

The Solo operation pertains to liaison activities between the CPUSA and the communist parties of the Soviet Union, Red China and other Iron Curtain countries.

The year 1961 was considered a "crisis" year in the over-all operation of this informant inasmuch as it marked the end of an era of leadership of the CPUSA by virtue of the deaths of its Chairman Emeritus William Z. Foster and its National Chairman Eugene Dennis. That year also marked the completion of the consolidation of leadership of the CPUSA by Gus Hall, present General Secretary, CPUSA, but of most importance for the Bureau, it marked the successful accomplishment by CG 5824-S*, guided appropriately, of the continuance of the Solo operation and the maintenance of CG 5824-S* as the key confidant of Hall in the operation of the CPUSA. It will be recalled that informant obtained his present position from Eugene Dennis during Dennis' leadership and that Dennis and Hall were not friendly. It was necessary to surmount this obstacle and to make Hall dependent upon informant. Through outstanding efforts, these unusual difficulties were overcome and have prevented the Solo operation from falling into unfriendly hands during the past year. Informant's position and power has reached the point where he might be termed the chief advisor to Hall.

Informant has been able to retain his position of trust with the Soviets and through his influence over Hall and Elizabeth Gurley Flynn, present CPUSA National Chairman, he has been able to place the apparatus built around him as the one with which the Soviets deal in confidential matters, including funds for the CPUSA.

During the past year informant has furnished outstanding intelligence information, based on his close association with Hall and other top CPUSA officials, concerning the CPUSA on a national and international basis. b7E

Informant, as a fraternal delegate of the CPUSA, attended the 22nd Congress of the CPSU in Moscow in October, 1961.

The above examples indicate the extraordinary value of the information developed by our informant during the past year and particularly during Solo Mission 10. It is impossible to put a money value on the information received as this type of information is not available through any other source. This information, which has been disseminated on a high level, certainly will enhance the Bureau's reputation as the world's leading intelligence agency and has materially assisted the Bureau to maintain tremendous prestige. These continued

Memorandum to Mr. Sullivan
RE: SOLO
100-428091

Solo Missions keep the Bureau at the pinnacle in the intelligence field in the eyes of the President, top-level Government officials and intelligence agencies. This Mission marks the tenth time we have been able to penetrate the international "Communist Curtain" to its highest level.

Several letters of appreciation for this information have been received from the Director of Central Intelligence Agency and one such letter from the Director of the United States Information Agency.

Role of Special Agent []

b6
b7C

Special Agent [] without regard for personal convenience and by continued sustained outstanding performance, guidance, encouragement and ingenious preparation of informant on a day-to-day basis, as the contacting Agent has contributed immensely to the very valuable information obtained from this informant. During the past year, Agent [] has had the continuing problem of attempting to work with and keep an extremely sick informant motivated by patriotism alone to risk his life and health on a daily basis in efforts to provide the Bureau and ultimately the President and other top-level Government officials with the highest of intelligence information. This has involved much time and sacrifice on the part of Agent [].

This Agent had the problem of appropriately guiding informant during the transition period of Party leadership so that informant would retain control of the Solo operation when Gus Hall became General Secretary.

Unusual problems developed shortly prior to the time informant departed on Solo Mission 10. One week prior to departure on this Mission, a serious operation was performed on informant at the base of his spine. This was still draining at the time informant departed on this Mission and his doctor reluctantly agreed to allow informant to travel. The serious illness of informant's father, aged 87, and the imminence of his death was another factor. Despite the above, Agent [] succeeded in persuading informant to depart on Solo Mission 10. It is noted that while informant was on this Mission, his father died; and, the operation continued to drain the entire duration of the Mission, causing much pain.

Prior to this trip, Agent [] carefully prepared the informant with the use of passports, props, et cetera, in order to make the trip look legitimate.

The above problems were surmounted through initiative, ingenuity, perseverance and above average guidance provided by Agent [redacted].

At the completion of this Mission, this Agent had the responsibility of interviewing informant to obtain voluminous valuable information expeditiously. It required seven days a week performance. Agent spent considerable time at home marshaling his facts, for which no overtime was claimed.

Role of Special Agent Freyman

CG 5824-S* was originally developed by Agent Freyman. Since he became a field supervisor, he has continued to supervise the over-all operation of this informant and the Solo operation. He has continued with contacts of the informant with Special Agent [redacted] and on a daily basis he has conferred and collaborated with Agent [redacted] in connection with the innumerable problems which arose in connection with the handling and guiding of the informant and his activities during the past year and those which arose just prior to informant's departure on Solo Mission 10.

During the pertinent period many problems arose, including appropriately guiding informant during the period of transition of Party leadership from Dennis to Hall, which depended on the right policy-making decisions at the supervisory level. This particular problem was surmounted through proper decisions, the close personal relationship which exists between informant and Agent Freyman, and the continuity of the operation of informant maintained by Agent Freyman.

SAC, Chicago, states he has talked to informant with Agent Freyman on several occasions and is impressed with the tremendous confidence which informant has in Freyman. The SAC feels that if it were not for the guidance which Freyman gives, the informant's activities would not be nearly as productive or effective.

SA Freyman has devoted a great deal of his personal time, both at night and on weekends, to handling this informant during the past year and at the termination of Solo Mission 10. Informant returned from Solo Mission 10 with voluminous valuable information. In addition to his supervisory duties, Freyman assisted in interviewing informant.

CG 5824-S*. She has done an outstanding job in that her work is extremely accurate and she has taken a personal interest in doing a most conscientious job with difficult dictation, including names and terminology. She works under considerable pressure, acts on general direction and has set up various administrative devices designed to assist her and save Agent time in connection with stenographic assignments in the Solo operation. During December, 1961, and January, 1962, she worked after office hours on expedite Solo material resulting from Solo Mission 10 and voluntarily waived one day of compensatory leave. She has taken informant's dictation by telephone and personally. She has informant's full faith. Valuable time was saved due to the accuracy, diligence, outstanding performance and self-sacrificing attitude of Miss Wilcke.

Role of [REDACTED]

[REDACTED] shares the assignment of taking dictation from informant by acting as the relief for [REDACTED] and handling overflow materials from the Solo operation. She has exerted an extraordinary above average effort on the Solo work. Her accuracy and initiative have saved considerable time in this regard.

RECOMMENDATION FOR INCENTIVE AWARD

Recommendation for incentive award for SA []
[] is based upon the continued sustained outstanding performance of this agent including the overcoming of unusual difficulties in the handling of the operations of CG 5824-S* on a day-to-day basis between January, 1961, and January, 1962. This period was culminated by a Solo mission to the USSR and the 22nd Congress of the Communist Party of the Soviet Union (CPSU) from October 2, 1961, to December 6, 1961.

b6
b7C

As a result of the continued outstanding performance of this agent in guiding CG 5824-S* through another year of operations, additional outstanding results were obtained by the Bureau in the international Communist intelligence field and in coverage of the Communist Party, USA (CPUSA), at its highest level.

The year 1961 was considered a "crisis" year in the over-all operation of this informant which has now encompassed a span of almost ten years. It was a crisis year because it marked the end of an era of leadership of the CPUSA by virtue of the deaths of its former Chairman WILLIAM Z. FOSTER, and its General Secretary EUGENE DENNIS.

1961 also marked the completion of the consolidation of leadership of the CPUSA by GUS HALL, but more importantly for the Bureau, it marked the successful accomplishment by CG 5824-S*, guided by SA [] of the continuance of the Solo operation and the maintenance of CG 5824-S* as the key confidant of HALL in the operation of the CPUSA. In this connection it must be recognized that such a transition of the leadership of the CPUSA with a resultant successful retention and even a strengthening of position for CG 5824-S* could only have been brought about by painstaking foresight and planning by the combined efforts of CG 5824-S* and the contacting agent. Without these outstanding efforts the Solo operation may have fallen into unfriendly hands during the past year.

b6
b7C

It is felt that this accomplishment alone supports this recommendation for incentive award. However, outstanding accomplishments during the year 1961 extended far beyond

this item and included the obtaining of outstanding intelligence information contained in excess of 20 volumes of reports concerning every facet of CP activities, local, national, international and world-wide, since this informant has placed himself in the middle of a transmission belt of communications with Communist leadership and Parties of the world. Specifics regarding these results will be further detailed in this memorandum.

In these accomplishments many difficulties have been overcome by the informant and the contacting agent in addition to the above enumerated difficulty of overcoming a change of leadership. These, too, are enumerated under appropriate caption.

The results of this continuous operation of the Bureau's outstanding informant have continued to give extraordinary benefits to the Bureau and the country rendering the best and highest level of intelligence information that the Bureau has to the knowledge of this office. As indicated, this high level intelligence information was conveyed to the Bureau on a daily basis in something over 20 volumes of reports during the past year so that it could be made available to the President, the Secretary of State, the Central Intelligence Agency and the military agencies at the earliest possible time.

The maintenance of the Solo operation during the past year has additionally resulted in inestimable savings of Bureau agents' time and work, including physical surveillances and investigations, since information was furnished by this informant which is obtainable through no other informants and could not have been accomplished through the utilization of any amount of manpower.

b6
b7C

SA [] has outstandingly performed in the handling of CG 5824-S* and the Solo operation, although it required major sacrifices to his family and himself due to the demands of this assignment for seven day per week and night duty, for travel, etc. This agent, when CG 5824-S* was in Chicago, never failed to be in contact with the informant at least once a day on a seven day a week basis, following which he immediately prepared dictation in appropriate form. This

agent, in addition, has had the tremendous task of taking all of this informant's information orally either through personal interview or telephonic contact because security requires contacts to be at a minimum in number and for the shortest possible time. He must thereafter place this information in proper form and then reduce it to writing.

His average overtime during the past 12 months has exceeded the average overtime of this office by ten minutes, and in December, 1961, upon the completion of the Solo mission, this agent voluntarily gave the Bureau four hours and 57 minutes per day in overtime. In addition, much of the information furnished by this informant, particularly on week ends and late at night, was obtained when no overtime could be credited. Upon receipt of said information, this agent frequently worked late at night at home marshalling his notes in order that materials could be expeditiously handled on the following day. It is believed that the quality of his work including the details which he obtains have been outstanding and warrant substantial incentive award.

Operation of CG 5824-S* During Pertinent Period

A. Communist Party, USA

1961, as the Bureau is aware, has been a year of crisis in the CPUSA. It has been plagued with factional fights in leadership, the Supreme Court decisions requiring it to register, the deaths of DENNIS and FOSTER, and the efforts by HALL to consolidate himself in leadership.

All of these problems have resulted in a need on the part of CG 5824-S* and SA [] to be alert to maintain CG 5824-S*' position. It will be recalled that CG 5824-S* obtained his present position from EUGENE DENNIS during DENNIS' leadership and that DENNIS and HALL were not friendly during 1961. This required CG 5824-S* to walk a tight rope on many occasions while DENNIS was still alive and after DENNIS' death to devise ways and means to make HALL dependent on him so that CG 5824-S*' position and power could be retained.

b6
b7c

It is believed that the results of the activities during the past year demonstrate the success of CG 5824-S* and SA [] in preserving these positions and that as of January, 1962, the position and power of CG 5824-S* has been in fact strengthened.

This was accomplished by the informant and the agent through carefully thought out plans which included these two main points:

1. That CG 5824-S* must maintain the support and recognition of the CPSU leadership as the individual whom the Russians could and would exclusively deal with on confidential matters between the CPSU and the CPUSA because they could trust him and they knew him. Certain difficulties had to be overcome to accomplish this. These difficulties were that [] who has been vying for CG 5824-S*' power for at least two years, and [], who still operates with considerable authority by virtue of his present position in the Party and his former position as National Organization Secretary, and because both are Negroes, were delegates senior to CG 5824-S* at the 22nd Congress. The same was true with regard to [] as it pertains to the Congress although FLYNN over a period of years has been developed and cuddled by CG 5824-S* and is considered a close friend by CG 5824-S*. By clever planning and despite the fact that [] and [] are Negroes, CG 5824-S*, prior to the departure for the USSR in October, 1961, was able to obtain a letter from HALL to the effect that only CG 5824-S* was to deal with representatives and officials of the CPSU on confidential matters. Through the cultivation of [] to the point where the informant controls her thinking, she, [] endorsed this letter as the National Chairman of the CP and thusly CG 5824-S* accomplished the retention of his international power by this means.

b6
b7C

2. That CG 5824-S* must make HALL dependent on him for power. It was decided that this could only be accomplished through the maintenance of item number one, and secondly by controlling the reserve funds of the CPUSA and the apparatus around it. This was also accomplished and HALL today is more dependent on CG 5824-S* and confides more in him than he has ever done in the past. His confidence is further shown in CG 5824-S* by the fact that the informant continues as Chairman of the National Review, Appeals, and Audit Commission which is considered the most powerful job in the Party.

Specifically, SA [] has guided CG 5824-S* in all his operations and he has held top positions during the past year and today performs the same functions although many of the official titles to the positions which he held have been abolished by the Party in name subsequent to the Supreme Court decision.

✓ As of the date of the writing of this letter, that is, January 29, 1962, the proof of the importance of CG 5824-S* has again been demonstrated. GUS HALL secretly arranged with CG 5824-S* to arrive in Chicago on the evening of January 8, 1962, and to be secreted by CG 5824-S* so that he could meet [] secretly and other individuals. Only CG 5824-S* of all the informants in the Bureau will be in a position to sit in on these high level meetings in Chicago being conducted secretly during the period of HALL's stay in Chicago.

In connection with these operations in the CP, the following are some of the high lights of the information furnished by CG 5824-S* during the past year:

In January, 1961, attended three day meeting of National Committee (NC), CPUSA.

In January, 1961, reported details of five day visit of ELIZABETH GURLEY FLYNN, the Vice Chairman, CPUSA, in Chicago.

In January, 1961, furnished biographies prepared by the NC, CPUSA, on four leading CPUSA functionaries.

In February, 1961, furnished details regarding the activities of [] of EUGENE DENNIS, a Soviet national who came to the United States from the USSR to attend his father's funeral.

b6
b7C

In February, 1961, furnished confidential detailed financial report of CPUSA for the first eleven months of 1960.

In February, 1961, furnished information regarding Plenum of Central Committee CPSU (CCCPSU) held in January, 1961, at which reportedly two members of the Presidium were removed.

In March, 1961, supplied details regarding formation of new Administrative Committee of CP of Illinois and identified members thereof.

In March, 1961, furnished identity of members of NEB, CPUSA.

In late March, 1961, furnished names of individuals who were members of National Control Commission, CPUSA, and their Committee assignments.

In late March, 1961, furnished identity of names of four people under consideration as CPUSA delegates to 22nd Congress scheduled for Moscow in October, 1961.

In early April, 1961, furnished details of GUS HALL's secret trip to Chicago and details of preceding visit to Minneapolis, Minnesota.

In April, 1961, furnished information regarding formation of a new CP book store and import business in New York City.

In April, 1961, provided details of briefing to NC members participating in CPUSA delegation to Moscow May Day, 1961.

In April, 1961, advised CPUSA preparing to send two man delegation to Puerto Rico for the purpose of analyzing situation in that area and to study CP of Puerto Rico regarding possibility of revitalization.

In May, 1961, furnished information regarding open factional dispute in CPUSA between HALL and [] and results of special NEB meeting held on this matter May 9, 1961.

b6
b7C

In May, 1961, furnished list of names and short biographies of persons desiring to come or already in Cuba which had been sent to CPUSA for verification.

In May, 1961, furnished registration figure and dues payments figure for CP of Illinois.

In late May, 1961, furnished information that national leadership making effort to get request "from below" to postpone National Convention, CPUSA, scheduled for late 1961.

In late May and early June, 1961, furnished composition of and activities of CPUSA delegation to the USSR for May Day, 1961, including information on meeting of delegation with members of the CCCPSU and their comments on Berlin situation, details regarding the special seminar conducted by CPSU, etc.

In June, 1961, reported inquiry made by a member of North and South American Section, International Department, CCCPSU, regarding possibility of visit of GUS HALL to Soviet Union.

In mid-June, 1961, furnished information that GUS HALL in case of arrest for any reason outlined order of succession in CPUSA leadership as being [] and next JACK STACHEL.

b6
b7C

In mid-June, 1961, furnished information regarding bequest estimated at between \$20,000 and \$30,000 left to a third party in St. Louis for benefit of the CPUSA.

In mid-June, 1961, furnished information regarding security measures to be instituted by CP of Illinois in view Supreme Court decision and action taken to date in this regard.

In July, 1961, advised that a member of the CCCPSU, [redacted] reportedly stated that Soviet Union had capacity to launch 100 ton rocket within an hour.

In late July, 1961, reported on meeting of CP Illinois District Temporary Planning Committee of five and on the appointment of a sub-committee of two to work on CP of Illinois apparatus being created as a result of the Supreme Court decision.

b6
b7C
In late July, 1961, reported desire of GUS HALL to arrange a meeting with JAMES HOFFA of International Brotherhood of Teamsters.

In early August, 1961, reported composition of newly created CP Illinois District Jewish Commission.

In mid-August, 1961, furnished identity of CPUSA delegates to 22nd Congress CPSU which included CG 5824-S*.

In mid-August, 1961, furnished detailed information relating to reorganizing of New York District because of factional fight and furnished details of a reversal of a factionalist position by [redacted].

In late August, 1961, GUS HALL indicated a desire to hold meeting of people involved in CP underground in the early 1950s for an analysis of its strength and weaknesses.

In late August, 1961, furnished information on meeting of Party people in Teamsters Union to be held in Detroit, September 10, 1961.

In September, 1961, advised that according to top CPUSA official, KWAME NKRUMAH, Prime Minister of Ghana, during recent conversation with KHRUSHCHEV had decided on development of Ghana by a Marxist road and learned that NKRUMAH expected all aid he needs from Soviet Union to achieve this goal.

In September, 1961, learned that Doctor W. E. B. DU BOIS and wife were to depart the United States and take residence in Ghana where DU BOIS will head newly created African Institute and that KHRUSHCHEV had approved this appointment.

b6
b7C

In September, 1961, reported on departure of [redacted]
[redacted] to Soviet Union for the funeral of FOSTER and her
intention to remain in the Soviet Union until the 22nd Congress.

Information subsequent to the above date is contained
in another section of this letter as it relates to the Solo
mission.

C. Solo Mission as Fraternal Delegate to the 22nd Congress, CPSU, as Official CP Representative to Deal With the Russians and Information Obtained on Visit to Prague, October 2- 6, 1961

Through the planning of SA [redacted] the informant was successful in [redacted] 22nd Congress of the CPSU. The four other delegates were [redacted]

[redacted], and these individuals went openly as delegates while the trip of CG 5824-S* on the instructions of HALL was made under covert conditions. Because all of the delegates outranked CG 5824-S* by title, it was necessary to maneuver to have CG 5824-S* placed in a special category as the sole person of the CPUSA delegation to deal with the CPSU officials on confidential and apparatus matters. The agent and the informant were successful in their efforts to accomplish this purpose and the informant departed from the United States with a letter in his possession signed by GUS HALL to this effect, and it permitted him to retain his apparatus power despite the desires of [redacted] and [redacted] [redacted] to wrest particularly money matters from the informant's grasp.

On arrival in Moscow and prior to the beginning of the 22nd Congress on October 17, 1961, the informant devoted his time to the preparing of documents to be presented to the Soviet officials including one document requesting \$750,000

9. He furnished outstanding information of a rift in the international Communist movement which developed in late 1961. This was brought into official focus in October, 1961, in an article attributed to TOGLIATTI which appeared in "Pravda." In this article TOGLIATTI spoke of the "degeneration" in the Party rather than blaming the atrocities which have admittedly occurred under Communism to a cult of the personality. The debate or rift involves the question of "polycentrism" being carried on by the CP of Italy and the CP of France. In effect this theory questions the need of one world center of Communism and suggests the organization of Communist states on a regional basis consisting of Parties which have similar problems.

10. He furnished additional evidence of continued strained relations between the CP of China and the CPSU as well as strained relations in state politics between the same countries.

11. He furnished information on the fact that the CPSU acknowledges that the Albanian Party of Labor speaks for the CP of China and furnished evidence that there are extremely strained relations between the CPSU and the Czech Party as against the CP of Albania.

18. He furnished many documents, in English and other languages, relating to the 22nd Congress, CPSU.

19. Informant also furnished information concerning the desire of the CPSU to reinstitute a Lenin-type school for international Communist leadership together with conveying a request for the CPUSA to send people to a higher Party leadership school in the USSR after which they could possibly be kept in the USSR as a type of reserve leadership.

20. Informant as a result of Solo mission received positive assurance from top CP representatives of the CPSU International Department that the Solo operation headed by CG 5824-S* and NY 694-S* is the official and only existing apparatus between the CPSU and the CPUSA with the possible exception of certain emergency contacts which might be handled between Soviet United Nations delegates or in isolated instances the Embassy people. This means the Solo operation will continue to be the main line of communication between the CPUSA and the CPSU and that the Bureau will continue to be in a position as an interceptor for all these apparatus activities.

Investigative Problems Involved

The problems involved in a massive operation such as this are frequent, continuing, complicated and detailed.

It will be recalled that this operation began in 1952 when agents of this office began a program of reactivating CG 5824-S*, a former top functionary of the CPUSA, and to guide him to penetrate into the highest level of international Communist movement. This goal and many problems of reaching it have been solved and now the problem continues in a never ending effort to devise ways and means to preserve it at its present high level.

During the past year, SA [] has had the continuing problem of attempting to work with and keep an extremely sick informant motivated by patriotism alone to risk his life and health on a daily basis in efforts to provide the Bureau, the President and the Central Intelligence Agency with the highest of intelligence information. SA [] has succeeded by virtue of promoting an extremely close relationship with the informant and by regularly helping and aiding this informant in numerous ways in order to make the informant's job a little easier. This has involved much time and sacrifice on the part of SA [].

b6
b7C

Perhaps the biggest problem in a long term operation of this type is to mentally condition an informant to time after time go back and risk his life with people that he hates and fears for solely patriotic motives. In this connection it must be realized that this informant knows he has deceived the highest people in the international Communist movement for many years, and if he is ever exposed he feels sure that, whether he is exposed in the United States or abroad, he will be sought out and killed. Yet, SA [] has succeeded in persuading CG 5824-S*, knowing the above, to go on this most recent Solo mission.

b6
b7C

Two happenings occurred just before CG 5824-S* departed on his mission which required most delicate handling of him and presentation of the need for the informant to make the trip.

The first occurrence was the serious illness of the informant's father, age 87, and the eminence of his death.

The second was that the informant had a "mass" at the lower tip of his spine in the vicinity of his colon which caused him great pain to the point where he was unable to either sit or walk. He refused an operation until at the last minute before departure when he finally consented to an operation. The mass had been draining for months and the operation took place within a week of the date of departure. The doctor reluctantly permitted the informant to travel, pointing out that the mass would drain for months.

Despite these happenings, SA [] succeeded in persuading the informant to depart although he had to depart including in his luggage two suitcases of sanitary pads to provide the necessary dressings for his operation which was bleeding profusely at the time and on which the prognosis was that it would continue to drain for months.

b6
b7C

The Bureau is aware that the informant's father died before the informant's return from the USSR. Also, that the informant's mass continued to drain for the sixty days in which he was gone and he was in constant pain from an open wound refusing to be hospitalized in the USSR for security reasons.

The problems of Solo for future missions were made even more difficult by virtue of the informant's experience in being held without explanation by the Party in Prague as he was returning to the United States. The informant lived in fear of disclosure for almost four days unable to find out why he was retained and fearing his exposure. He will not soon forget this experience unless SA [] continues to skillfully handle him and conditions his thinking.

Prior to the Solo trip, SA [] carefully prepared the informant with the use of passports, props, etc., in order to make the trip look legitimate. These problems required initiative and ingenuity.

It is further observed that SA [] during the past year, had the problem of acclimating himself to the personality of the informant and to his methods of operation as they related to the receipt and reporting of information. The reporting of information from CG 5824-S* requires extensive research and study and one must acquaint himself with names and titles of every Communist leader in the world in order to handle the assignment. He must also acquaint himself with an understanding of Marxism-Leninism and Communist terminology. SA [] has met these problems in an outstanding way.

b6
b7c

Despite the difficulties and hardships of this assignment, SA [] has willingly accepted duties on a seven day a week, 365 day a year basis, together with the many problems and liabilities which come up in such a large operation. He has been diligent and conscientious in all of his efforts and has built up an extremely close relationship with the informant which has proved most beneficial in the continuation of the over-all operation.

PERSONNEL RESPONSIBLE

The Bureau is aware that CG 5824-S* was originally developed by SA CARL N. FREYMAN. After SA FREYMAN became a supervisor, he has continued to supervise the over-all operation of this informant from that time to date. However, the detailed development and handling of this informant for the past year has been in the hands of SA [] Supervisor FREYMAN continued the handling, contacting, guiding and over-all supervision of CG 5824-S* and the Solo operation. In April, 1962, this operation will be ten years old. Supervisor FREYMAN has supervised the operation for seven years and handled the informant for approximately three years. On a daily basis he has conferred and collaborated with SA [] in connection with the problems which arose in the handling and guiding of this informant and his activities. Supervisor FREYMAN personally participates in contacts by SA [] with the informant.

b6
b7c

Supervisor FREYMAN has continued close direction and supervision of this operation and has made a major contribution in giving the over-all operation continuity which is necessary for such a major operation. He has a close personal relationship with this informant of approximately ten years, which has enabled the operation to continue through many trying circumstances.

During the pertinent period many of the problems outlined in this memorandum, including the over-all problem of continuity of the operation of CG 5824-S* at the highest possible level despite a change of leadership in the CP, depended on the right policy-making decisions at the supervisory level.

SA FREYMAN has developed an outstanding interest and knowledge of Marxism and Leninism which are essential to the continuous program of advancing and operating this informant at the highest possible national and international level. FREYMAN personally participates in a large number of interviews with this informant. I have personally talked to the informant on several occasions with FREYMAN and have been very much impressed with the tremendous confidence which the informant has in SA FREYMAN. I very frankly feel that if it were not for the guidance which FREYMAN gives to the informant, the informant's activities would not be nearly as productive or effective. FREYMAN has also been able to give the informant confidence and assurances concerning the possibility of the informant returning safely to this country after completing his dangerous mission. Mr. FREYMAN has devoted a great deal of his personal time, both at night and weekends, to the handling of this informant with SA [].

All of the problems of handling an operation of the magnitude and duration of the Solo operation require constant attention and planning. During the pertinent period new problems constantly arose and were met by both the contacting agent and the supervisor.

Upon the completion of the most recent Solo mission, much of the information was gathered over the holiday period at sacrifices to the contacting agent who took no leave and also to the main stenographer responsible for the mechanical work, that is, [redacted].

b6
b7C

[redacted] has been assigned full-time as the stenographer for the over-all Solo operation and has taken approximately 85% of all dictation of information from this informant during the past year. This information is contained in excess of 20 volumes of finished material. She has done an outstanding job in that her work is extremely accurate and she has taken a personal interest in doing a most conscientious job with difficult dictation, including names and terminology.

? // She has prepared her own index and file cards with file numbers on them. She has also prepared a file containing caution paragraphs which are customarily used in this operation and this has caused a considerable amount of saving in agent dictation time as a result. She is the type of stenographer who has acted on general direction in setting up her work and in speedily completing this work. She is a most willing worker and a self-sacrificing stenographer who during December, 1961, and January, 1962, has worked after office hours on Solo materials of an expeditious nature and who volunteered to give one full day of work waiving her compensatory leave.

? She has taken the informant's dictation by phone on numerous occasions during the year, and with Bureau authority has taken the informant's dictation personally. The informant has full faith in her and she is fully cognizant of the trust which has been placed in her in connection with her assignment. Her responsibilities have been demanding in that all materials received from this informant must be handled on a one day expeditious basis and must of necessity be completely accurate. She has compiled a list of spellings of names for every Communist leader in the world. This has contributed to her accuracy. On the basis of her sustained outstanding performance for the past year she is being recommended for an incentive award.

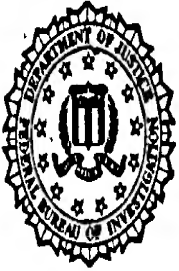

In addition to [redacted], [redacted] has operated as the relief stenographer for the Solo materials during the past year. She has handled the overflow materials from the Solo operation and during the course of the year has served as the relief stenographer for [redacted]. She has done outstanding stenographic work and is extremely accurate, and during the period of the Solo dictation she exerted extra effort. [redacted] has also had a long period of service as relief stenographer in the Solo operation and has familiarized herself with Communist terminology and acquainted herself with the extremely difficult spellings of international CP leaders' names, and it is felt that her effort has been well above average and is worthy of commendation.

b6
b7C

The informant also made many sacrifices for the success of this operation in addition to the personal risks of life and a continued overtaxing of his physical resources. His father died while he was abroad, and on one occasion while in Prague the informant was held and was quite certain that he had been exposed.

Summarizing, the continued outstanding results of the Solo operation have required the continued, combined, wholehearted efforts of all personnel involved, that is, the contacting agent SA [redacted] the supervisor and the stenographic personnel. It is on this basis that individual recommendations are being made.

RE: SA

FREYMAN, Carl N.
(Type or print plainly)

Dear Sir:

For inclusion in the fund to be paid to the designated beneficiary of any Special Agent of the FBI who has previously contributed to this fund and who dies from any cause except self-destruction while employed as a Special Agent, I am forwarding herewith (by CHECK - MONEY ORDER) the sum of \$10, payable to the Assistant Director, Administrative Division, FBI, to be included in said fund. Payment will be made for death by self-destruction after the Agent has been a member of the fund for a continuous period of two years. It is understood and agreed that the sum tendered herewith is a voluntary, gratuitous contribution to said fund which I understand is to be administered in the following manner.

The Director of the FBI will appoint a committee which shall consider all matters pertaining to the acquisition, safe keeping and expending of said fund, which committee will recommend appropriate action to the Director in pertinent matters. The Assistant Director of the Administrative Division of the FBI shall receive all contributions and account for same to the Director. Upon the death of any Special Agent who is a member of said fund the appointed committee will consider the case and submit a recommendation to the Director as to its conclusions. Appropriate instructions will then be issued to the Assistant Director of the Administrative Division, directing him to pay to the designated beneficiary the sum of \$10,000. The liability of the fund shall not under any circumstances exceed the amount of monies in the fund at the time any liability shall occur. The following person is designated as my beneficiary for FBI Agents' Insurance Fund:

RATING GUIDE AND CHECK-LIST

Note: Only those items having pertinent bearing on employee's performance should be rated. All employees in same salary grade should be compared.

Rate items as follows:

- + Outstanding (exceeding excellent and deserving of special commendation).
E Excellent.
✓ Satisfactory (good or very good).
- Unsatisfactory.
O No opportunity to appraise performance during rating period.

Guide for determining adjective rating:

1. "Outstanding" adjective rating requires (A) that all rated elements be "+" and (B) that each and every rated element be factually justified by narrative detail on reverse of Form FD-185.
2. "Excellent," "Satisfactory" or "Unsatisfactory" adjective ratings will depend upon the composite result of evaluating all rated elements rather than following any mechanical formulas; however, for an employee to be rated "Excellent" he must not be rated unsatisfactory on any performance evaluation factors on the rating guide and check-list and must be rated "Excellent" or "Outstanding" on the majority of such rating factors. Good judgment must be exercised to insure that adjective rating is reasonable in the light of elements rated.
 - A. Any element rated "Unsatisfactory" must be supported by narrative comments.
 - B. An "official" adjective rating of "Unsatisfactory" must comply with the requirements described on the reverse of form FD-185.

PART I. GENERAL COMMENTS

Mr. FREYMAN makes a very neat, mature personal appearance and has a very pleasing personality. He is Supervisor of the S-2 Squad, which squad handles basic revolutionary groups, front groups, top functionaries, key figures and security informants. He has an excellent knowledge of Bureau policies and procedures which knowledge is put to very good use in his day-to-day work. He has an outstanding knowledge of Marxist-Leninist doctrine and philosophy. He is continually studying in order to broaden his knowledge of the Communist philosophy.

Mr. FREYMAN has an extreme interest in doing all that he possibly can to combat the Communist menace. He is one of the most conscientious, devoted and dedicated FBI employees that I have ever met. His overtime is constantly high above the office average, and he willingly sacrifices his personal time in order to insure that the Bureau's responsibilities in his sphere of our operations are fulfilled. I consider him unquestionably one of the best supervisors in the office.

Mr. FREYMAN has made some substantial contributions to the Bureau's counterintelligence program, and under his leadership his squad has achieved excellent results on this vital program. Mr. FREYMAN has the respect of the agents assigned to his squad and as a result of his inspiring leadership, obtains maximum productivity and results from his men.

On May 26, 1961, he was commended by the Director for his excellent supervision of an operation of much value to the Bureau in the security field. The Director indicated the success achieved in obtaining a great deal of valuable information can be attributed in a material degree to the splendid guidance which SA FREYMAN afforded the participating agents as well as his co-ordination of the entire undertaking.

On October 13, 1961, he was also commended for his excellent supervision of a similar type operation in the

CnY

security field. The Director indicated SA FREYMAN contributed materially to the results realized through the constructive suggestions he made and the close attention which he afforded this delicate matter. The Director indicated that the success achieved was indeed noteworthy and was certainly a splendid accomplishment in our work in the security field.

On February 14, 1962, he received an incentive award in the amount of \$250.00 in special recognition of his outstanding supervision of the handling of a highly confidential source of considerable value to the Bureau in the security field. The Director indicated that he should be proud of the significant role he played in the acquisition of information of vital importance to the welfare of our country.

Mr. FREYMAN is fully capable of supervising the most complicated type case, and I would have no hesitancy in assigning him to handle raids and dangerous assignments in either a participating or leadership capacity.

intelligence, and his delivery while discussing matters at various conferences, it is felt he would be a very competent witness.

5. Disciplinary Action

On December 12, 1961, it was necessary for the Bureau to criticize Mr. FREYMAN for failure to advise the SAC of an incident which occurred during an investigation of MORTIMER DANIEL RUBIN, subject of an Internal Security case. The Bureau indicated that this omission was a serious reflection upon him. This letter of censure has been taken into consideration insofar as the over-all rating is concerned and also with respect to items 7 and 10 on the rating guide and check list.

SAC GALE: SA FREYMAN makes a neat, mature personal appearance and creates a very good impression on those with whom he comes in contact. He is Supervisor of the S-2 Squad in Chicago, which squad handles basic revolutionary groups, front groups, top functionaries, key figures and security informants. He has an excellent knowledge of Bureau policies and procedures. He has an outstanding knowledge of Marxist-Leninist doctrine and philosophy. He is continually studying in order to broaden his knowledge of the Communist philosophy, and he puts this knowledge to excellent advantage in his day-to-day work.

He is also excellent with informants and has done an outstanding job in connection with a highly confidential informant, CG 5824-S. He received an incentive award on February 14, 1962, for his outstanding supervision and handling of this informant.

Mr. FREYMAN is fully capable of supervising the most complicated type case, and I would have no hesitancy in assigning him to handle raids or dangerous assignments. I feel that Mr. FREYMAN is definitely capable of advancing further in the Bureau's service. However, for the present, he is not immediately available for general assignment. He continues to be the full support of his aging mother, who is in poor health, and for that reason FREYMAN cannot accept a transfer and is not completely available for transfer anywhere at this time. When this problem is alleviated, he will be fully available.

INSPECTOR [REDACTED]
(EFL:gh 3/7/62)

Freyman has a tall stocky build, is 46 years of age, mature, dresses in good taste, has a pleasant personality and makes an excellent Bureau representative. He is within desirable weight limits.

During the 3-month period November through January, Freyman's voluntary overtime was 5' 8", 4' 45" and 3' 43" per day respectively, compared to the 3-month office average of this period of

CHICAGO INSPECTION

2/21/62

2 MAR 12 1962

3-1110

2' 36" per day. Freyman explained that this high overtime was due to debriefing Chicago 5824-S who returned from a "Solo" mission during this period as well as heavy desk responsibilities. SAC Gale stated he would attempt to have Freyman reduce his high overtime.

In addition to the incentive award mentioned by the SAC, Freyman received the following commendations since the last inspection: (1) By letter 10/13/61, commended for excellent supervision of an operation of much value to the Bureau in the security field. (2) By letter 5/26/61, commended for same reason as above. (3) By letter 2/28/61, commended and received a \$250 award for handling of an extremely confidential source of information of vital importance to the Bureau in the security field.

Freyman was censured by letter 12/12/61 for not bringing a matter to the immediate attention of the SAC.

b7D

During the inspection Freyman answered a substantive error write-up which occurred on his desk in the case entitled "CG 6344-S Chicago file [redacted] Bureau file 100-248516, a copy of which is attached. The error involved the incorrect procedure of the informant authenticating copies of the channelizing memoranda instead of original statements of the information furnished orally. Chicago file numbers also appeared on 2 of the informant reports in violation of current Bureau rules regarding the preparation of reports from security informants. Freyman explained that he thought that in view of the high volume of information furnished and the urgency of getting the information to the Bureau that the authenticated copy of a channelizing memorandum would suffice as an original recording. He admitted that placing the file numbers on 2 informant reports was in error. This informant is highly placed in the Communist Party of Illinois and is one of the best security informants of the Chicago Office. He furnishes a large volume of high quality information. The Chicago Office has agreed to change its procedure and reduce the oral information furnished by this informant to original informant statements for authentication by the informant as required by current Bureau procedures.

Freyman displayed an excellent attitude when interviewed concerning the substantive error write-up and stated that he desired to carry out the instructions of the Bureau. In regard to his unavailability, for special or general assignment, Freyman explained that the condition of his mother has not improved and is worse than before since she is currently troubled with Arthritis. He stated that he is interested in administrative advancement

but due to the condition of his mother, he does not wish to leave the Chicago area. Freyman has an excellent record of accomplishments in the security field and it is believed that answering the substantive error write-up and the interview will serve to prevent recurrence of similar delinquencies in the future. It is felt that no further administrative action is warranted in this instance.

RECOMMENDATIONS:

- (1) That no administrative action be taken in regard to the substantive error write-up.
- (2) In view of his excellent work record as a supervisor and in spite of his current unavailability for transfer, that he be continued in his present supervisory assignment.
- (3) In light of his brilliant background in communist matters, and as a field supervisor, that he be considered for further administrative responsibility when his availability problem is alleviated. His potential is rated as excellent.
- (4) Responsibility of the SA involved is being handled separately.
- (5) There is no Seat of Government responsibility since the SOG Supervisor would have no way of knowing how the oral information from the informant was recorded in the field office files and that the file numbers appeared on 2 informant reports.

INSPECTOR [redacted]: This pending security informant
[redacted] has been assigned to SA [redacted]
[redacted] since August 26, 1960. The informant is [redacted]
[redacted]

He furnishes a large volume of high quality information at the highest level and is in contact with all of the paid Communist Party functionaries in Illinois.

On February 21, 1962, two Departmental attorneys called at the Chicago Office and considered the possibility of utilizing the informant, among other potential witnesses, in the pending prosecution of GUS HALL, General Secretary of the Communist Party, USA.

Most of the information furnished by the informant is oral and is reduced to writing by the Agent in the form of a channelizing memorandum, one copy of which is authenticated by the informant by signing his code name to each page thereof.

The Manual of Instructions, Volume 4, Section 107, Pages 10 and 11, gives detailed instructions regarding the handling of information furnished orally by informants. One instruction states, "Prepare on paper devoid of any Bureau markings or identification." Obvious administrative data such as file numbers should be omitted. Separate statements are to be prepared for each meeting or each separate activity and the information, after being reduced to writing, should then be read promptly and acknowledged by the informant by affixing his code name on each page. The manual points out that informant reports

CHICAGO INSPECTION

should be carefully scrutinized, bearing in mind that if informant is called upon to testify at a later date, his statement will very likely be introduced in court. Correct procedure in handling oral information is to first reduce the oral information to a written statement, have informant read and correct and initial any corrections; sign each page with his code name; then channelize the information after it has been authenticated.

SA [] does not reduce the informant's information to an original written statement to be authenticated by the informant but instead records the information directly into a channelizing memorandum, one copy of which is taken to the informant and authenticated by him. (The pages of the channelizing memorandum showing administrative data and files to which channelized are not authenticated by the informant.) The weakness of the informant authenticating a copy of the channelizing memorandum is that an original document is not available for future use in court. Further, sometimes an excess of 25 copies for other files are already prepared and run off before the informant has an opportunity to make any corrections in the document. If corrections are necessary, a major problem is involved in making them in the numerous copies.

b6
b7C

Serial 493 in sub section A of this file is an authenticated copy of informant's oral information of a October 29, 1961, Communist Party District Board meeting. It consists of 17 pages and is reduced to writing on blue airtel paper in the form of a channelizing memorandum and each page bears Chicago file 100-18953 (file on Communist Party, USA, Illinois District - Organization, IS-C).

Explanations are requested from SA [] and Supervisor CARL N. FREYMAN as to:

1. Why does Chicago file 100-18953 appear on an original informant report (serial 493 in sub section A of [] ?

2. Why are copies of channelizing memorandum being authenticated as original informant reports in this file instead of having an original typed statement presented to informant for correction and authentication before channelization takes place? (The usual process of making channelizing memoranda in this file is by the multilith process.)

b6
b7C
b7D

3. Why did informant authenticate a copy of a letterhead memorandum dated February 21, 1961, entitled "Pro-Lumumba Demonstrations in the United States; Internal Security - Africa"? This letterhead memorandum bore Chicago file number 105-9539 and was classified confidential. (Serial 363 in sub section A).

Comments of SAC GALE are requested.

b6
b7C

The practice of multilithing all informant reports taken from CG 6344-S in those instances where extensive channelizing was necessary was practiced at the time this informant was taken over by the writer. This system has been continued during the course of processing information received from him. One of these channelizing memoranda is signed by the informant and is considered the original. In cases where fewer than eleven copies are needed, the informant signs the original typewritten copy.

b7D

In the case of serials 493 and 363 of section A of both were airtels containing urgently needed intelligence information which required prompt handling. Source furnished the information orally and it was not possible to reach him for authentication and at the same time satisfy the requirements of the Bureau for immediate handling. The outgoing communication, therefore, became the original recording of this informant and it was necessary for him to authenticate same. The administrative cover pages, of course, were not exhibited to the informant and only the report portion of the report was signed by him. A subsequent recording of this information for the informant's signature would, therefore, be a secondary report and not the one that would be required to be produced on motion of a defense attorney.

It is pointed out that this informant is highly placed and cannot prepare his own reports inasmuch as his wife is unaware of his relationship with the Bureau. Due to informant's wife, contacts are had with him at a maximum of once a week and often every two weeks. To take the information from the informant, to return to the office and put it in writing, and then to wait one or two weeks to see him for authentication before this information could be channelized, could result in delay in channelizing of valuable information as much as three to four weeks.

b7D

Three other informants assigned to the writer have been schooled to prepare and submit their own reports. The writer takes voluminous notes in shorthand on each occasion of a meeting with [redacted] and the information received from this informant is placed into memoranda verbatim as the informant dictates it. Informant reviews it and subscribes to its accuracy.

Through inadvertence the files numbers appearing at the top of the pages of serials 493 and 363 went unnoticed at the time it was authenticated by the informant.

Supervisor FREYMAN:

With regard to items one and three, both of these informant's statements contained materials of an expedite nature requiring immediate dissemination to the Bureau. The communication of November 3, 1961, was information regarding [redacted] [redacted] was discussed and on which there were Bureau instructions to be advised immediately. This information was received October 29, 1961, and dictated October 30, 1961, directly as an airtel to the Bureau. There was no opportunity to prepare an informant report, to wait for the informant to become available to authenticate same, and to then submit the information to the Bureau. The informant statement submitted in the airtel, therefore, by circumstance became the original recording of information. Any subsequent preparation of an informant statement for the informant's signature would, therefore, not be an original recording. For that reason it was necessary for the informant to sign the original outgoing informant statement which because of the number of copies involved had been duplicated on multilith. One of the multilith copies, therefore, became the informant's original report and through inadvertence the file number was not detected by me.

b6
b7C
b7E

Regarding item three, this error also occurred through inadvertence in an effort to get important intelligence information regarding [redacted] to the Bureau on the same date of receipt of information by telephone by the informant. It was not possible to see the informant on that date for an authentication before an airtel communication to the Bureau was sent. Again, once the communication left this office the memorandum became the original recorded document and for this reason it became necessary for the informant to authenticate the memorandum.

It is my observation through past experience in Smith Act trials that matters of an administrative nature on motion of the government are viewed by the court in camera. If the request does not go to the merits of the document and the motion is merely to exclude administrative matters, including file numbers and other administrative data, the court, in my experience, has readily acceded to the government's motion to clip the administrative data from the report. I believe the questions raised in items one and three do not go to the substance of the report and are totally administrative and would not be a basis for exclusion by the court.

Regarding item two, this informant, because he is highly placed and because his wife is totally unaware of his status, has great difficulty in making personal contact with the agent handling him. He is never seen more than once a week and frequently is seen only every two weeks. Therefore, information taken during one contact must be brought back to the office and typed and if a system other than the one utilized by this office is required, a delay conceivably of several weeks could occur before necessary channelization of material was made. This would present a problem of servicing the Bureau expeditiously and it is my recollection that on at least one item furnished by this informant a question was raised by the Bureau as to why information received on one day and submitted to the Bureau by airtel on the same day was not sent by more expeditious means; therefore, SA [] who is a former Bureau stenographer, was assigned approximately two years ago to record the information dictated by this informant verbatim, to dictate the stencil and to handle it through channelization at the earliest possible time. It is believed that the stencil is an original recording of information done in the ordinary course of business contemporaneously and the question as to whether the information is recorded on multilith or originally on bond paper so long as both are practiced in the due course of office procedure is not significant to the court. It is noted also that FD-302s which record the agent's recollections of interviews are placed on multilith as accepted practice with one copy initialled by the recording agent. The Bureau approved form for FD-302s contains a space for the Bureau file number and this form is also used to record information on security investigations. It is believed that analogous situations are involved.

b6
b7c

The specific reasons for the practice in the instant case has been outlined. On the over-all picture, it is further observed that there is a total duplication of

There are attached herewith recommendations for incentive awards in the amount of \$500 each for SAs [redacted] and CARL N. FREYMAN based upon sustained above average performance and the overcoming of unusual difficulties in the continued operation of CG 5824-S* from January, 1961, to January, 1962, which was culminated in another outstanding Solo operation of almost 60 days duration from October to December, 1961. The results of this operation are set forth in detail in the justification to this recommendation.

b6
b7c

Recommendation is additionally being made for a bonus payment to CG 5824-S* in the amount of \$1,000 based upon his extraordinary services and accomplishments in connection with this latest Solo mission which was accomplished at personal risk of life in going behind the Iron Curtain in the USSR for a period of 60 days to accomplish extraordinary results as well as involving personal sacrifices including departing on the mission in extremely poor health and while his father's death was eminent.

It is noted that the informant's father died before the informant was able to return to this country.

This informant has given the Bureau a tremendous number of hours of time to successfully accomplish his desires of furnishing the Bureau with the highest type of intelligence information available on both the Communist international picture and the Communist Party-USA. During the pertinent period he was able to maintain his position of power despite a change of leadership in the CPUSA to the point where he, in fact, today is in a much stronger position to assist the Bureau since he is almost what could be termed

a chief advisor to GUS HALL. In the past year the informant has again sacrificed a vacation. His sole time off was a three day trip to the West Coast to visit his son and daughter-in-law immediately prior to the Solo mission, the main purpose of which was to conduct some family business.

In addition to the monetary recommendation, there is attached herewith a proposed personal letter to be sent by the Director to CG 5824-S*.

In addition, recommendation is being made for an incentive award for stenographer [redacted] who for the past year has taken approximately 85% of all dictation in the Solo operation which as indicated in the justification memorandum encompassed in excess of 20 volumes of finished material. During the past year she has been assigned full-time to Solo dictation and has done an outstanding job in that her work is extremely accurate and she has taken a personal interest in doing a most conscientious job with difficult dictation, including names and terminology. She is a most willing worker and a self-sacrificing stenographer who during December, 1961 and January, 1962, has worked after office hours on Solo materials of an expeditious nature and who volunteered to give one full day of work waiving her compensatory leave. She has taken informant's dictation by phone and with Bureau authority has taken the informant's dictation personally. The informant has full faith in her and she is fully cognizant of the trust which has been placed in her in connection with her assignment. The stenographic position is demanding in that all materials received from this informant are of an expedite nature and must of necessity be accurate. On a basis of her sustained outstanding performance, a recommendation of \$150 incentive award is being made.

b6
b7C

In addition, recommendation is being made for a letter of commendation for [redacted] the relief stenographer for the Solo materials. [redacted] has handled the overflow materials from the Solo operation and during the course of the year has served as a relief for stenographer [redacted]. She has done outstanding stenographic work and during the period of the Solo dictation she exerted extra effort.

CG 67-832

It is noted that the Bureau has always considered the operations of CG 5824-S* and NY 694-S* as a unit operation. CG 5824-S* has repeatedly reiterated that particularly since the death of his wife he has come to rely more and more on NY 694-S* in connection with the over-all operation and that but for the services of NY 694-S* he does not believe he could continue with the over-all Solo operation. The Bureau may also desire to consider NY 694-S* for inclusion in the over-all incentive awards.

Rebulet 6/5/62, requesting explanations concerning the fact that certain confidential items in SA FREYMAN's expense account were not submitted in accordance with regulations.

SA FREYMAN is the employee responsible for this error and he indicates that the omission of the inner envelope properly addressed and prepared was through inadvertence. SA FREYMAN is an extremely dedicated and conscientious Supervisor who handles a tremendous volume of work. I have scored a form error against him which will be taken into consideration in the preparation of his next performance rating and have thoroughly admonished him to pay closer attention to administrative details such as these in the future. A copy of SA FREYMAN's memorandum of explanation is enclosed.

In light of all circumstances it is recommended that no further administrative action be taken against this employee.

RATING GUIDE AND CHECK-LIST

Note: Only those items having pertinent bearing on employee's performance should be rated. All employees in same salary grade should be compared.

Rate items as follows:

- + Outstanding (exceeding excellent and deserving of special commendation).
E Excellent.
✓ Satisfactory (good or very good).
- Unsatisfactory.
O No opportunity to appraise performance during rating period.

Guide for determining adjective rating:

- "Outstanding" adjective rating requires (A) that all rated elements be "+" and (B) that each and every rated element be factually justified by narrative detail on reverse of Form FD-185.
- "Excellent," "Satisfactory" or "Unsatisfactory" adjective ratings will depend upon the composite result of evaluating all rated elements rather than following any mechanical formulas; however, for an employee to be rated "Excellent" he must not be rated unsatisfactory on any performance evaluation factors on the rating guide and check-list and must be rated "Excellent" or "Outstanding" on the majority of such rating factors. Good judgment must be exercised to insure that adjective rating is reasonable in the light of elements rated.
 - Any element rated "Unsatisfactory" must be supported by narrative comments.
 - An "official" adjective rating of "Unsatisfactory" must comply with the requirements described on the reverse of form FD-185.

PART I. GENERAL COMMENTS

SA FREYMAN makes a very neat, mature personal appearance and has a very pleasing personality. He is Supervisor of the S-2 Squad which handles basic revolutionary groups, front groups, top functionaries, key figures and security informants. He has an excellent knowledge of Bureau policies and procedures which knowledge is put to very good use in his day-to-day work. He has an outstanding knowledge of Marxist-Leninist doctrine and philosophy. He is continually studying in order to broaden his knowledge of the Communist philosophy.

SA FREYMAN is an extremely conscientious and dedicated man. He is doing all that he possibly can to combat the Communist menace. He is unquestionably one of the most devoted and diligent FBI employees that I have ever met. His overtime is constantly above the office average and he willingly sacrifices his personal time in order to insure that the Bureau's responsibilities in his sphere of our operations are fulfilled. SA FREYMAN commands the respect of all his subordinate employees and as a result of his inspiring leadership, he obtains maximum productivity and results from his men.

SA FREYMAN is extremely ingenious and is continually thinking of new ideas in connection with the Bureau's counterintelligence program. His squad has made substantial contributions to this program and have achieved excellent results.

SA FREYMAN supervises the Solo operation which is highly complicated, delicate, and of utmost importance. He has done an outstanding job in regard to all facets of this program.

DF
Agent's Initials

He is fully capable of supervising the most complicated type cases, and I would have no hesitancy in assigning him to handle raids and dangerous assignments in either a participating or leadership capacity.

SA FREYMAN is very experienced and an excellent field supervisor. He is interested in administrative advancement and is fully capable of immediately assuming additional supervisory responsibilities. I would rate him Excellent in this category. However, for the present he is not immediately available for general assignment. As the Bureau is aware, he has continued to be the sole support of his mother and details have been previously furnished the Bureau. When this situation is alleviated, he will, of course, become immediately available.

Dear Sir:

For inclusion in the fund to be paid to the designated beneficiary of any Special Agent of the FBI who has previously contributed to this fund and who dies from any cause except self-destruction while employed as a Special Agent, I am forwarding herewith (by CHECK - MONEY ORDER) the sum of \$10, payable to the Assistant Director, Administrative Division, FBI, to be included in said fund. Payment will be made for death by self-destruction after the Agent has been a member of the fund for a continuous period of two years. It is understood and agreed that the sum tendered herewith is a voluntary, gratuitous contribution to said fund which I understand is to be administered in the following manner.

The Director of the FBI will appoint a committee which shall consider all matters pertaining to the acquisition, safe keeping and expending of said fund, which committee will recommend appropriate action to the Director in pertinent matters. The Assistant Director of the Administrative Division of the FBI shall receive all contributions and account for same to the Director. Upon the death of any Special Agent who is a member of said fund the appointed committee will consider the case and submit a recommendation to the Director as to its conclusions. Appropriate instructions will then be issued to the Assistant Director of the Administrative Division, directing him to pay to the designated beneficiary the sum of \$10,000. The liability of the fund shall not under any circumstances exceed the amount of monies in the fund at the time any liability shall occur. The following person is designated as my beneficiary for FBI Agents' Insurance Fund:

**SA CARL N. FREYMAN
EXPENSE VOUCHER FOR MAY, 1962
AMOUNT - \$60.95**

Rebulet 6/5/62, requesting explanations concerning the fact that certain confidential items in SA FREYMAN's expense account were not submitted in accordance with regulations.

SA FREYMAN is the employee responsible for this error and he indicates that the omission of the inner envelope properly addressed and prepared was through inadvertence. SA FREYMAN is an extremely dedicated and conscientious Supervisor who handles a tremendous volume of work. I have scored a form error against him which will be taken into consideration in the preparation of his next performance rating and have thoroughly admonished him to pay closer attention to administrative details such as these in the future. A copy of SA FREYMAN's memorandum of explanation is enclosed.

In light of all circumstances it is recommended that no further administrative action be taken against this employee.

RE: SA

FREYMAN, CARL N.
(Type or print plainly)

Dear Sir:

For inclusion in the fund to be paid to the designated beneficiary of any Special Agent of the FBI who has previously contributed to this fund and who dies from any cause except self-destruction while employed as a Special Agent, I am forwarding herewith (by Check - Money Order) the sum of \$10, payable to the Assistant Director, Administrative Division, FBI, to be included in said fund. Payment will be made for death by self-destruction after the Agent has been a member of the fund for a continuous period of two years. It is understood and agreed that the sum tendered herewith is a voluntary, gratuitous contribution to said fund which I understand is to be administered in the following manner.

The Director of the FBI will appoint a committee which shall consider all matters pertaining to the acquisition, safe keeping and expending of said fund, which committee will recommend appropriate action to the Director in pertinent matters. The Assistant Director of the Administrative Division of the FBI shall receive all contributions and account for same to the Director. Upon the death of any Special Agent who is a member of said fund the appointed committee will consider the case and submit a recommendation to the Director as to its conclusions. Appropriate instructions will then be issued to the Assistant Director of the Administrative Division, directing him to pay to the designated beneficiary the sum of \$10,000. The liability of the fund shall not under any circumstances exceed the amount of monies in the fund at the time any liability shall occur.
